(c) Special access surcharges shall be assessed upon users of exchange facilities that interconnect these facilities with means of interstate or foreign telecommunications to the extent that carrier's carrier charges are not assessed upon such interconnected usage. As an interim measure pending the development of techniques accurately to measure such interconnected use and to assess such charges on a reasonable and non-discriminatory basis, telephone companies shall assess special access surcharges upon the closed ends of private line services and WATS services pursuant to the provisions of § 69.115 of this part.

Subpart B—Computation of Charges

§ 69.101 General.

Except as provided in § 69.1 and subpart C of this part, charges for each access element shall be computed and assessed as provided in this subpart.

[55 FR 42386, Oct. 19, 1990]

§ 69.104 End user common line for non-price cap incumbent local exchange carriers.

(a) This section is applicable only to incumbent local exchange carriers that are not subject to price cap regulation as that term is defined in § 61.3(ee) of this chapter. A charge that is expressed in dollars and cents per line per month shall be assessed upon end users that subscribe to local exchange telephone service or Centrex service to the extent they do not pay carrier common line charges. A charge that is expressed in dollars and cents per line per month shall be assessed upon providers of public telephones. Such charges shall be assessed for each line between the premises of an end user, or public telephone location, and a Class 5 office that is or may be used for local exchange service transmissions.

(b) Charges to multi-line subscribers shall be computed by multiplying a single line rate by the number of lines used by such subscriber.

(c) Until December 31, 2001, except as provided in paragraphs (d) through (h) of this section, the single-line rate or charge shall be computed by dividing one-twelfth of the projected annual revenue requirement for the End User Common Line element by the projected average number of local exchange service subscriber lines in use during such annual period.

(d)(1) Until December 31, 2001, if the monthly charge computed in accordance with paragraph (c) of this section exceeds $6, the charge for each local exchange service subscriber line, except a residential line, a single-line business line, or a line used for Centrex-CO service that was in place or on order as of July 27, 1983, shall be $6.

(2) Until December 31, 2001, the charge for each subscriber line associated with a public telephone shall be equal to the monthly charge computed in accordance with paragraph (d)(1) of this section.

(e) Until December 31, 2001, the monthly charge for each residential and single-line business local exchange service subscriber shall be the charge computed in accordance with paragraph (c) of this section, or $3.50, whichever is lower.

(f) Except as provided in § 54.403 of this chapter, the charge for each residential local exchange service subscriber line shall be the same as the charge for each single-line business local exchange service subscriber line.

(g) A line shall be deemed to be a residential line if the subscriber pays a rate for such line that is described as a residential rate in the local exchange service tariff.

(h) A line shall be deemed to be a single line business line if the subscriber pays a rate that is not described as a residential rate in the local exchange service tariff and does not obtain more than one such line from a particular telephone company.

(i) The End User Common Line charge for each multi-party subscriber shall be assessed as if such subscriber had subscribed to single-party service.

(j)–(l) [Reserved]
