Federal Aviation Administration

Proposed Advisory Circular 25-17A Revision, Transport Airplane Cabin Interiors Crashworthiness Handbook

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability of proposed advisory circular (AC) 25-17A and request for comments; extension of comment period.

SUMMARY: This notice announces the extension of the comment period for proposed advisory circular (AC) 25-17A, which was published in the **Federal Register** on November 16, 2005 (70 FR 69623), and closes on March 16, 2006. In that notice, the FAA invited public comment on a proposed AC which provides guidance on a means, but not the only means, of compliance with Title 14, Code of Federal Regulations concerning the crashworthiness requirements as applied to cabin interiors. This extension of the comment period is necessary to give all interested persons an opportunity to present their views on the proposed AC.

DATES: Comments must be received on or before May 1, 2006.

ADDRESSES: Send all comments on proposed AC to: Federal Aviation Administration, Attention: Jayson Claar, Airframe/Cabin Safety Branch, ANM-115, Transport Airplane Directorate,

Aircraft Certification Service, 1601 Lind Avenue, SW., Renton, WA 98055-4056. Comments may be inspected at the above address between 7:30 a.m. and 4 p.m. weekdays, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Jayson Claar at the above address, telephone (206) 227-2194; facsimile (425) 227-1232; or e-mail at: jayson.claar@faa.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to comment on the proposed AC by submitting such written data, views, or arguments, as they may desire. Commenters should identify AC 25-17A, and submit comments, in duplicate, to the address specified above. The Transport Standards Staff will consider all communications received on or before the closing date for comments before issuing the final AC. The AC can be found and downloaded from the Internet at: <http://www.airweb.faa.gov/rgl> under "Draft Advisory Circulars." A paper copy or a CD ROM of the proposed AC may be obtained by contacting the person named above under the caption **FOR FURTHER INFORMATION CONTACT**.

Background

This proposed AC revision contains guidance pertinent to the cabin safety and crashworthiness type certification requirements of part 25 as amended by Amendments 25-1 through 25-112. Previously, two ACs on this subject have been available to the public:

- AC 25-17 was issued on 7/15/91. It covers Amendments 25-1 through 25-59.
- A proposed AC 25-17A revision was published on 10/7/99, for public comment. It covered Amendments 25-1 through 25-70. That revision was never issued as a final document.
- To assist in reviewing the proposed AC, the FAA identifies the additions/changes made to the guidance by highlighting the text changes the first time they appear. The baseline for identifying the changes to the guidance is the existing AC 25-17, dated 7/15/91.

Extension of Comment Period

Since publication of the notice, the FAA has received a request that the comment period for the notice be extended past its original closing date of March 16, 2006, to allow more time in which to study the proposal and to prepare comments on this very important issue.

The FAA has reviewed the request for consideration of an additional amount

of time to comment on proposed AC 25-17A, and has determined that extending the comment period would be in the public interest and that good cause exists for taking this action.

Accordingly, the comment period of proposed AC 25-17A is extended until May 1, 2006.

Issued in Renton, Washington, on March 7, 2006.

Kalene C. Yanamura,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

Federal Aviation Administration

Notice of Intent To Request Approval From the Office of Management and Budget of a Currently Approved Information Collection Activity, Request for Comments; Fractional Aircraft Ownership Programs

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FAA invites public comments about our intention to request the Office of Management and Budget (OMB) to approve a current information collection. Fractional Ownership is a program that offers increased flexibility in aircraft ownership. Owners purchase shares of an aircraft and agree to share their aircraft with others having an ownership share in that same aircraft. Owners agree to put their aircraft into a "pool" of other shared aircraft and to lease their aircraft to another owner in that pool. The aircraft owners use a common management company to maintain the aircraft and administer the leasing of the aircraft among the owners.

DATES: Please submit comments by May 15, 2006.

FOR FURTHER INFORMATION CONTACT: Judy Street on (202) 267-9895, or by e-mail at: Judy.Street@faa.gov.

SUPPLEMENTARY INFORMATION:

Federal Aviation Administration (FAA)

Title: Fractional Aircraft Ownership Programs.

Type of Request: Approval of a currently approved collection.

OMB Control Number: 2120-0684.

Form(s): NA.

Affected Public: An estimated 3,672 Respondents.

Frequency: The information is collected as needed.

Estimated Average Burden Per Response: Approximately 10 hours per response.

Estimated Annual Burden hours: An estimated 38,128 hours annually.

Abstract: Fractional ownership is a new program that offers increased flexibility in aircraft ownership. Owners purchase shares of an aircraft and agree to share their aircraft with others having an ownership share in that same aircraft. Owners agree to put their aircraft into a "pool" of other shared aircraft and to lease their aircraft to another owner in that pool. The aircraft owners use a common management company to maintain the aircraft and administer the leasing of the aircraft among the owners.

ADDRESSES: Send comments to the FAA at the following address: Ms. Judy Street, Room 1033, Federal Aviation Administration, Standards and Information Division, ABA-20, 800 Independence Ave., SW., Washington, DC 20591.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on March 9, 2006.

Judith D. Street,

FAA Information Collection Clearance Officer, Information Systems and Technology Services Staff, ABA-20.

Notice of Intent To Request Approval From the Office of Management and Budget of a Currently Approved Information Collection Activity, Request for Comments; Revisions to Digital Flight Data Recorders

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FAA invites public comments about our intention to request

the Office of Management and Budget (OMB) to approve a current information collection. This rule request that certain airplanes be equipped to accommodate additional digital flight data recorder parameters. The revisions require additional information to be collected to enable more thorough accident or incident investigation and to enable industry to predict certain trends and make necessary modifications before an accident or incident happens.

DATES: Please submit comments by May 15, 2006.

FOR FURTHER INFORMATION CONTACT: Judy Street on (202) 267-9895, or by e-mail at: Judy.Street@faa.gov.

SUPPLEMENTARY INFORMATION:

Federal Aviation Administration (FAA)

Title: Revisions to Digital Flight Data Recorders.

Type of Request: Approval of a currently approved collection.

OMB Control Number: 2120-0616.

Form(s): NA.

Affected Public: An estimated 2,960 Respondents.

Frequency: This is a passive information collection.

Estimated Average Burden Per Response: This is a passive information collection activity. Responses are recorded automatically in the aircraft's digital flight data recorder.

Estimated Annual Burden Hours: 1 hour annually.

Abstract: This rule requires that certain airplanes be equipped to accommodate additional digital flight data recorder parameters. The revisions require additional information to be collected to enable more thorough accident or incident investigation and to enable industry to predict certain trends and make necessary modification before an accident or incident happens.

ADDRESSES: Send comments to the FAA at the following address: Ms. Judy Street, Room 1033, Federal Aviation Administration, Standards and Information Division, ABA-20, 800 Independence Ave., SW., Washington, DC 20591.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
