SUPPLEMENTARY INFORMATION:

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The Credit Enhancement program provides grants to eligible entities to demonstrate innovative methods of helping charter schools to address the cost of acquiring, constructing, and renovating facilities by enhancing the availability of loans and bond financing.

Background: Since FY 2002, the Department has made new Credit Enhancement grants each year, which has resulted in a portfolio of grantees using Federal funds to enhance the credit of charter schools so that they can access private-sector and other non-Federal capital in order to acquire, construct, and renovate facilities at a reasonable cost.

This notice contains application requirements from the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA),¹ and selection criteria and a competitive preference priority for charter schools operating in high-need communities and geographic areas from program regulations at 34 CFR part 225. This notice also includes an invitational priority that encourages applicants to partner with other entities to leverage new or previously untapped capital and other resources to expand support to more schools and students as well as improve their ability to support schools and students. Under this priority, an applicant could propose, for example, to partner with a newly created State-funded credit enhancement program designed to improve charter schools' credit ratings on bonds, thereby enabling charter school facility financing at lower interest rates and lower borrowing costs.

Priorities: This competition includes one competitive preference priority and one invitational priority.

Competitive Preference Priority: In accordance with 34 CFR 75.105(b)(2)(ii), this priority is from 34 CFR 225.12. For FY 2018 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i), we award up to an additional 15 points to an application, depending on how well the application addresses the priority.

This priority is:

The capacity of charter schools to offer public school choice in those

communities with the greatest need for this choice based on—

(1) The extent to which the applicant would target services to geographic areas in which a large proportion or number of public schools have been identified for improvement, corrective action, or restructuring under Title I of the Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001 (NCLB);

(2) The extent to which the applicant would target services to geographic areas in which a large proportion of students perform below proficient on State academic assessments; and

(3) The extent to which the applicant would target services to communities with large proportions of students from low-income families.

Note: With regard to paragraph (1), consistent with the ESSA, if applicants will be operating in States that have identified schools for comprehensive support and improvement or targeted support and improvement under the ESEA, as amended by the ESSA, “improvement, corrective action, or restructuring” refers to schools identified for “comprehensive support and improvement or targeted support and improvement” under the ESEA, as amended by the ESSA. If applicants will be operating in States that are delaying, as permitted by the Department, the identification of schools for comprehensive support and improvement or targeted support and improvement until school year 2018–2019, the Department will award competitive preference points under paragraph (1) to allow those applicants to target services to geographic areas in which a large proportion of public schools are, at the time of submission of an application under this competition: (i) Elementary and secondary schools identified as in need of improvement, corrective action, or restructuring under the ESEA, as amended by NCLB; or (ii) elementary and secondary schools identified as a priority or focus school by the State prior to August 1, 2016 under ESEA flexibility. After school year 2018–2019, the Department will require a grantee that is operating in States that are delaying identification of schools, and that receives points under this priority, to amend its approved application, as needed, to describe how it will target services to geographic areas in which a large proportion of public schools are elementary and secondary schools identified for comprehensive or targeted support and improvement under the ESEA, as amended by the ESSA.

Invitational Priority: For FY 2018 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an invitational priority. Under 34 CFR 75.105(c)(1) we do not give an application that meets this invitational priority a competitive or
