discount level until there are no category two funds remaining.

(3) To the extent that there are single discount percentage levels associated with “shared services” under § 54.505(b)(4), the Administrator shall allocate funds to the applicants at each descending discount level (e.g., 90 percent, 89 percent, then 88 percent) until there are no funds remaining.

(4) For both paragraphs (f)(1) and (2) of this section, if the remaining funds are not sufficient to support all of the funding requests within a particular discount level, the Administrator shall allocate funds at that discount level using the percentage of students eligible for the National School Lunch Program. Thus, if there is not enough support to fund all requests at the 40 percent discount level, the Administrator shall allocate funds beginning with those applicants with the highest percentage of NSLP eligibility for that discount level by funding those applicants with 19 percent NSLP eligibility, then 18 percent NSLP eligibility, and shall continue committing funds in the same manner to applicants at each descending percentage of NSLP until there are no funds remaining.

§§ 54.508–54.509 [Reserved]

§ 54.511 Ordering services.

(a) *Selecting a provider of eligible services.* Except as exempted in § 54.503(e), in selecting a provider of eligible services, schools, libraries, library consortia, and consortia including any of those entities shall carefully consider all bids submitted and must select the most cost-effective service offering. In determining which service offering is the most cost-effective, entities may consider relevant factors other than the pre-discount prices submitted by providers, but price should be the primary factor considered.

(b) *Lowest corresponding price.* Providers of eligible services shall not submit bids for or charge schools, school districts, libraries, library consortia, or consortia including any of these entities a price above the lowest corresponding price for supported services, unless the Commission, with respect to

interstate services or the state commission with respect to intrastate services, finds that the lowest corresponding price is not compensatory. Promotional rates offered by a service provider for a period of more than 90 days must be included among the comparable rates upon which the lowest corresponding price is determined.

(c) *Permissible fees.* This prohibition on resale shall not bar schools, school districts, libraries, and library consortia from charging either computer lab fees or fees for classes in how to navigate over the Internet. There is no prohibition on the resale of services that are not purchased pursuant to the discounts provided in this subpart.

(d) Eligible services and equipment components of eligible services purchased at a discount under this subpart shall not be transferred, with or without consideration of money or any other thing of value, for a period of three years after purchase, except that eligible services and equipment components of eligible services may be transferred to another eligible school or library in the event that the particular location where the service originally was received is permanently or temporarily closed, or is part of the same eligible school district or library system as the location receiving the eligible services or equipment components of eligible services. § 54.515 Distributing support.

(a) A telecommunications carrier providing services eligible for support under this subpart to eligible schools and libraries may, at the election of the carrier, treat the amount eligible for support under this subpart as an offset against the carrier's universal service contribution obligation for the year in which the costs for providing eligible services were incurred or receive a direct reimbursement from the Administrator for that amount. Carriers shall elect in January of each year the method by which they will be reimbursed and shall remain subject to that method for the duration of the calendar year. Any support amount that is owed a carrier that fails to remit its monthly universal service contribution obligation, however, shall first be applied as an offset to that carrier's contribution obligation. Such a carrier shall remain subject to the offsetting method for the remainder of the calendar year in which it failed to remit their monthly universal service obligation. A carrier that continues to be in arrears on its universal service contribution obligations at the end of a calendar year shall remain subject to the offsetting method for the next calendar year.

(b) If a telecommunications carrier elects to treat the amount eligible for support under this subpart as an offset against the carrier's universal service contribution obligation and the total amount of support owed to the carrier exceeds its universal service obligation, calculated on an annual basis, the carrier shall receive a direct reimbursement in the amount of the difference. Any such reimbursement due a carrier shall be submitted to that carrier no later than the end of the first quarter of the calendar year following
