Employee Benefits Security Administration

Proposed Extension of Information Collection Comment Request; Prohibited Transaction Class Exemption 2002-12, Cross-Trades of Securities by Index and Model-Driven Funds

AGENCY: Employee Benefits Security Administration, Department of Labor.

ACTION: Notice.

SUPPLEMENTARY INFORMATION:

I. Background

PTE 2002-12 exempts certain transactions that would be prohibited under the Employee Retirement Income Security Act of 1974 (the Act or ERISA) and the Federal Employees' Retirement System Act (FERSA), and provides relief from certain sanctions of the Internal Revenue Code of 1986 (the Code). The exemption permits cross-trades of securities among Index and Model-Driven Funds (Funds) managed by managers (Managers), and among such Funds and certain large accounts (Large Accounts) that engage such Managers to carry out a specific portfolio restructuring program or to otherwise act as a "trading adviser" for such a program. By removing existing barriers to these types of transactions, the exemption increases the incidences of cross-trading, thereby lowering the transaction costs to plans in a number of ways from what they would be otherwise.

In order for the Department to grant an exemption for a transaction or class of transactions that would otherwise be prohibited under ERISA, the statute requires the Department to make a finding that the exemption is administratively feasible, in the interest of the plan and its participants and beneficiaries, and protective of the rights of the participants and beneficiaries. To ensure that Managers have complied with the requirements of the exemption, the Department has included in the exemption certain recordkeeping and disclosure
