DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID DOD-2018-OS-0012]

Privacy Act of 1974; System of Records

AGENCY: Office of the Secretary of Defense, DoD.

ACTION: Notice of a modified system of records.

SUMMARY: The Office of the Secretary of Defense proposes to modify a system of records, DUSDI 01-DoD, entitled the "Department of Defense (DoD) Insider Threat Management and Analysis Center (DITMAC) and DoD Component Insider Threat Records System." This system enables DoD to implement the requirements of an Executive Order published on October 7, 2011, and the National Insider Threat Policy and Minimum Standards for Executive Branch Insider Threat Programs published on November 21, 2012. The system is used to analyze, monitor, and audit insider threat information for insider threat detection and mitigation within DoD on threats that insiders may pose to DoD and U.S. Government installations, facilities, personnel, missions, or resources. The system supports the DITMAC and DoD Component insider threat programs, enables the identification of systemic insider threat issues and challenges, provides a basis for the development and recommendation of solutions to mitigate potential insider threats, and assists in identifying best practices amongst other Federal Government insider threat programs.

DATES: Comments will be accepted on or before April 20, 2018. This proposed action will be effective the date following the end of the comment period unless comments are received which result in a contrary determination.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

* *Federal Rulemaking Portal:* <http://www.regulations.gov>.

Follow the instructions for submitting comments.

* *Mail:* Department of Defense, Office of the Chief Management Officer, Directorate for Oversight and Compliance, 4800 Mark Center Drive, Mailbox #24, Suite 08D09B, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name and docket number for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Dr. Brad Millick, Director, DoD Insider Threat Program, Office of the Under Secretary of Defense for Intelligence, 5000 Defense Pentagon, Washington, DC 20301-5000 or by phone at (703) 692-3721.

SUPPLEMENTARY INFORMATION: E.O. 13587 directs the implementation of a Department-wide insider threat detection and prevention program. The DoD Insider Threat Program is decentralized to enable DoD component insider threat programs and the DITMAC to analyze, monitor, and audit threat information for insider threat detection and mitigation within DoD. The Program deters insider activity that endangers DoD and U.S. Government installations, facilities, personnel, missions, or resources.

Section 951 of the National Defense Authorization Act for Fiscal Year 2017 (NDAA for FY17) expanded the definition of an insider threat to anyone who has, or once had, authorized access to information, a facility, a network, a person, or a resource of the Department. In keeping with this expansion, the Department is taking a measured approach and expanding the ability of its Component insider threat programs and the DITMAC to store inside threat related information on those personnel with a DoD Common Access Card (CAC). This expansion strengthens the intent of E.O. 13587 and maintains a responsive posture to the NDAA for FY17.

This modification to the system of records enables the Department to comply with E.O. 13587 by expanding the population to include personnel who have been issued an active DoD CAC to authenticate physical access to DoD installations or logical access to DoD controlled information systems.

This revision leverages existing federal laws, statutes, authorities, policies, programs, systems,
