

Wireline Handsets Used With the Legacy Telephone Network

- 47 CFR 68.224 requires that every non-hearing aid compatible wireline telephone used with the legacy wireline network that is offered for sale to the public contain in a conspicuous location on the surface of its packaging a statement that the telephone is not hearing aid compatible. If the handset is offered for sale without a surrounding package, then the telephone must be affixed with a written statement that the telephone is not hearing aid compatible. In addition, each handset must be accompanied by instructions in accordance with 47 CFR 62.218(b)(2).
- 47 CFR 68.300 requires that all wireline telephones used with the legacy wireline network that are manufactured in the United States (other than for export) or imported for use in the United States and that are hearing aid compatible have the letters "HAC" permanently affixed.

ACS Telephonic CPE

- New § 68.502(a) of the Commission's rules contains information collection requirements for ACS telephonic CPE that are similar to the HAC label and notice requirements in 47 CFR 68.224 and 68.300 (discussed above), *i.e.*, the "HAC" labeling requirement for hearing aid compatible equipment, and the package information for non-hearing aid compatible equipment, apply to ACS telephonic CPE.
- New § 68.501 of the Commission's rules requires responsible parties to obtain certifications of their equipment by using a third-party Telecommunications Certification Body (TCB) or a Supplier's Declaration of Conformity. (A responsible party is the party, such as the manufacturer, that is responsible for the compliance of ACS telephonic CPE with the hearing aid compatibility rules and other applicable technical criteria. A Supplier's Declaration of Conformity is a procedure whereby a responsible party makes measurements or takes steps to ensure that CPE complies with technical standards, which results in a document by the same name.) Section 68.501 of the Commission's rules applies to ACS telephonic CPE rule sections defining the roles of TCBs and the uses of Supplier's Declarations of Conformity for wireline handsets used with the legacy telephone network.
- New § 68.504 of the Commission's rules requires information about ACS telephonic CPE to be included in a database administered by ACTA. (ACTA is an organization, previously created

pursuant to FCC regulations, whose key function is to maintain a database of telephone equipment.) In addition, ACS telephonic CPE must be labeled as required by ACTA.

- New § 68.502(b)–(d) of the Commission's rules requires responsible parties to: Warrant that ACS telephonic CPE complies with applicable regulations and technical criteria; give the user instructions required by ACTA for ACS telephonic CPE that is hearing aid compatible; give the user a notice for ACS telephonic CPE that is not hearing aid compatible; and notify the purchaser or user of ACS telephonic CPE whose approval is revoked, that the purchaser or user must discontinue its use.
- New § 68.503 of the Commission's rules requires manufacturers of ACS telephonic CPE to designate an agent for service of process for complaints that may be filed at the FCC.
