calculated pursuant to § 54.1309(a) multiplied by the number of working loops reported in § 54.1305(h) for the study area.

(b) Beginning July 1, 2015, the expense adjustment for each study area calculated pursuant to paragraph (a) of this section will be adjusted as follows:

(1) If the aggregate expense adjustments for all study areas exceed the maximum rural incumbent local exchange carrier portion of nationwide loop cost expense adjustment allowable pursuant to § 54.1302(a) (the HCLS cap), then each study area's expense adjustment will be reduced by multiplying it by the ratio of the HCLS cap to the aggregate expense adjustments for all study areas.

(2) If the aggregate expense adjustments for all study areas are less than the HCLS cap set pursuant to § 54.1302(a), then the expense adjustments for all study areas pursuant to paragraph (a) of this section shall be recalculated using a cost per loop calculated to produce an aggregate amount equal to the HCLS cap in place of the national average cost per loop.

(c) The expense adjustment calculated pursuant to paragraphs (a) and (b) of this section shall be adjusted each year to reflect changes in the amount of high-cost loop support resulting from adjustments calculated pursuant to § 54.1306(a) made during the previous year. If the resulting amount exceeds the previous year's fund size, the difference will be added to the amount calculated pursuant to paragraphs (a) and (b) of this section for the following year. If the adjustments made during the previous year result in a decrease in the size of the funding requirement, the difference will be subtracted from the amount calculated pursuant to paragraphs (a) and (b) of this section for the following year.
