

governance funding agreement may include, but are not limited to: Construction, farming, concessions, maintenance, biological program efforts, habitat management, fire management, and implementation of comprehensive conservation planning.

Locations of Refuges and Hatcheries With Close Proximity to Self-Governance Tribes

The Service developed the list below based on the proximity of identified self-governance Tribes to Service facilities that have components that may be suitable for administering through a self-governance funding agreement.

1. Alaska National Wildlife Refuges—Alaska
2. Alcheyay National Fish Hatchery—Arizona
3. Humboldt Bay National Wildlife Refuge—California
4. Kootenai National Wildlife Refuge—Idaho
5. Agassiz National Wildlife Refuge—Minnesota
6. Mille Lacs National Wildlife Refuge—Minnesota
7. Rice Lake National Wildlife Refuge—Minnesota
8. National Bison Range—Montana
9. Ninepipe National Wildlife Refuge—Montana
10. Pablo National Wildlife Refuge—Montana
11. Sequoyah National Wildlife Refuge—Oklahoma
12. Tishomingo National Wildlife Refuge—Oklahoma
13. Bandon Marsh National Wildlife Refuge—Washington
14. Dungeness National Wildlife Refuge—Washington
15. Makah National Fish Hatchery—Washington
16. Nisqually National Wildlife Refuge—Washington
17. Quinault National Fish Hatchery—Washington
18. San Juan Islands National Wildlife Refuge—Washington
19. Tamarac National Wildlife Refuge—Wisconsin

For questions regarding self-governance, contact Scott Aikin, Fish and Wildlife Service, National Native American Programs Coordinator, 1211 SE Cardinal Court, Suite 100, Vancouver, Washington 98683, telephone (360) 604-2531 or fax (360) 604-2505.

F. Eligible U.S. Geological Survey (USGS) Programs

The mission of the USGS is to collect, analyze, and provide information on biology, geology, hydrology, and geography that contributes to the wise management of the Nation's natural resources and to the health, safety, and well-being of the American people. This information is usually publicly available and includes maps, data bases, and descriptions and analyses of the water,

plants, animals, energy, and mineral resources, land surface, underlying geologic structure, and dynamic processes of the earth. The USGS does not manage lands or resources. Self-governance Tribes may potentially assist the USGS in the data acquisition and analysis components of its activities.

For questions regarding self-governance, contact Monique Fordham, Esq., National Tribal Liaison, U.S. Geological Survey, 12201 Sunrise Valley Drive, Reston, Virginia 20192, telephone (703) 648-4437 or fax (703) 648-6683.

G. Eligible Office of the Special Trustee for American Indians (OST) Programs

The Department has responsibility for what may be the largest land trust in the world, approximately 56 million acres. OST oversees the management of Indian trust assets, including income generated from leasing and other commercial activities on Indian trust lands, by maintaining, investing and disbursing Indian trust financial assets, and reporting on these transactions. The mission of the OST is to serve Indian communities by fulfilling Indian fiduciary trust responsibilities. This is to be accomplished through the implementation of a Comprehensive Trust Management Plan (CTM) that is designed to improve trust beneficiary services, ownership information, management of trust fund assets, and self-governance activities.

A Tribe operating under self-governance may include the following programs, services, functions, and activities or portions thereof in a funding agreement:

1. Beneficiary Processes Program (Individual Indian Money Accounting Technical Functions).
2. Appraisal Services Program. Tribes/consortia that currently perform these programs under a self-governance funding agreement with the Office of Self-Governance (OSG) may negotiate a separate memorandum of understanding (MOU) with OST that outlines the roles and responsibilities for management of these programs.

The MOU between the Tribe/consortium and OST outlines the roles and responsibilities for the performance of the OST program by the Tribe/consortium. If those roles and responsibilities are already fully articulated in the existing funding agreement with the OSG, an MOU is not necessary. To the extent that the parties desire specific program standards, an MOU will be negotiated between the Tribe/consortium and OST, which will be binding on both parties and attached and incorporated into the OSG funding agreement.

If a Tribe/consortium decides to assume the operation of an OST program, the new funding for performing that program will come from OST program dollars. A Tribe's newly-assumed operation of the OST program(s) will be reflected in the Tribe's OSG funding agreement.

For questions regarding self-governance, contact Lee Frazier, Program Analyst, Office of External Affairs, Office of the Special Trustee for American Indians (MS 5140—MIB), 1849 C Street NW, Washington, DC 20240-0001, phone: (202) 208-7587, fax: (202) 208-7545.

IV. Programmatic Targets

The programmatic target for Fiscal Year 2018 provides that, upon request of a self-governance Tribe, each non-BIA bureau will negotiate funding agreements for its eligible programs beyond those already negotiated.

V. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: February 15, 2018.

Ryan K. Zinke,
Secretary.

Notice of Intent To Prepare a Joint Environmental Impact Statement/ Environmental Impact Report and Possible Land Use Plan Amendment for the Proposed RE Crimson Solar Project, Riverside County, CA

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM)

Palm Springs-South Coast Field Office, Palm Springs, CA, intends to prepare a joint Environmental Impact Statement (EIS)/Environmental Impact Report (EIR), including a potential amendment to the California Desert Conservation Area (CDCA) Plan, and by this Notice is announcing the beginning of the scoping process to solicit public comments and identify issues.

DATES: This Notice initiates the public scoping process for the EIS/EIR and possible plan amendments. Comments on issues may be submitted in writing until April 9, 2018. The date(s) and location(s) of any scoping meetings will be announced at least 15 days in advance through local media, newspapers, and the BLM website at: <https://eplanning.blm.gov/>.

To be included in the Draft EIS/EIR, all comments must be received prior to the close of the 30-day scoping period or 15 days after the last public meeting, whichever is later. The BLM will provide additional opportunities for public participation upon publication of the Draft EIS/EIR.

ADDRESSES: The public may submit comments related to the RE Crimson Solar Project by any of the following methods:

- *Website:* <https://eplanning.blm.gov/>.
- *Email:* blm_ca_crimsonsolar@blm.gov.
- *Fax:* (541) 618-2400, ATTN: Miriam Liberatore, project manager, RE Crimson Solar.

- *Mail:* ATTN: Miriam Liberatore, project manager, RE Crimson Solar, Bureau of Land Management, 3040 Biddle Road, Medford, OR 97504.

Documents pertinent to this proposal may be examined at the BLM Palm Springs-South Coast Field Office located at 1201 Bird Center Drive, Palm Springs, CA 92262.

FOR FURTHER INFORMATION CONTACT:

Miriam Liberatore, project manager, telephone (541) 618-2412; address Bureau of Land Management, 3040 Biddle Road, Medford, OR 97504; email: mliberat@blm.gov. Contact Ms.

Liberatore to be added to the mailing list. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service at (800) 877-8339, to contact the above individual during normal business hours. The Service is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. Telephone replies will be returned during normal business hours.

SUPPLEMENTARY INFORMATION: Sonoran West Solar Holdings, LLC, a wholly owned subsidiary of Recurrent Energy

LLC, has requested a right-of-way (ROW) authorization to construct, operate, maintain, and decommission a maximum 350 megawatt solar photovoltaic facility and necessary ancillary facilities, including battery storage, project substations, access roads, operations and maintenance buildings, and lay down areas.

The Project site consists of about 2,700-acres of BLM-administered land within the Riverside East Solar Energy Zone (SEZ). The Desert Renewable Energy Conservation Plan (DRECP) Land Use Plan Amendment also designated the area as a Development Focus Area (DFA).

This document provides notice that the BLM Palm Springs-South Coast Field Office and the California Department of Fish and Wildlife intend to jointly prepare an EIS/EIR, which may include a CDCA Plan Amendment, for the Project. It also announces the beginning of the scoping process for this effort and seeks public input on environmental issues and potential planning criteria relevant to the Project and any potential plan amendments. The public scoping process guides the planning process and determines the relevant issues that will influence the scope of the environmental analysis, including alternatives and environmental consequences.

Preliminary issues for the project have been identified by BLM personnel; Federal, State, and local agencies; and other stakeholders. The issues include: Air quality and greenhouse gas emissions; biological resources, including special status wildlife and vegetation species; cultural resources; geology and soils; hazards and hazardous materials; hydrology and water quality; lands and realty; mineral resources; noise; paleontological resources; recreation; socioeconomic and environmental justice; special designations; transportation and travel management; visual resources; wildland fire ecology; and areas with high potential for renewable energy development.

Written comments may be submitted to the BLM at a scoping meeting, or via one of the methods listed in the addresses section above. Input must be received by the close of the 30-day scoping period or within 15 days after the last public meeting, whichever is later.

By this Notice, the BLM is complying with requirements in 43 CFR 1610.2(c) to notify the public of potential amendments to the CDCA Plan, as amended, predicated on the findings in the EIS/EIR.

If one or more land use plan amendments are necessary, the BLM will integrate the land use planning process with the NEPA process for the Project. A preliminary list of the potential planning criteria that will be used to help guide and define the scope of the plan amendment includes:

1. The plan amendments will be completed in compliance with FLPMA, NEPA, and all other relevant Federal laws, executive orders, and BLM policies;
2. Existing valid plan decisions will not be changed and any new plan decisions will not conflict with existing plan decisions; and
3. The plan amendment(s) will recognize valid existing rights.

The public may submit comments to the BLM on issues and planning criteria in writing at any public scoping meeting, or by using one of the methods listed in the **ADDRESSES** section above.

The BLM will use and coordinate the NEPA scoping process to help fulfill the public involvement process under the National Historic Preservation Act (NHPA) (54 U.S.C. 306108 as provided in 36 CFR 800.2(d)(3)). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed action that the BLM is evaluating are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The minutes and list of attendees for each scoping meeting will be available to the public and open for 30 days after the meeting to any participant who wishes to clarify the views he or she expressed. With respect to the

potential land use plan amendment, the BLM will evaluate identified issues to be addressed in the plan amendment, and will place them into one of three categories:

1. Issues to be resolved in the plan amendment;
2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of this plan amendment.

The BLM will provide an explanation in the Draft EIS/EIR as to why an issue was placed in category two or three. The public is also encouraged to help identify any management questions and concerns that should be addressed in the EIS/EIR and potential land use plan amendments. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

The BLM will use an interdisciplinary approach to develop the EIS and potential land use plan amendments in order to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in the planning process: Air, minerals and geology, outdoor recreation, archaeology, paleontology, wildlife and botany, lands and realty, hydrology, soils, sociology, and economics.

Authority: 40 CFR 1501.7 and 43 CFR 1610.2.

Danielle Chi,

BLM California Deputy State Director.

Notice of Availability of a Draft Environmental Impact Statement for the Greater Chapita Wells Natural Gas Infill Project, Uintah County, Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended, the Bureau of Land Management (BLM) has prepared a Draft Environmental Impact Statement (EIS) for the Greater Chapita Wells Natural Gas Infill Project and by this notice is announcing the opening of the comment period.

DATES: To ensure comments will be considered, the BLM must receive

written comments on the Greater Chapita Wells Draft EIS within 45 days following the date the Environmental Protection Agency publishes its NOA in the **Federal Register**. The BLM will announce future meetings or hearings and any other public involvement activities at least 15 days in advance through public notices, media releases, and/or mailings.

ADDRESSES: You may submit comments related to the Greater Chapita Wells project by any of the following methods:

- **Website:** <http://go.usa.gov/csKAZ>.
- **Email:** UT_Vernal_Comments@blm.gov.
- **Fax:** 435-781-4410.
- **Mail:** Bureau of Land Management, Vernal Field Office, 170 South 500 East, Vernal, Utah 84078.

Copies of the Greater Chapita Wells Draft EIS are available in the Vernal Field Office at the above address and website.

FOR FURTHER INFORMATION CONTACT:

Stephanie Howard, Project Manager, 435-781-4400; BLM Vernal Field Office, 170 South 500 East, Vernal, UT 84078; showard@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact the above individual during normal business hours. FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The BLM published in the September 9, 2009, **Federal Register** a Notice of Intent to prepare an EIS (74 FR 46458). The Greater Chapita EIS Project Area encompasses approximately 43,109 acres located in Township 8 South, Ranges 22 through 24 East; Township 9 South, Ranges 22 and 23 East; and Township 10 South, Range 23 East, Salt Lake Base and Meridian, about 25 miles south of Vernal, Utah. Of the 43,109 acres within the project area, about 76 percent is Federal surface administered by the BLM; 15 percent is tribal trust surface; 5 percent is State of Utah surface administered by the Utah Trust Lands Administration; and 4 percent is private surface. The entire project is within the exterior boundary of the Uintah and Ouray Reservation (Uncompahgre Indian Country).

Oil and gas drilling has been ongoing within the Chapita project area since 1952. As of March 2014, the project area contained 1,247 active gas wells on 960 well pads, approximately 257 miles of roads, and approximately 268 miles of pipelines. Total existing disturbance in the project area is approximately 3,975

acres, with approximately 1,000 acres under interim reclamation.

The Draft EIS analyzes a proposal by EOG Resources Inc (EOG) to further develop natural gas resources on their Federal leases in the project area. EOG's proposal includes drilling up to 2,808 new wells and constructing associated ancillary transportation, transmission, and water disposal facilities within the project area. The proposed life of the project is 55 years, with drilling and development activities to occur within the first 15 years. The new gas wells would be drilled to the Green River, Wasatch, Mesaverde Group (including the Blackhawk), Mancos, and Dakota formations at depths of 6,000 to 15,000 feet.

The Draft EIS describes and analyzes in detail the impacts of the No Action Alternative, and three action alternatives, including EOG's Proposed Action. Seven additional alternatives were considered, but eliminated from detailed analysis. The alternatives considered in detail include a landscape-scale mitigation plan that incorporates applicant-committed measures, design features (including best management practices), and the mitigation hierarchy, including compensatory mitigation as applicable to minimize or eliminate impacts to the resources of concern. In particular, the Draft EIS action alternatives contain an applicant-committed ozone management strategy designed to provide a reasonable assurance that project implementation would not contribute to the ongoing ozone situation in the Uinta Basin. This strategy contains five approaches to managing project emissions, including: Applicant-committed emission reduction measures; audio, visual, olfactory and infrared monitoring; a commitment to no-net increase of volatile organic compound emissions to be tracked via an emissions balance sheet; ozone training for personnel; and an ozone event action plan. The following is a summary of the main components of the various alternatives:

1. *No Action Alternative*—The proposed natural gas development on BLM lands and leases as described in the Proposed Action would not be implemented. However, under this alternative, natural gas exploration and development is assumed to continue on Federal, State, and private lands under previous authorizations. Up to 462 new gas wells would be drilled from 425 new well pads and 37 expanded well pads. This alternative also includes expansion of an existing compressor station, construction of 18 liquids gathering system (LGS) facilities,
