§ 54.901

must file a certification with the Administrator and the Commission stating that all interstate access universal service support provided to such carrier will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. Support provided pursuant to §54.807 shall only be provided to the extent that the carrier has filed the requisite certification pursuant to this section.

- (b) Certification format. A certification pursuant to this section may be filed in the form of a letter from an authorized representative for the carrier, and must be filed with both the Office of the Secretary of the Commission clearly referencing CC Docket No. 96-45, and with the Administrator of the interstate access universal service support mechanism, on or before the filing deadlines set forth in paragraph (c) of this section. All of the certifications filed by carriers pursuant to this section shall become part of the public record maintained by the Commission.
- (c) Filing deadlines. In order for a price cap local exchange carrier or an eligible telecommunications carrier serving lines in the service area of a price cap local exchange carrier to receive interstate access universal service support, such carrier shall file an annual certification, as described in paragraph (b) of this section, on the date that it first files its line count information pursuant to §54.802, and thereafter on June 30 of each year. Such carrier that files its line count information after the June 30 deadline shall receive support pursuant to the following schedule:
- (1) Carriers that file no later than September 30 shall receive support for the fourth quarter of that year and the first and second quarters of the subsequent year.
- (2) Carriers that file no later than December 31 shall receive support for the first and second quarters of the subsequent year.
- (3) Carriers that file no later than March 31 of the subsequent year shall receive support for the second quarter of the subsequent year.

Subpart K—Interstate Common Line Support Mechanism for Rate-of-Return Carriers

Source: $66 \ \mathrm{FR} \ 59728$, Nov. $30,\ 2001$, unless otherwise noted.

§ 54.901 Calculation of Interstate Common Line Support.

- (a) Interstate Common Line Support available to a rate-of-return carrier shall equal the Common Line Revenue Requirement per Study Area as calculated in accordance with part 69 of this chapter minus:
- (1) The study area revenues obtained from end user common line charges at their allowable maximum as determined by §§ 69.104(n) and 69.104(o) of this chapter;
- (2) The carrier common line charge revenues to be phased out pursuant to §69.105 of this chapter;
- (3) The special access surcharge pursuant to §69.114 of this chapter;
- (4) The line port costs in excess of basic analog service pursuant to §69.130 of this chapter; and
- (5) Any Long Term Support for which the carrier is eligible or, if the carrier ceased participation in the NECA common line pool after October 11, 2001, any Long Term Support for which the carrier would have been eligible if it had not ceased its participation in the pool.
- (b) The per-line Interstate Common Line Support available to a competitive eligible telecommunications carrier serving lines in a study area served by a rate-of-return carrier shall be calculated by the Administrator as follows:
- (1) If the rate-of-return carrier has disaggregated the support it receives in the study area pursuant to §54.315, the Administrator shall calculate amount of Interstate Common Line Support targeted to disaggregation zone by the rate-of-return carrier (targeted Interstate Common Line Support). If the rate-of-return carrier has chosen not to disaggregate its support for a study area pursuant to §54.315, then the entirety of its Interstate Common Line Support for the study area shall be

considered targeted Interstate Common Line Support for purposes of performing the calculations in this section

- (2) In each disaggregation zone or undisaggregated study area, the Administrator shall calculate the Average Interstate Common Line Support by dividing the rate-of-return carrier's targeted Interstate Common Line Support by its total lines served.
- (3) The Administrator shall then calculate the Interstate Common Line Support available to the competitive eligible telecommunications carrier for each line it serves for each customer class in a disaggregation zone or undisaggregated study area by the following formula:
- (i) If the Average Interstate Common Line Support is greater than \$2.70 multiplied by the number of residential and single-line business lines served by the rate-of-return carrier in the disaggregation zone or undisaggregated study area, then:
- (A) Interstate Common Line Support per Multi-Line Business Line = (Average Interstate Common Line Support $\$2.70 \times \text{residential}$ and single-line business lines served by the rate-of-return carrier) \div (total lines served by the rate-of-return carrier); and
- (B) Interstate Common Line Support per Residential and Single-Line Business Line = Interstate Common Line Support per Multi-Line Business Line + \$2.70.
- (ii) If the Average Interstate Common Line Support is less than or equal to \$2.70 multiplied by residential and single-line business lines served by the rate-of-return carrier in the disaggregation zone or undisaggregated study area, but greater than \$0, then:
- (A) Interstate Common Line Support per Multi-Line Business Line = \$0: and
- (B) Interstate Common Line Support per Residential and Single-Line Business Line = Average Interstate Common Line Support ÷ residential and single line business lines served by the rate-of-return carrier.
- (iii) If the Average Interstate Common Line Support is equal to \$0, then the competitive eligible telecommunications carrier shall receive no Interstate Common Line Support for lines

served in that disaggregation zone or undisaggregated study area.

- (4) Beginning January 1, 2012, competitive eligible telecommunications carriers shall not receive Interstate Common Line Support pursuant to this subpart and will instead receive support consistent with §54.307(e).
- (c) Beginning January 1, 2012, for purposes of calculating the amount of Interstate Common Line Support determined pursuant to paragraph (a) of this section that a non-price cap carrier may receive, the corporate operations expense allocated to the Common Line Revenue Requirement, pursuant to §69.409 of this chapter, shall be limited to the lesser of:
- (1) The actual average monthly perloop corporate operations expense; or
- (2) The portion of the monthly perloop amount computed pursuant to §36.621(a)(4)(iii) of this chapter that would be allocated to the interstate Common Line Revenue Requirement pursuant to §69.409 of this chapter.
- (d) Support After December 31, 2011. Notwithstanding paragraph (a) of this section, beginning January 1, 2012, no carrier that is a rate-of-return carrier, as that term is defined in §54.5 affiliated with a price cap local exchange carrier, as that term is defined in §61.3(aa) of this chapter, shall receive support under this subpart.

[66 FR 59728, Nov. 30, 2001, as amended at 76 FR 73877, Nov. 29, 2011; 78 FR 26269, May 6, 2013]

§54.902 Calculation of Interstate Common Line Support for transferred exchanges.

- (a) In the event that a rate-of-return carrier acquires exchanges from an entity that is also a rate-of-return carrier, Interstate Common Line Support for the transferred exchanges shall be distributed as follows.
- (1) Each carrier may report its updated line counts to reflect the transfer in the next quarterly line count filing pursuant to §54.903(a)(1) that applies to the period in which the transfer occurred. During a transition period from the filing of the updated line counts until the end of the funding year, the Administrator shall adjust the Interstate Common Line Support received by each carrier based on the updated
