

§ 51.329

and facility assignment as well as references to technical standards that would be applicable to any new technologies or equipment, or that may otherwise affect interconnection); and

(6) A description of the reasonably foreseeable impact of the planned changes.

(b) The incumbent LEC also shall follow, as necessary, procedures relating to confidential or proprietary information contained in § 51.335.

[61 FR 47351, Sept. 6, 1996]

§ 51.329 Notice of network changes: Methods for providing notice.

(a) In providing the required notice to the public of network changes, an incumbent LEC may use one of the following methods:

(1) Filing a public notice with the Commission; or

(2) Providing public notice through industry fora, industry publications, or the carrier's publicly accessible Internet site. If an incumbent LEC uses any of the methods specified in paragraph (a)(2) of this section, it also must file a certification with the Commission that includes:

(i) A statement that identifies the proposed changes;

(ii) A statement that public notice has been given in compliance with §§ 51.325 through 51.335; and

(iii) A statement identifying the location of the change information and describing how this information can be obtained.

(b) Until the planned change is implemented, an incumbent LEC must keep the notice available for public inspection, and amend the notice to keep the information complete, accurate and up-to-date.

(c) *Specific filing requirements.* Commission filings under this section must be made as follows:

(1) The public notice or certification must be labeled with one of the following titles, as appropriate: "Public Notice of Network Change Under Rule 51.329(a)," "Certification of Public Notice of Network Change Under Rule 51.329(a)," "Short Term Public Notice Under Rule 51.333(a)," "Certification of Short Term Public Notice Under Rule 51.333(a)," "Public Notice of Copper Retirement Under Rule 51.333," or "Cer-

47 CFR Ch. I (10–1–20 Edition)

tification of Public Notice of Copper Retirement Under Rule 51.333."

(2) The incumbent LEC's public notice and any associated certifications shall be filed through the Commission's Electronic Comment Filing System (ECFS), using the "Submit a Non-Docketed Filing" module. All subsequent filings responsive to a notice may be filed using the Commission's ECFS under the docket number set forth in the Commission's public notice for the proceeding. If necessary, subsequent filings responsive to a notice also may be filed by sending one paper copy of the filing to "Secretary, Federal Communications Commission, Washington, DC 20554" and one paper copy of the filing to "Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554." For notices filed using the Commission's ECFS, the date on which the filing is received by that system will be considered the official filing date. For notices filed via paper copy, the date on which the filing is received by the Secretary or the FCC Mailroom is considered the official filing date. All subsequent filings responsive to a notice shall refer to the ECFS docket number assigned to the notice.

[61 FR 47351, Sept. 6, 1996, as amended at 67 FR 13225, Mar. 21, 2002; 71 FR 65750, Nov. 9, 2006; 80 FR 1588, Jan. 13, 2015; 81 FR 62655, Sept. 12, 2016; 82 FR 61477, Dec. 28, 2017; 83 FR 2557, Jan. 18, 2018]

§ 51.331 Notice of network changes: Timing of notice.

(a) An incumbent LEC shall give public notice of planned changes at the make/buy point, as defined in paragraph (b) of this section, but at least 12 months before implementation, except as provided below:

(1) If the changes can be implemented within twelve months of the make/buy point, public notice must be given at the make/buy point, but at least six months before implementation.

(2) If the changes can be implemented within six months of the make/buy point, public notice may be given pursuant to the short term notice procedures provided in § 51.333.

(b) For purposes of this section, the *make/buy point* is the time at which an

incumbent LEC decides to make for itself, or to procure from another entity, any product the design of which affects or relies on a new or changed network interface. If an incumbent LEC's planned changes do not require it to make or to procure a product, then the make/buy point is the point at which the incumbent LEC makes a definite decision to implement a network change.

(1) For purposes of this section, a *product* is any hardware or software for use in an incumbent LEC's network or in conjunction with its facilities that, when installed, could affect the compatibility of an interconnected service provider's network, facilities or services with an incumbent LEC's existing telephone network, facilities or services, or with any of an incumbent carrier's services or capabilities.

(2) For purposes of this section a *definite decision* is reached when an incumbent LEC determines that the change is warranted, establishes a timetable for anticipated implementation, and takes any action toward implementation of the change within its network.

[61 FR 47352, Sept. 6, 1996, as amended at 68 FR 52305, Sept. 2, 2003; 69 FR 77954, Dec. 29, 2004; 80 FR 63371, Oct. 19, 2015]

§ 51.333 Notice of network changes: Short term notice, objections thereto and objections to copper retirement notices.

(a) *Certificate of service.* If an incumbent LEC wishes to provide less than six months' notice of planned network changes, or provide notice of a planned copper retirement, the public notice or certification that it files with the Commission must include a certificate of service in addition to the information required by § 51.327(a) or § 51.329(a)(2), as applicable. The certificate of service shall include:

(1) A statement that, at least five business days in advance of its filing with the Commission, the incumbent LEC served a copy of its public notice upon each telephone exchange service provider that directly interconnects with the incumbent LEC's network, provided that, with respect to copper retirement notices, such service may be made by postings on the incumbent LEC's website if the directly inter-

connecting telephone exchange service provider has agreed to receive notice by website postings; and

(2) The name and address of each such telephone exchange service provider upon which the notice was served.

(b) *Implementation date.* The Commission will release a public notice of filings of such short term notices or copper retirement notices. The effective date of the network changes referenced in those filings shall be subject to the following requirements:

(1) *Short term notice.* Short term notices shall be deemed final on the tenth business day after the release of the Commission's public notice, unless an objection is filed pursuant to paragraph (c) of this section.

(2) *Copper retirement notice.* Notices of copper retirement, as defined in § 51.325(a)(3), shall be deemed final on the 90th day after the release of the Commission's public notice of the filing, unless an objection is filed pursuant to paragraph (c) of this section, except that notices of copper retirement involving copper facilities not being used to provision services to any customers shall be deemed final on the 15th day after the release of the Commission's public notice of the filing. Incumbent LEC copper retirement notices shall be subject to the short-term notice provisions of this section, but under no circumstances may an incumbent LEC provide less than 90 days' notice of such a change except where the copper facilities are not being used to provision services to any customers.

(c) *Objection procedures for short term notice and copper retirement notices.* An objection to an incumbent LEC's short term notice or to its copper retirement notice may be filed by an information service provider or telecommunications service provider that directly interconnects with the incumbent LEC's network. Such objections must be filed with the Commission, and served on the incumbent LEC, no later than the ninth business day following the release of the Commission's public notice. All objections filed under this section must:

(1) State specific reasons why the objector cannot accommodate the incumbent LEC's changes by the date stated
