

the same Major Trading Area, as defined in § 24.202(a) of this chapter.

(3) This definition includes telecommunications traffic exchanged between a LEC and another telecommunications carrier in Time Division Multiplexing (TDM) format that originates and/or terminates in IP format and that otherwise meets the definitions in paragraphs (b)(1) or (b)(2) of this section. Telecommunications traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment.

(c) *Transport*. For purposes of this subpart, transport is the transmission and any necessary tandem switching of Non-Access Telecommunications Traffic subject to section 251(b)(5) of the Communications Act of 1934, as amended, 47 U.S.C. 251(b)(5), from the interconnection point between the two carriers to the terminating carrier's end office switch that directly serves the called party, or equivalent facility provided by a carrier other than an incumbent LEC.

(d) *Termination*. For purposes of this subpart, termination is the switching of Non-Access Telecommunications Traffic at the terminating carrier's end office switch, or equivalent facility, and delivery of such traffic to the called party's premises.

(e) *Non-Access Reciprocal Compensation*. For purposes of this subpart, a Non-Access Reciprocal Compensation arrangement between two carriers is either a bill-and-keep arrangement, per § 51.713, or an arrangement in which each carrier receives intercarrier compensation for the transport and termination of Non-Access Telecommunications Traffic.

[61 FR 45619, Aug. 29, 1996, as amended at 66 FR 26806, May 15, 2001; 76 FR 73855, Nov. 29, 2011]

§ 51.703 Non-Access reciprocal compensation obligation of LECs.

(a) Each LEC shall establish Non-Access Reciprocal Compensation arrangements for transport and termination of Non-Access Telecommunications Traffic with any requesting telecommunications carrier.

(b) A LEC may not assess charges on any other telecommunications carrier for Non-Access Telecommunications Traffic that originates on the LEC's network.

(c) Notwithstanding any other provision of the Commission's rules, a LEC shall be entitled to assess and collect the full charges for the transport and termination of Non-Access Telecommunications Traffic, regardless of whether the local exchange carrier assessing the applicable charges itself delivers such traffic to the called party's premises or delivers the call to the called party's premises via contractual or other arrangements with an affiliated or unaffiliated provider of interconnected VoIP service, as defined in 47 U.S.C. 153(25), or a non-interconnected VoIP service, as defined in 47 U.S.C. 153(36), that does not itself seek to collect Non-Access Reciprocal Compensation charges for the transport and termination of that Non-Access Telecommunications Traffic. In no event may the total charges that a LEC may assess for such service to the called location exceed the applicable transport and termination rate. For purposes of this section, the facilities used by the LEC and affiliated or unaffiliated provider of interconnected VoIP service or a non-interconnected VoIP service for the transport and termination of such traffic shall be deemed an equivalent facility under § 51.701.

[76 FR 73855, Nov. 29, 2011]

§ 51.705 LECs' rates for transport and termination.

(a) Notwithstanding any other provision of the Commission's rules, by default, transport and termination for Non-Access Telecommunications Traffic exchanged between a local exchange carrier and a CMRS provider within the scope of § 51.701(b)(2) shall be pursuant to a bill-and-keep arrangement, as provided in § 51.713.

(b) Establishment of incumbent LECs' rates for transport and termination:

(1) This provision applies when, in the absence of a negotiated agreement between parties, state commissions establish Non-Access Reciprocal Compensation rates for the exchange of

§51.707

Non-Access Telecommunications Traffic between a local exchange carrier and a telecommunications carrier other than a CMRS provider where the incumbent local exchange carriers did not have any such rates as of December 29, 2011. Any rates established pursuant to this provision apply between December 29, 2011 and the date at which they are superseded by the transition specified in paragraphs (c)(2) through (c)(5) of this section.

(2) An incumbent LEC's rates for transport and termination of telecommunications traffic shall be established, at the election of the state commission, on the basis of:

- (i) The forward-looking economic costs of such offerings, using a cost study pursuant to §§51.505 and 51.511; or
- (ii) A bill-and-keep arrangement, as provided in §51.713.

(3) In cases where both carriers in a Non-Access Reciprocal Compensation arrangement are incumbent LECs, state commissions shall establish the rates of the smaller carrier on the basis of the larger carrier's forward-looking costs, pursuant to §51.711.

(c) Except as provided by paragraph (a) of this section, and notwithstanding any other provision of the Commission's rules, default transitional Non-Access Reciprocal Compensation rates shall be determined as follows:

(1) Effective December 29, 2011, no telecommunications carrier may increase a Non-Access Reciprocal Compensation for transport or termination above the level in effect on December 29, 2011. All Bill-and-Keep Arrangements in effect on December 29, 2011 shall remain in place unless both parties mutually agree to an alternative arrangement.

(2) Beginning July 1, 2012, if any telecommunications carrier's Non-Access Reciprocal Compensation rates in effect on December 29, 2011 or established pursuant to paragraph (b) of this section subsequent to December 29, 2011, exceed that carrier's interstate access rates for functionally equivalent services in effect in the same state on December 29, 2011, that carrier shall reduce its reciprocal compensation rate by one half of the difference between the Non-Access Reciprocal Compensation rate and the corresponding func-

47 CFR Ch. I (10–1–15 Edition)

tionally equivalent interstate access rate.

(3) Beginning July 1, 2013, no telecommunications carrier's Non-Access Reciprocal Compensation rates shall exceed that carrier's tariffed interstate access rate in effect in the same state on January 1 of that same year, for equivalent functionality.

(4) After July 1, 2018, all Price-Cap Local Exchange Carrier's Non-Access Reciprocal Compensation rates and all non-incumbent LECs that benchmark access rates to Price Cap Carrier shall be set pursuant to Bill-and-Keep arrangements for Non-Access Reciprocal Compensation as defined in this subpart.

(5) After July 1, 2020, all Rate-of-Return Local Exchange Carrier's Non-Access Reciprocal Compensation rates and all non-incumbent LECs that benchmark access rates to Rate-of-Return Carriers shall be set pursuant to Bill-and-Keep arrangements for Non-Access Reciprocal Compensation as defined in this subpart.

[76 FR 73855, Nov. 29, 2011]

§51.707 [Reserved]

§51.709 Rate structure for transport and termination.

(a) In state proceedings, where a rate for Non-Access Reciprocal Compensation does not exist as of December 29, 2011, a state commission shall establish initial rates for the transport and termination of Non-Access Telecommunications Traffic that are structured consistently with the manner that carriers incur those costs, and consistently with the principles in this section.

(b) The rate of a carrier providing transmission facilities dedicated to the transmission of non-access traffic between two carriers' networks shall recover only the costs of the proportion of that trunk capacity used by an interconnecting carrier to send non-access traffic that will terminate on the providing carrier's network. Such proportions may be measured during peak periods.

(c) For Non-Access Telecommunications Traffic exchanged between a rate-of-return regulated rural telephone company as defined in §51.5 and
