## § 1.10009

### § 1.10003 When can I start operating?

You can begin operating your facility or providing services once we grant your application to do so, under the conditions set forth in your license or authorization.

### § 1.10004 What am I allowed to do if I am approved?

If you are approved and receive a license or authorization, you must operate in accordance with, and not beyond, your terms of approval.

### § 1.10005 What is IBFS?

(a) The International Bureau Filing System (IBFS) is a database, application filing system, and processing system for all International and Satellite Services. IBFS supports electronic filing of many applications and related documents in the International Bureau, and provides public access to this information.

(b) We maintain applications, notifications, correspondence, and other materials filed electronically with the International Bureau in IBFS.

### § 1.10006 Is electronic filing mandatory?

Electronic filing is mandatory for all applications for international and satellite services for which an International Bureau Filing System (IBFS) form is available. Applications for which an electronic form is not available must be filed by paper until new forms are introduced. *See* §§ 63.20 and 63.53. As each new IBFS form becomes available for electronic filing, the Commission will issue a public notice announcing the availability of the new form and the effective date of mandatory filing for this particular type of filing. As each new form becomes effective, manual filings will not be accepted by the Commission and the filings will be returned to the applicant without processing. Mandatory electronic filing requirements for applications for international and satellite services are set forth in parts 1, 25, 63, and 64 of this chapter. A list of forms that are available for electronic filing can be found on the IBFS homepage. For information on electronic filing requirements, see part 1, §§ 1.1000 through 1.10018 and

the IBFS homepage at <http://www.fcc.gov/ibfs>.
