§ 76.1609

§ 76.1609 Non-duplication and syndicated exclusivity.

Within 60 days following the provision of service to 1,000 subscribers, the operator of each such system shall file a notice to that effect with the Commission, and serve a copy of that notice on every television station that would be entitled to exercise network non-duplication protection or syndicated exclusivity protection against it.

§ 76.1610 Change of operational information.

The Operator shall inform the Commission on FCC Form 324 whenever there is a change of cable television system operator; change of legal name, change of the operator's mailing address or FCC Registration Number (FRN); or change in the operational status of a cable television system. Notification must be done within 30 days from the date the change occurs and must include the following information, as appropriate:

- (a) The legal name of the operator and whether the operator is an individual, private association, partnership, corporation, or government entity. See §76.5(cc). If the operator is a partnership, the legal name of the partner responsible for communications with the Commission shall be supplied;
- (b) The assumed name (if any) used for doing business in each community;
- (c) The physical address, including zip code, and e-mail address, if applicable, to which all communications are to be directed;
- (d) The nature of the operational status change (e.g., operation terminated, merged with another system, inactive, deleted, etc.);
- (e) The names and FCC identifiers (e.g., CA 0001) of the system communities affected.

§ 76.1611 Political cable rates and classes of time.

If a system permits a candidate to use its cablecast facilities, the system shall disclose to all candidates information about rates, terms, conditions and all value-enhancing discount privileges offered to commercial advertisers. Systems may use reasonable discretion in making the disclosure; provided, however, that the disclosure includes, at a minimum, the following information:

- (a) A description and definition of each class of time available to commercial advertisers sufficiently complete enough to allow candidates to identify and understand what specific attributes differentiate each class;
- (b) A description of the lowest unit charge and related privileges (such as priorities against preemption and make goods prior to specific deadlines) for each class of time offered to commercial advertisers;
- (c) A description of the system's method of selling preemptible time based upon advertiser demand, commonly known as the "current selling level," with the stipulation that candidates will be able to purchase at these demand-generated rates in the same manner as commercial advertisers:
- (d) An approximation of the likelihood of preemption for each kind of preemptible time; and
- (e) An explanation of the system's sales practices, if any, that are based on audience delivery, with the stipulation that candidates will be able to purchase this kind of time, if available to commercial advertisers.
