Although requests to present oral comments are accepted until the date of the meeting (unless otherwise stated), to the extent that time permits, interested persons may be permitted by the Chair of the HSRB to present oral comments at the meeting. Each individual or group wishing to make brief oral comments to the HSRB is strongly advised to submit their request (preferably via email) to the DFO listed under **FOR FURTHER INFORMATION CONTACT** no later than noon, eastern time, March 29, 2006, in order to be included on the meeting agenda. The request should identify the name of the individual making the presentation, the organization (if any) the individual will represent, and any requirements for audiovisual equipment (e.g., overhead projector, 35 mm projector, chalkboard). Oral comments before the HSRB are limited to approximately 5 minutes unless prior arrangements have been made. In addition, each speaker should bring 30

2. *Written comments.* Although written comments will be accepted until the date of the meeting (unless otherwise stated), the Agency strongly encourages that written comments be submitted, using the instructions in Unit 1.C. no later than noon, eastern time, March 29, 2006 to provide the HSRB the time necessary to consider and review the written comments. 3. *Seating at the meeting.* Seating at the meeting will be on a first-come basis. Individuals requiring special accommodations at this meeting, including wheelchair access and assistance for the hearing impaired, should contact the DFO at least 10 business days prior to the meeting using the information under **FOR FURTHER INFORMATION CONTACT** so that appropriate arrangements can be made.

F. Background

At the inaugural meeting of the HSRB, EPA will provide a broad overview of the Agency's approach to the assessment of the potential risk to human health from the use of pesticides and how EPA uses data from human studies in such risk assessments. The Agency will then present to the HSRB its scientific and ethics reviews of approximately two dozen completed human studies concerning the following pesticide active ingredients: aldicarb, amitraz, azinphos-methyl, dichlorovos (DDVP), ethephon, methomyl, oxamyl, and sodium cyanide. The studies being reviewed at this meeting will include both studies on which the Agency proposes to rely in actions under the pesticide laws and studies that the Agency has decided not to use in its risk assessments, either for ethical or scientific reasons. The Agency will ask the HSRB to advise the Agency on a range of scientific issues and on how the studies should be assessed against the provisions in sections 26.1701-26.1704 of EPA's final human studies rule.

II. Proposed Candidates for Membership to the Board

On January 3, 2006, the EPA, OSA announced a request for nominations of qualified individuals to serve on the HSRB (**Federal Register** 71 116). Per the **Federal Register** notice, the OSA requested nominees who are nationally-

recognized experts in one or more of the following disciplines:

(a) Biostatistics. Expertise in statistical design and analysis of human subjects research studies.

(b) Human toxicology. Expertise in pharmacokinetic and toxicokinetic studies, clinical trials, and toxicology of cholinesterase inhibitors and other classes of environmental substances.

(c) Bioethics. Expertise in the ethics of research on human subjects; research ethics.

(d) Human health risk assessment.

EPA carefully considered the qualifications of nominees who agreed to be further considered and has identified candidates from whom EPA expects to select members to serve on the HSRB. EPA now invites comments from members of the public for relevant information or other documentation that the OSA should consider in the selection of HSRB members. The names of the candidates, together with a short biographical description of their qualifications, appear on the Agency's Web site at <http://www.epa.gov/osa/hsrb/>. Please e-mail your comments no later than noon, eastern time, March 14, 2006, listed under **FOR FURTHER INFORMATION CONTACT**.

Any information furnished by the public in response to this Web site posting will be combined with information already provided by the candidates, and gathered independently by the OSA. Prior to final selection of HSRB members, the combined information will be reviewed and evaluated for any possible financial conflict of interest or a possible appearance of a lack of impartiality. The information will also be used to ensure appropriate balance and breadth of expertise needed to address the charge to the Board. The EPA Science Advisor will make the final decision concerning who will serve on the HSRB.

Dated: March 2, 2006.

George Gray,
EPA Science Advisor.

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice and request for public comment.

SUMMARY: In accordance with the requirements of section 122(h)(1) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(h)(1), notice is hereby given of a proposed administrative settlement under section 122(h) of CERCLA, 42 U.S.C. 9622(h), between EPA and Intermountain Oil Company ("Settling Party") regarding the Intermountain Oil Company facility (the "Facility") at the Intermountain Waste Oil Refinery NPL Site ("Site"). The property which is the subject of this proposed settlement is a parcel of land approximately two acres in size and is located at approximately 995 South and 500 West in Bountiful, Davis County, Utah.
