

this section, not-for-profit organizations and governmental entities with a public safety purpose may be granted multiple licenses if:

(1) One of the multiple applications is submitted as a priority application; and

(2) The remaining non-priority applications do not face a mutually exclusive challenge.

[78 FR 2107, Jan. 9, 2013]

§ 73.858 Attribution of LPFM station interests.

Ownership and other interests in LPFM station permittees and licensees will be attributed to their holders and deemed cognizable for the purposes of §§ 73.855 and 73.860, in accordance with the provisions of § 73.3555, subject to the following exceptions:

(a) A director of an entity that holds an LPFM license will not have such interest treated as attributable if such director also holds an attributable interest in a broadcast licensee or other media entity but recuses himself or herself from any matters affecting the LPFM station.

(b) A local chapter of a national or other large organization shall not have the attributable interests of the national organization attributed to it provided that the local chapter is separately incorporated and has a distinct local presence and mission.

(c) A parent or subsidiary of a LPFM licensee or permittee that is a non-stock corporation will be treated as having an attributable interest in such corporation. The officers, directors, and members of a non-stock corporation's governing body and of any parent or subsidiary entity will have such positional interests attributed to them.

§ 73.860 Cross-ownership.

(a) Except as provided in paragraphs (b), (c) and (d) of this section, no license shall be granted to any party if the grant of such authorization will result in the same party holding an attributable interest in any other non-LPFM broadcast station, including any FM translator or low power television station, or any other media subject to our broadcast ownership restrictions.

(b) A party that is not a Tribal Applicant, as defined in § 73.853(c), may hold

attributable interests in one LPFM station and no more than two FM translator stations, two FM booster stations, or one FM translator station and one FM booster station provided that the following requirements are met:

(1) The 60 dBu contour of the LPFM station overlaps the 60 dBu contour of the commonly-owned FM translator station(s) and entirely encompasses the 60 dBu service contour of the FM booster station(s);

(2) The FM translator and/or booster station(s), at all times, synchronously rebroadcasts the primary analog signal of the commonly-owned LPFM station or, if the commonly-owned LPFM station operates in hybrid mode, synchronously rebroadcasts the digital HD-1 version of the LPFM station's signal;

(3) The FM translator station receives the signal of the commonly-owned LPFM station over-the-air and directly from the commonly-owned LPFM station itself. The FM booster station receives the signal of the commonly-owned LPFM station by any means authorized in § 74.1231(i) of this chapter; and

(4) The transmitting antenna of the FM translator and/or booster station(s) is located within 16.1 kilometers (10 miles) for LPFM stations located in the top 50 urban markets and 32.1 kilometers (20 miles) for LPFM stations outside the top 50 urban markets of either the transmitter site of the commonly-owned LPFM station or the reference coordinates for that station's community of license.

(c) A party that is a Tribal Applicant, as defined in § 73.853(c), may hold attributable interests in no more than two LPFM stations and four FM translator stations provided that the requirements set forth in paragraph (b) of this section are met.

(d) Unless such interest is permissible under paragraphs (b) or (c) of this section, a party with an attributable interest in a broadcast radio station must divest such interest prior to the commencement of operations of an LPFM station in which the party also holds an interest. However, a party

§ 73.865

need not divest such an attributable interest if the party is a college or university that can certify that the existing broadcast radio station is not student run. This exception applies only to parties that:

- (1) Are accredited educational institutions;
 - (2) Own an attributable interest in non-student run broadcast stations; and
 - (3) Apply for an authorization for an LPFM station that will be managed and operated on a day-to-day basis by students of the accredited educational institution.
- (e) No LPFM licensee may enter into an operating agreement of any type, including a time brokerage or management agreement, with either a full power broadcast station or another LPFM station.

[78 FR 2107, Jan. 9, 2013, as amended at 85 FR 35573, June 11, 2020]

§ 73.865 Assignment and transfer of LPFM licenses.

- (a) *Assignment/Transfer*: No party may assign or transfer an LPFM license if:
- (1) Consideration promised or received exceeds the depreciated fair market value of the physical equipment and facilities; and/or
 - (2) The transferee or assignee is incapable of satisfying all eligibility criteria that apply to a LPFM licensee.
- (b) A change in the name of an LPFM licensee where no change in ownership or control is involved may be accomplished by written notification by the licensee to the Commission.
- (c) *Holding period*: A license cannot be transferred or assigned for three years from the date of issue, and the licensee must operate the station during the three-year holding period.
- (d) No party may assign or transfer an LPFM construction permit at any time.
- (e) Transfers of control involving a sudden change of more than 50 percent of an LPFM's governing board shall not be deemed a substantial change in ownership or control, subject to the filing of an FCC Form 316.

[73 FR 3216, Jan. 17, 2008]

47 CFR Ch. I (10–1–20 Edition)

§ 73.870 Processing of LPFM broadcast station applications.

(a) A minor change for an LPFM station authorized under this subpart is limited to transmitter site relocations of 5.6 kilometers or less. These distance limitations do not apply to amendments or applications proposing transmitter site relocation to a common location filed by applicants that are parties to a voluntary time-sharing agreement with regard to their stations pursuant to § 73.872 paragraphs (c) and (e). These distance limitations also do not apply to an amendment or application proposing transmitter site relocation to a common location or a location very close to another station operating on a third-adjacent channel in order to remediate interference to the other station; provided, however, that the proposed relocation is consistent with all localism certifications made by the applicant in its original application for the LPFM station. Minor changes of LPFM stations may include:

- (1) Changes in frequency to adjacent or IF frequencies or, upon a technical showing of reduced interference, to any frequency; and
 - (2) Amendments to time-sharing agreements, including universal agreements that supersede involuntary arrangements.
- (b) The Commission will specify by Public Notice a window filing period for applications for new LPFM stations and major modifications in the facilities of authorized LPFM stations. LPFM applications for new facilities and for major modifications in authorized LPFM stations will be accepted only during the appropriate window. Applications submitted prior to the window opening date identified in the Public Notice will be returned as premature. Applications submitted after the deadline will be dismissed with prejudice as untimely.
- (c) Applications subject to paragraph (b) of this section that fail to meet the § 73.807 minimum distance separations with respect to all applications and facilities in existence as the date of the pertinent public notice in paragraph (b) of this section other than to LPFM station facilities proposed in applications
