

## § 61.25

## 47 CFR Ch. I (10–1–16 Edition)

for all tariff publications requiring fees as set forth in part 1, subpart G of this chapter, issuing carriers must submit the original of the cover letter (without attachments), FCC Form 159, and the appropriate fee to the address set forth in § 1.1105 of this chapter.

[76 FR 43211, July 20, 2011]

### § 61.25 References to other instruments.

In addition to the cross-references permitted pursuant to § 61.74, a non-dominant carrier may cross-reference in its tariff publication only the rate provisions of another carrier's FCC tariff publication, provided that the following conditions are met:

(a) The tariff being cross-referenced must be on file with the Commission and in effect;

(b) The issuing carrier must specifically identify in its tariff the cross-referenced tariff by Carrier Name and FCC Tariff Number;

(c) The issuing carrier must specifically identify in its tariff the rates being cross-referenced so as to leave no doubt as to the exact rates that will apply, including but not limited to any applicable credits, discounts, promotions; and

(d) The issuing carrier must keep its cross-references current.

[64 FR 46588, Aug. 26, 1999]

### § 61.26 Tariffing of competitive interstate switched exchange access services.

(a) *Definitions.* For purposes of this section, the following definitions shall apply:

(1) *CLEC* shall mean a local exchange carrier that provides some or all of the interstate exchange access services used to send traffic to or from an end user and does not fall within the definition of "incumbent local exchange carrier" in 47 U.S.C. 251(h).

(2) *Competing ILEC* shall mean the incumbent local exchange carrier, as defined in 47 U.S.C. 251(h), that would provide interstate exchange access services, in whole or in part, to the extent those services were not provided by the CLEC.

(3) *Switched exchange access services* shall include:

(i) The functional equivalent of the ILEC interstate exchange access services typically associated with the following rate elements: Carrier common line (originating); carrier common line (terminating); local end office switching; interconnection charge; information surcharge; tandem switched transport termination (fixed); tandem switched transport facility (per mile); tandem switching;

(ii) The termination of interexchange telecommunications traffic to any end user, either directly or via contractual or other arrangements with an affiliated or unaffiliated provider of interconnected VoIP service, as defined in 47 U.S.C. 153(25), or a non-interconnected VoIP service, as defined in 47 U.S.C. 153(36), that does not itself seek to collect reciprocal compensation charges prescribed by this subpart for that traffic, regardless of the specific functions provided or facilities used.

(4) *Non-rural ILEC* shall mean an incumbent local exchange carrier that is not a *rural telephone company* under 47 U.S.C. 153(44).

(5) The *rate* for interstate switched exchange access services shall mean the composite, per-minute rate for these services, including all applicable fixed and traffic-sensitive charges.

(6) *Rural CLEC* shall mean a CLEC that does not serve (*i.e.*, terminate traffic to or originate traffic from) any end users located within either:

(i) Any incorporated place of 50,000 inhabitants or more, based on the most recently available population statistics of the Census Bureau or

(ii) An urbanized area, as defined by the Census Bureau.

(b) Except as provided in paragraphs (c), (e), and (g) of this section, a CLEC shall not file a tariff for its interstate switched exchange access services that prices those services above the higher of:

(1) The rate charged for such services by the competing ILEC or

(2) The lower of:

(i) The benchmark rate described in paragraph (c) of this section or

(ii) In the case of interstate switched exchange access service, the lowest rate that the CLEC has tarified for its interstate exchange access services,

within the six months preceding June 20, 2001.

(c) The benchmark rate for a CLEC's switched exchange access services will be the rate charged for similar services by the competing ILEC. If an ILEC to which a CLEC benchmarks its rates, pursuant to this section, lowers the rate to which a CLEC benchmarks, the CLEC must revise its rates to the lower level within 15 days of the effective date of the lowered ILEC rate.

(d) Except as provided in paragraph (g) of this section, and notwithstanding paragraphs (b) and (c) of this section, in the event that, after June 20, 2001, a CLEC begins serving end users in a metropolitan statistical area (MSA) where it has not previously served end users, the CLEC shall not file a tariff for its exchange access services in that MSA that prices those services above the rate charged for such services by the competing ILEC.

(e) Rural exemption. Except as provided in paragraph (g) of this section, and notwithstanding paragraphs (b) through (d) of this section, a rural CLEC competing with a non-rural ILEC shall not file a tariff for its interstate exchange access services that prices those services above the rate prescribed in the NECA access tariff, assuming the highest rate band for local switching. In addition to that NECA rate, the rural CLEC may assess a presubscribed interexchange carrier charge if, and only to the extent that, the competing ILEC assesses this charge. Beginning July 1, 2013, all CLEC reciprocal compensation rates for intrastate switched exchange access services subject to this subpart also shall be no higher than that NECA rate.

(f) If a CLEC provides some portion of the switched exchange access services used to send traffic to or from an end user not served by that CLEC, the rate for the access services provided may not exceed the rate charged by the competing ILEC for the same access services, except if the CLEC is listed in the database of the Number Portability Administration Center as providing the calling party or dialed number, the CLEC may, to the extent permitted by § 51.913(b) of this chapter, assess a rate equal to the rate that would be charged

by the competing ILEC for all exchange access services required to deliver interstate traffic to the called number.

(g) Notwithstanding paragraphs (b) through (e) of this section:

(1) A CLEC engaging in access stimulation, as that term is defined in § 61.3(bbb), shall not file a tariff for its interstate exchange access services that prices those services above the rate prescribed in the access tariff of the price cap LEC with the lowest switched access rates in the state.

(2) A CLEC engaging in access stimulation, as that term is defined in § 61.3(bbb), shall file revised interstate switched access tariffs within forty-five (45) days of commencing access stimulation, as that term is defined in § 61.3(bbb), or within forty-five (45) days of [date] if the CLEC on that date is engaged in access stimulation, as that term is defined in § 61.3(bbb).

[76 FR 73881, Nov. 29, 2011, as amended at 77 FR 20553, Apr. 5, 2012]

## Subpart D—General Tariff Rules for International Dominant Carriers

### § 61.28 International dominant carrier tariff filing requirements.

(a) Any carrier classified as dominant for the provision of particular international communications services on a particular route for any reason other than a foreign carrier affiliation under § 63.10 of this chapter shall file tariffs for those services pursuant to the notice and cost support requirements for tariff filings of dominant domestic carriers, as set forth in subpart E of this part.

(b) Other than the notice and cost support requirements set forth in paragraph (a) of this section, all tariff filing requirements applicable to all carriers classified as dominant for the provision of particular international communications services on a particular route for any reason other than a foreign carrier affiliation pursuant to § 63.10 of this chapter are set forth in subpart C of this part.
