

that they must query the TRS Numbering Directory in order to obtain accurate routing information for a particular user of VRS or IP Relay.

(d) *Proxy numbers.* After December 31, 2008, a VRS or IP Relay provider:

(1) May not assign or issue a proxy or alias for a NANP telephone number to any user; and

(2) Must cease to use any proxy or alias for a NANP telephone number assigned or issued to any Registered Internet-based TRS User.

(e) *Toll free numbers.* A VRS or IP Relay provider:

(1) May not assign or issue a toll free number to any VRS or IP Relay user.

(2) That has already assigned or provided a toll free number to a VRS or IP Relay user must, at the VRS or IP Relay user's request, facilitate the transfer of the toll free number to a toll free subscription with a toll free service provider that is under the direct control of the user.

(3) Must within one year after the effective date of this Order remove from the Internet-based TRS Numbering Directory any toll free number that has not been transferred to a subscription with a toll free service provider and for which the user is the subscriber of record.

(f) *iTRS access technology.* (1) Every VRS or IP Relay provider must ensure that all iTRS access technology they have issued, leased, or otherwise provided to VRS or IP Relay users delivers routing information or other information only to the user's default provider, except as is necessary to complete or receive "dial around" calls on a case-by-case basis.

(2) All iTRS access technology issued, leased, or otherwise provided to VRS or IP Relay users by Internet-based TRS providers must be capable of facilitating the requirements of this section.

(g) *User notification.* Every VRS or IP Relay provider must include an advisory on its website and in any promotional materials addressing numbering or E911 services for VRS or IP Relay.

(1) At a minimum, the advisory must address the following issues:

(i) The process by which VRS or IP Relay users may obtain ten-digit tele-

phone numbers, including a brief summary of the numbering assignment and administration processes adopted herein;

(ii) The portability of ten-digit telephone numbers assigned to VRS or IP Relay users;

(iii) The process by which persons using VRS or IP Relay may submit, update, and confirm receipt by the provider of their Registered Location information;

(iv) An explanation emphasizing the importance of maintaining accurate, up-to-date Registered Location information with the user's default provider in the event that the individual places an emergency call via an Internet-based relay service;

(v) The process by which a VRS or IP Relay user may acquire a toll free number, or transfer control of a toll free number from a VRS or IP Relay provider to the user; and

(vi) The process by which persons holding a toll free number request that the toll free number be linked to their ten-digit telephone number in the TRS Numbering Directory.

(2) VRS and IP Relay providers must obtain and keep a record of affirmative acknowledgment by every Registered Internet-based TRS User of having received and understood the advisory described in this subsection.

(h) A VRS CA service provider shall fulfill its obligations under paragraphs (a), (c), (d), and (e) of this section using the Neutral Video Communication Service Platform.

[73 FR 41295, July 18, 2008, as amended at 76 FR 59557, Sept. 27, 2011; 78 FR 40608, July 5, 2013]

EFFECTIVE DATE NOTE: At 78 FR 40608, July 5, 2013, § 64.611 was amended by adding paragraphs (a)(3) and (a)(4). These paragraphs contain information collection and record-keeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

§ 64.613 Numbering directory for Internet-based TRS users.

(a) *TRS Numbering Directory.* (1) The TRS Numbering Directory shall contain records mapping the geographically appropriate NANP telephone number of each Registered Internet-

based TRS User to a unique Uniform Resource Identifier (URI).

(2) For each record associated with a VRS user's geographically appropriate NANP telephone number, the URI shall contain the IP address of the user's device. For each record associated with an IP Relay user's geographically appropriate NANP telephone number, the URI shall contain the user's user name and domain name that can be subsequently resolved to reach the user.

(3) Within one year after the effective date of this Order, Internet-based TRS providers must ensure that a user's toll free number that is associated with a geographically appropriate NANP number will be associated with the same URI as that geographically appropriate NANP telephone number.

(4) Only the TRS Numbering Administrator and Internet-based TRS providers may access the TRS Numbering Directory.

(b) *Administration*—(1) *Neutrality*. (i) The TRS Numbering Administrator shall be a non-governmental entity that is impartial and not an affiliate of any Internet-based TRS provider.

(ii) Neither the TRS Numbering Administrator nor any affiliate may issue a majority of its debt to, nor derive a majority of its revenues from, any Internet-based TRS provider.

(iii) Nor may the TRS Numbering Administrator nor any affiliate be unduly influenced, as determined by the North American Numbering Council, by parties with a vested interest in the outcome of TRS-related numbering administration and activities.

(iv) Any subcontractor that performs any function of the TRS Numbering Administrator must also meet these neutrality criteria.

(2) *Terms of Administration*. The TRS Numbering Administrator shall administer the TRS Numbering Directory pursuant to the terms of its contract.

(3) *Compensation*. The TRS Fund, as defined by 47 CFR 64.604(a)(5)(iii), may compensate the TRS Numbering Administrator for the reasonable costs of administration pursuant to the terms of its contract.

[73 FR 41296, July 18, 2008, as amended at 76 FR 59577, Sept. 27, 2011]

§ 64.615 TRS User Registration Database and administrator.

(a) *TRS User Registration Database*. (1) VRS providers shall validate the eligibility of the party on the video side of each call by querying the TRS User Registration Database on a per-call basis. Emergency 911 calls are excepted from this requirement.

(i) Validation shall occur during the call setup process, prior to the placement of the call.

(ii) If the eligibility of at least one party to the call is not validated using the TRS User Registration Database, the call shall not be completed, and the VRS provider shall either terminate the call or, if appropriate, offer to register the user if they are able to demonstrate eligibility.

(iii) Calls that VRS providers are prohibited from completing because the user's eligibility cannot be validated shall not be included in speed of answer calculations and shall not be eligible for compensation from the TRS Fund.

(2) The administrator of the TRS User Registration Database shall assign a unique identifier to each user in the TRS User Registration Database.

(3) *Data integrity*. (i) Each VRS provider shall request that the administrator of the TRS User Registration Database remove from the TRS User Registration Database user information for any registered user:

(A) Who informs its default provider that it no longer wants use of a ten-digit number for TRS services; or;

(B) For whom the provider obtains information that the user is not eligible to use the service.

(ii) The administrator of the TRS User Registration Database shall remove the data of:

(A) Any user that has neither placed nor received a VRS or point to point call in a one year period; and

(B) Any user for which a VRS provider makes a request under paragraph (a)(3)(i) of this section.

(4) VRS providers may query the TRS User Registration Database only for the purposes provided in this subpart, and to determine whether information with respect to its registered users already in the database is correct and complete.
