

## § 64.6050

rates for Inmate Calling Services or charges for Ancillary Charges for any form of TRS call.

### § 64.6050 Billing-related call blocking.

No Provider shall prohibit or prevent completion of a Collect Calling call or decline to establish or otherwise degrade Collect Calling solely for the reason that it lacks a billing relationship with the called party's communications service provider unless the Provider offers Debit Calling, Prepaid Calling, or Prepaid Collect Calling.

### § 64.6060 Annual reporting and certification requirement.

(a) All Providers must submit a report to the Commission, by April 1st of each year, regarding their interstate and intrastate Inmate Calling Services for the prior calendar year. The report shall contain:

(1) The following information broken out by correctional institution; by jurisdictional nature to the extent that there are differences among interstate, intrastate, and local calls; and by the nature of the billing arrangement to the extent there are differences among Collect Calling, Debit Calling, Prepaid Calling, Prepaid Collect Calling, or any other type of billing arrangement:

- (i) Rates for Inmate Calling Services, reporting separately per-minute rates and per-call or per-connection charges;
- (ii) Ancillary charges;
- (iii) Minutes of use;
- (iv) The average duration of calls;
- (v) The percentage of calls disconnected by the Provider for reasons other than expiration of time;
- (vi) The number of calls disconnected by the Provider for reasons other than expiration of time;

(2) A certification that the Provider was in compliance during the entire prior calendar year with the rates for Telecommunications Relay Service as required by § 64.6040;

(3) A certification that the Provider was in compliance during the entire prior calendar year with the requirement that all rates and charges be cost-based as required by § 64.6010, including Ancillary Charges.

(b) An officer or director from each Provider must certify that the reported information and data are accurate and

complete to the best of his or her knowledge, information, and belief.

### APPENDIX A TO PART 64—TELECOMMUNICATIONS SERVICE PRIORITY (TSP) SYSTEM FOR NATIONAL SECURITY EMERGENCY PREPAREDNESS (NSEP)

#### 1. Purpose and Authority

a. This appendix establishes policies and procedures and assigns responsibilities for the National Security Emergency Preparedness (NSEP) Telecommunications Service Priority (TSP) System. The NSEP TSP System authorizes priority treatment to certain domestic telecommunications services (including portions of U.S. international telecommunication services provided by U.S. service vendors) for which provisioning or restoration priority (RP) levels are requested, assigned, and approved in accordance with this appendix.

b. This appendix is issued pursuant to sections 1, 4(i), 201 through 205 and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 201 through 205 and 303(r). These sections grant to the Federal Communications Commission (FCC) the authority over the assignment and approval of priorities for provisioning and restoration of common carrier-provided telecommunications services. Under section 706 of the Communications Act, this authority may be superseded, and expanded to include non-common carrier telecommunication services, by the war emergency powers of the President of the United States. This appendix provides the Commission's Order to telecommunication service vendors and users to comply with policies and procedures establishing the NSEP TSP System, until such policies and procedures are superseded by the President's war emergency powers. This appendix is intended to be read in conjunction with regulations and procedures that the Executive Office of the President issues (1) to implement responsibilities assigned in section 6(b) of this appendix, or (2) for use in the event this appendix is superseded by the President's war emergency powers.

c. Together, this appendix and the regulations and procedures issued by the Executive Office of the President establish one uniform system of priorities for provisioning and restoration of NSEP telecommunication services both before and after invocation of the President's war emergency powers. In order that government and industry resources may be used effectively under all conditions, a single set of rules, regulations, and procedures is necessary, and they must be applied on a day-to-day basis to all NSEP services so that the priorities they establish can be implemented at once when the need arises.
