

incumbent LEC decides to make for itself, or to procure from another entity, any product the design of which affects or relies on a new or changed network interface. If an incumbent LEC's planned changes do not require it to make or to procure a product, then the make/buy point is the point at which the incumbent LEC makes a definite decision to implement a network change.

(1) For purposes of this section, a *product* is any hardware or software for use in an incumbent LEC's network or in conjunction with its facilities that, when installed, could affect the compatibility of an interconnected service provider's network, facilities or services with an incumbent LEC's existing telephone network, facilities or services, or with any of an incumbent carrier's services or capabilities.

(2) For purposes of this section a *definite decision* is reached when an incumbent LEC determines that the change is warranted, establishes a timetable for anticipated implementation, and takes any action toward implementation of the change within its network.

[61 FR 47352, Sept. 6, 1996, as amended at 68 FR 52305, Sept. 2, 2003; 69 FR 77954, Dec. 29, 2004; 80 FR 63371, Oct. 19, 2015]

§ 51.333 Notice of network changes: Short term notice, objections thereto and objections to copper retirement notices.

(a) *Certificate of service.* If an incumbent LEC wishes to provide less than six months' notice of planned network changes, or provide notice of a planned copper retirement, the public notice or certification that it files with the Commission must include a certificate of service in addition to the information required by § 51.327(a) or § 51.329(a)(2), as applicable. The certificate of service shall include:

(1) A statement that, at least five business days in advance of its filing with the Commission, the incumbent LEC served a copy of its public notice upon each telephone exchange service provider that directly interconnects with the incumbent LEC's network, provided that, with respect to copper retirement notices, such service may be made by postings on the incumbent LEC's website if the directly inter-

connecting telephone exchange service provider has agreed to receive notice by website postings; and

(2) The name and address of each such telephone exchange service provider upon which the notice was served.

(b) *Implementation date.* The Commission will release a public notice of filings of such short term notices or copper retirement notices. The effective date of the network changes referenced in those filings shall be subject to the following requirements:

(1) *Short term notice.* Short term notices shall be deemed final on the tenth business day after the release of the Commission's public notice, unless an objection is filed pursuant to paragraph (c) of this section.

(2) *Copper retirement notice.* Notices of copper retirement, as defined in § 51.325(a)(3), shall be deemed final on the 90th day after the release of the Commission's public notice of the filing, unless an objection is filed pursuant to paragraph (c) of this section, except that notices of copper retirement involving copper facilities not being used to provision services to any customers shall be deemed final on the 15th day after the release of the Commission's public notice of the filing. Incumbent LEC copper retirement notices shall be subject to the short-term notice provisions of this section, but under no circumstances may an incumbent LEC provide less than 90 days' notice of such a change except where the copper facilities are not being used to provision services to any customers.

(c) *Objection procedures for short term notice and copper retirement notices.* An objection to an incumbent LEC's short term notice or to its copper retirement notice may be filed by an information service provider or telecommunications service provider that directly interconnects with the incumbent LEC's network. Such objections must be filed with the Commission, and served on the incumbent LEC, no later than the ninth business day following the release of the Commission's public notice. All objections filed under this section must:

(1) State specific reasons why the objector cannot accommodate the incumbent LEC's changes by the date stated

§51.333

47 CFR Ch. I (10–1–20 Edition)

in the incumbent LEC's public notice and must indicate any specific technical information or other assistance required that would enable the objector to accommodate those changes;

(2) List steps the objector is taking to accommodate the incumbent LEC's changes on an expedited basis;

(3) State the earliest possible date (not to exceed six months from the date the incumbent LEC gave its original public notice under this section) by which the objector anticipates that it can accommodate the incumbent LEC's changes, assuming it receives the technical information or other assistance requested under paragraph (c)(1) of this section;

(4) Provide any other information relevant to the objection; and

(5) Provide the following affidavit, executed by the objector's president, chief executive officer, or other corporate officer or official, who has appropriate authority to bind the corporation, and knowledge of the details of the objector's inability to adjust its network on a timely basis:

"I, (name and title), under oath and subject to penalty for perjury, certify that I have read this objection, that the statements contained in it are true, that there is good ground to support the objection, and that it is not interposed for purposes of delay. I have appropriate authority to make this certification on behalf of (objector) and I agree to provide any information the Commission may request to allow the Commission to evaluate the truthfulness and validity of the statements contained in this objection."

(d) *Response to objections.* If an objection is filed, an incumbent LEC shall have until no later than the fourteenth business day following the release of the Commission's public notice to file with the Commission a response to the objection and to serve the response on all parties that filed objections. An incumbent LEC's response must:

(1) Provide information responsive to the allegations and concerns identified by the objectors;

(2) State whether the implementation date(s) proposed by the objector(s) are acceptable;

(3) Indicate any specific technical assistance that the incumbent LEC is willing to give to the objectors; and

(4) Provide any other relevant information.

(e) *Resolution.* If an objection is filed pursuant to paragraph (c) of this section, then the Chief, Wireline Competition Bureau, will issue an order determining a reasonable public notice period, provided however, that if an incumbent LEC does not file a response within the time period allotted, or if the incumbent LEC's response accepts the latest implementation date stated by an objector, then the incumbent LEC's public notice shall be deemed amended to specify the implementation date requested by the objector, without further Commission action. An incumbent LEC must amend its public notice to reflect any change in the applicable implementation date pursuant to §51.329(b).

(f) *Resolution of objections to copper retirement notices.* An objection to a notice that an incumbent LEC intends to retire copper, as defined in §51.325(a)(3) shall be deemed denied 90 days after the date on which the Commission releases public notice of the incumbent LEC filing, unless the Commission rules otherwise within that time. Until the Commission has either ruled on an objection or the 90-day period for the Commission's consideration has expired, an incumbent LEC may not retire those copper facilities at issue.

(g) *Limited exemption from advance notice and timing requirements—(1) Force majeure events.* (i) Notwithstanding the requirements of this section, if in response to a force majeure event, an incumbent LEC invokes its disaster recovery plan, the incumbent LEC will be exempted during the period when the plan is invoked (up to a maximum 180 days) from all advanced notice and waiting period requirements under this section associated with network changes that result from or are necessitated as a direct result of the force majeure event.

(ii) As soon as practicable, during the exemption period, the incumbent LEC must continue to comply with §51.325(a), include in its public notice the date on which the carrier invoked its disaster recovery plan, and must

Federal Communications Commission

§ 51.401

communicate with other directly interconnected telephone exchange service providers to ensure that such carriers are aware of any changes being made to their networks that may impact those carriers' operations.

(iii) If an incumbent LEC requires relief from the notice requirements under this section longer than 180 days after it invokes the disaster recovery plan, the incumbent LEC must request such authority from the Commission. Any such request must be accompanied by a status report describing the incumbent LEC's progress and providing an estimate of when the incumbent LEC expects to be able to resume compliance with the notice requirements under this section.

(iv) For purposes of this section, "force majeure" means a highly disruptive event beyond the control of the incumbent LEC, such as a natural disaster or a terrorist attack.

(v) For purposes of this section, "disaster recovery plan" means a disaster response plan developed by the incumbent LEC for the purpose of responding to a *force majeure* event.

(2) *Other events outside an incumbent LEC's control.* (i) Notwithstanding the requirements of this section, if in response to circumstances outside of its control other than a force majeure event addressed in paragraph (g)(1) of this section, an incumbent LEC cannot comply with the timing requirement set forth in paragraphs (b)(1) or (2) of this section, hereinafter referred to as the waiting period, the incumbent LEC must give notice of the network change as soon as practicable and will be entitled to a reduced waiting period commensurate with the circumstances at issue.

(ii) A short term network change or copper retirement notice subject to paragraph (g)(2) of this section must include a brief explanation of the circumstances necessitating the reduced waiting period and how the incumbent LEC intends to minimize the impact of the reduced waiting period on directly interconnected telephone exchange service providers.

(iii) For purposes of this section, circumstances outside of the incumbent LEC's control include federal, state, or local municipal mandates and uninten-

tional damage to the incumbent LEC's network facilities not caused by the incumbent LEC.

[61 FR 47352, Sept. 6, 1996, as amended at 67 FR 13226, Mar. 21, 2002; 68 FR 52305, Sept. 2, 2003; 69 FR 77954; Dec. 29, 2004; 80 FR 63371, Oct. 19, 2015; 82 FR 61477, Dec. 28, 2017; 83 FR 31675, July 9, 2018]

§ 51.335 Notice of network changes: Confidential or proprietary information.

(a) If an incumbent LEC claims that information otherwise required to be disclosed is confidential or proprietary, the incumbent LEC's public notice must include, in addition to the information identified in § 51.327(a), a statement that the incumbent LEC will make further information available to those signing a nondisclosure agreement.

(b) *Tolling the public notice period.* Upon receipt by an incumbent LEC of a competing service provider's request for disclosure of confidential or proprietary information, the applicable public notice period will be tolled until the parties agree on the terms of a nondisclosure agreement. An incumbent LEC receiving such a request must amend its public notice as follows:

(1) On the date it receives a request from a competing service provider for disclosure of confidential or proprietary information, to state that the notice period is tolled; and

(2) On the date the nondisclosure agreement is finalized, to specify a new implementation date.

[61 FR 47352, Sept. 6, 1996]

Subpart E—Exemptions, Suspensions, and Modifications of Requirements of Section 251 of the Act

§ 51.401 State authority.

A state commission shall determine whether a telephone company is entitled, pursuant to section 251(f) of the Act, to exemption from, or suspension or modification of, the requirements of section 251 of the Act. Such determinations shall be made on a case-by-case basis.
