

Technical Changes to Price List

The Exchange proposes to make three clarifying changes to the 2006 Exchange Price List to clarify that: (i) The annual aggregate regulatory fee of \$16,000,000 to be allocated among specialist firms will be based on the number of trading licenses held by each specialist firm; (ii) the annual regulatory fee of \$11,000 charged to non-specialist members will be charged on a per trading license basis; and (iii) the \$180 minimum regulatory fee currently charged to members who do not conduct a public business will be charged after the merger to member organizations.

Deletion of Fees Charged to Members

The 2006 Exchange Price List contains references to fees charged to members, physical access members and electronic access members. As the concept of Exchange membership as a means of acquiring the right to conduct business on the trading floor will be superseded by the issuance of trading licenses upon completion of the merger, these fees will have no continued relevance. Therefore, the Exchange is deleting all references to them from the 2006 Exchange Price List.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act,⁸ which requires that an Exchange have rules that provide an equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii)⁹ of the Act and subparagraph (f)(2)¹⁰ thereunder

because it establishes or changes a due, fee, or other charge. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

March 3, 2006.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on February 17, 2006, the Pacific Exchange, Inc. ("PCX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II and III below, which items have been prepared by PCX. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposal. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to extend the Pilot Program that applies to Option Strategy Executions until September 1, 2006. The transactions included as part of the Pilot Program include reversals and conversions,⁵ dividend spreads,⁶ box spreads,⁷ short stock interest spreads,⁸ and merger spreads.⁹ Because the referenced Options Strategy Transactions are generally executed by professionals whose profit margins are generally narrow, the Pilot Program caps the transaction fees associated with such executions at \$1,000 for strategy executions that are executed on the same trading day in the same option class. In addition, there is also a monthly cap of \$50,000 per initiating firm for all strategy executions. The Exchange believes that by keeping fees low, the Exchange will be able to attract

⁵ Reversals and conversions are transactions that employ calls, puts and the underlying stock to lock in a nearly risk-free profit. Reversals are established by combining a short stock position with a short put and a long call position that shares the same strike and expiration. Conversions employ long positions in the underlying stock that accompany long puts and short calls sharing the same strike and expiration.

⁶ Dividend spreads are trades involving deep-in-the-money options that exploit pricing differences arising around the time a stock goes ex-dividend.

⁷ Box spreads is a strategy that synthesizes long and short stock positions to create a profit. Specifically, a long call and short put at one strike is combined with a short call and long put at a different strike to create synthetic long and synthetic short stock positions, respectively.

⁸ A short stock interest spread is a spread that uses two deep-in-the-money put options of the same class followed by the exercise of the resulting long position in order to establish a short stock interest arbitrage position.

⁹ A merger spread is a transaction executed pursuant to a strategy involving the simultaneous purchase and sale of options of the same class and expiration date, but with different strike prices followed by the exercise of the resulting long option position.

liquidity by accommodating these transactions. Extending the Pilot Program until September 1, 2006 will allow the Exchange to keep these fees low and thus continue to attract liquidity.

OTP Holders and OTP Firms who wish to benefit from the fee cap will be required to submit to the Exchange forms with supporting documentation (e.g., clearing firm transaction data) to qualify for the cap.

2. Statutory Basis

The Exchange believes that the proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and Section 6(b)(4),¹¹ in particular, in that it provides for an equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities.

B. Self-Regulatory Organization's Statement on Burden on Competition

PCX believes that proposed rule change will not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act¹² and subparagraph (f)(2) of Rule 19b-4 thereunder¹³ because it establishes or changes a due, fee, or other charge. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
