

International Telecommunication Regulations, see Final Acts of the World Administrative Telegraph and Telephone Conference, Melbourne, 1988 (WATTC-88), Art. 1, which includes entities authorized to engage in the provision of domestic telecommunications services if such carriers have the ability to originate or terminate telecommunications services to or from points outside their country.

(e) Two entities are *affiliated* with each other if one of them, or an entity that controls one of them, directly or indirectly owns more than 25 percent of the capital stock of, or controls, the other one.

Also, a U.S. carrier is *affiliated* with two or more foreign carriers if the foreign carriers, or entities that control them, together directly or indirectly own more than 25 percent of the capital stock of, or control, the U.S. carrier and those foreign carriers are parties to, or the beneficiaries of, a contractual relation (e.g., a joint venture or market alliance) affecting the provision or marketing of international basic telecommunications services in the United States.

(f) *Market power* means sufficient market power to affect competition adversely in the U.S. market.

(g) As used in this part, the term:

(1) *Interlocking directorates* shall mean persons or entities who perform the duties of “officer or director” in an authorized U.S. international carrier or an applicant for international Section 214 authorization who also performs such duties for any foreign carrier.

(2) *Officer or director* shall include the duties, or any of the duties, ordinarily performed by a director, president, vice president, secretary, treasurer, or other officer of a carrier.

NOTE 1: The assessment of “capital stock” ownership will be made under the standards developed in Commission case law for determining such ownership. See, e.g., Fox Television Stations, Inc., 10 FCC Rcd 8452 (1995). “Capital stock” includes all forms of equity ownership, including partnership interests.

NOTE 2: Ownership and other interests in U.S. and foreign carriers will be attributed to their holders and deemed cognizable pursuant to the following criteria: Attribution of ownership interests in a carrier that are held indirectly by any party through one or more intervening corporations will be deter-

mined by successive multiplication of the ownership percentages for each link in the vertical ownership chain and application of the relevant attribution benchmark to the resulting product, except that wherever the ownership percentage for any link in the chain that is equal to or exceeds 50 percent or represents actual control, it shall be treated as if it were a 100 percent interest. For example, if A owns 30 percent of company X, which owns 60 percent of company Y, which owns 26 percent of “carrier,” then X’s interest in “carrier” would be 26 percent (the same as Y’s interest because X’s interest in Y exceeds 50 percent), and A’s interest in “carrier” would be 7.8 percent ( $0.30 \times 0.26$  because A’s interest in X is less than 50 percent). Under the 25 percent attribution benchmark, X’s interest in “carrier” would be cognizable, while A’s interest would not be cognizable.

[64 FR 19062, Apr. 19, 1999, as amended at 65 FR 60116, Oct. 10, 2000; 67 FR 45390, July 9, 2002]

#### § 63.10 Regulatory classification of U.S. international carriers.

(a) Unless otherwise determined by the Commission, any party authorized to provide an international communications service under this part shall be classified as either dominant or non-dominant for the provision of particular international communications services on particular routes as set forth in this section. The rules set forth in this section shall also apply to determinations of regulatory status pursuant to §§ 63.11 and 63.13. For purposes of paragraphs (a)(2) and (a)(3) of this section, the relevant markets on the foreign end of a U.S. international route include: international transport facilities or services, including cable landing station access and backhaul facilities; inter-city facilities or services; and local access facilities or services on the foreign end of a particular route.

(1) A U.S. carrier that has no affiliation with, and that itself is not, a foreign carrier in a particular country to which it provides service (i.e., a destination country) shall presumptively be considered non-dominant for the provision of international communications services on that route;

(2) Except as provided in paragraph (a)(4) of this section, a U.S. carrier that is, or that has or acquires an affiliation

with a foreign carrier that is a monopoly provider of communications services in a relevant market in a destination country shall presumptively be classified as dominant for the provision of international communications services on that route; and

(3) A U.S. carrier that is, or that has or acquires an affiliation with a foreign carrier that is not a monopoly provider of communications services in a relevant market in a destination country and that seeks to be regulated as non-dominant on that route bears the burden of submitting information to the Commission sufficient to demonstrate that its foreign affiliate lacks sufficient market power on the foreign end of the route to affect competition adversely in the U.S. market. If the U.S. carrier demonstrates that the foreign affiliate lacks 50 percent market share in the international transport and the local access markets on the foreign end of the route, the U.S. carrier shall presumptively be classified as non-dominant.

(4) A carrier that is authorized under this part to provide to a particular destination an international switched service, and that provides such service solely through the resale of an unaffiliated U.S. facilities-based carrier's international switched services (either directly or indirectly through the resale of another U.S. resale carrier's international switched services), shall presumptively be classified as non-dominant for the provision of the authorized service. A carrier regulated as non-dominant pursuant to this subparagraph shall notify the Commission at any time that it begins to provide such service through the resale of an affiliated U.S. facilities-based carrier's international switched services. The carrier will be deemed a dominant carrier on the route absent a Commission finding that the carrier otherwise qualifies for non-dominant regulation pursuant to this section.

(b) Any party that seeks to defeat the presumptions in paragraph (a) of this section shall bear the burden of proof upon any issue it raises as to the proper classification of the U.S. carrier.

(c) Any carrier classified as dominant for the provision of particular services

on particular routes under this section shall comply with the following requirements in its provision of such services on each such route:

(1) Provide services as an entity that is separate from its foreign carrier affiliate, in compliance with the following requirements:

(i) The authorized carrier shall maintain separate books of account from its affiliated foreign carrier. These separate books of account do not need to comply with part 32 of this chapter; and

(ii) The authorized carrier shall not jointly own transmission or switching facilities with its affiliated foreign carrier. Nothing in this section prohibits the U.S. carrier from sharing personnel or other resources or assets with its foreign affiliate;

(2) File quarterly reports on traffic and revenue within 90 days from the end of each calendar quarter. Such reports shall include the minutes completed on foreign networks; settlement payouts for call completion on foreign networks; foreign-billed minutes; and foreign-billed settlement receipts.

(3) File quarterly reports summarizing the provisioning and maintenance of all basic network facilities and services procured from its foreign carrier affiliate or from an allied foreign carrier, including, but not limited to, those it procures on behalf of customers of any joint venture for the provision of U.S. basic or enhanced services in which the authorized carrier and the foreign carrier participate, within 90 days from the end of each calendar quarter. These reports should contain the following: the types of circuits and services provided; the average time intervals between order and delivery; the number of outages and intervals between fault report and service restoration; and for circuits used to provide international switched service, the percentage of "peak hour" calls that failed to complete;

(4) In the case of an authorized facilities-based carrier, file quarterly, within 90 days from the end of each calendar quarter, a report of its active and idle 64 kbps or equivalent circuits by facility (terrestrial, satellite and submarine cable).

(5) If authorized to provide facilities-based service, comply with paragraph (e) of this section.

(d) A carrier classified as dominant under this section shall file an original and two copies of each report required by paragraphs (c)(3), (c)(4), and (c)(5) of this section with the Chief, International Bureau. The carrier shall also file one copy of these reports with the Commission's copy contractor. The transmittal letter accompanying each report shall clearly identify the report as responsive to the appropriate paragraph of §63.10(c).

(e) Except as otherwise ordered by the Commission, a carrier that is classified as dominant under this section for the provision of facilities-based services on a particular route and that is affiliated with a carrier that collects settlement payments for terminating U.S. international switched traffic at the foreign end of that route may not provide switched facilities-based service on that route unless the current rates the affiliate charges U.S. international carriers to terminate traffic are at or below the Commission's relevant benchmark adopted in IB Docket No. 96–261. See FCC 97–280 (rel. Aug. 18, 1997) (available at the FCC's Reference Operations Division, Washington, D.C. 20554, and on the FCC's World Wide Web Site at <http://www.fcc.gov>).

[62 FR 64752, Dec. 9, 1997, as amended at 64 FR 19062, Apr. 19, 1999; 64 FR 46593, Aug. 26, 1999; 64 FR 47702, Sept. 1, 1999; 66 FR 16881, Mar. 28, 2001; 67 FR 45390, July 9, 2002; 78 FR 15623, Mar. 12, 2013; 82 FR 55331, Nov. 21, 2017]

**§63.11 Notification by and prior approval for U.S. international carriers that are or propose to become affiliated with a foreign carrier.**

If a carrier is authorized by the Commission (“authorized carrier”) to provide service between the United States and a particular foreign destination market and it becomes, or seeks to become, affiliated with a foreign carrier that is authorized to operate in that market, then its authorization to provide that international service is conditioned upon notifying the Commission of that affiliation.

(a) *Affiliations requiring prior notification.* Except as provided in paragraph (b) of this section, the authorized car-

rier must notify the Commission, pursuant to this section, forty-five days before consummation of either of the following types of transactions:

(1) Acquisition by the authorized carrier, or by any entity that controls the authorized carrier, or by any entity that directly or indirectly owns more than twenty-five percent of the capital stock of the authorized carrier, of a controlling interest in a foreign carrier that is authorized to operate in a market that the carrier is authorized to serve; or

(2) Acquisition of a direct or indirect interest greater than twenty-five percent, or of a controlling interest, in the capital stock of the authorized carrier by a foreign carrier that is authorized to operate in a market that the authorized carrier is authorized to serve, or by an entity that controls such a foreign carrier.

(b) *Exceptions.* (1) Notwithstanding paragraph (a) of this section, the notification required by this section need not be filed before consummation, and may instead be filed pursuant to paragraph (c) of this section, if either of the following is true with respect to the named foreign carrier regardless of whether that foreign carrier is authorized to operate in a World Trade Organization (WTO) or non-WTO Member:

(i) The Commission has previously determined in an adjudication that the foreign carrier lacks market power in that destination market (for example, in an international section 214 application or a declaratory ruling proceeding); or

(ii) The foreign carrier owns no facilities in that destination market. For this purpose, a carrier is said to own facilities if it holds an ownership, infeasible-right-of-user, or leasehold interest in bare capacity in international or domestic telecommunications facilities (excluding switches).

(2) In the event paragraph (b)(1) of this section cannot be satisfied, notwithstanding paragraph (a) of this section, the notification required by this section need not be filed before consummation, and may instead be filed pursuant to paragraph (c) of this section, if the authorized carrier certifies that the named foreign carrier is authorized to operate in a WTO Member
