Thomas Murray, Fire Program Specialist, FEMA, U.S. Fire Administration, (301) 447–1588, Thomas.murray2@fema.dhs.gov. You may contact the Information Management Division for copies of the proposed collection of information at email address: FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION:

Implementation of the concepts within the National Response Framework (NRF) and Response Federal Interagency Operational Plan (FIOP) is mandatory for Federal departments and agencies. See 6 U.S.C. 314. According to the NRF, the U.S. Fire Administration (USFA), as a support agency to Emergency Support Function (ESF)—4, Firefighting, is responsible for coordinating the support for the detection and suppression of fires. To meet the requirements of the FIOP, the USFA, supporting the Core Capability of Fire Management and Suppression, will provide National Incident Management System (NIMS) resources (e.g., personnel and equipment) necessary to support wildland, rural, and urban firefighting operations resulting from, or occurring coincidentally with, an all-hazards incident requiring a coordinated national response for assistance.

Flooding, tornadoes and hurricanes do not follow geo-political boundaries. The larger and more widespread the event, the greater the likelihood that the existing local mutual-aid systems will not meet the demands placed upon

them. Fire and Emergency Services will need to draw on assistance from systems beyond their normal mutual-aid boundaries, executing regional, statewide and interstate mutual-aid systems. For example, the State Emergency Management Agency may coordinate the use of the Emergency Management Assistance Compact (EMAC). Many Federal agencies who have a role in disaster response under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93–288, as amended, 42 U.S.C. 5121 *et seq.*, depend to some extent on the support of skilled and equipped citizens. However, during a catastrophic event (such as in a New Madrid earthquake), these mutual-aid systems will be immediately overwhelmed. Responders who support Fire and Emergency Services, as well as involved Federal agencies themselves, may be impacted to such an extent that they are not available to deploy.

The goal of this information collection is to help facilitate a sustained response to a catastrophic event where response services are limited and the demand for them is overwhelmed. The information contained in the National Catastrophic Resource Catalog (NCRC) will provide a foundation to supplement existing mutual-aid systems and sustain a long-term response operation. The USFA staff, deployed to the National Response Coordination Center (NRCC) in Washington DC, will assess the situation and evaluate the availability of the NIMS-typed capabilities and credentialed personnel contained in the NCRC. The information will be used by NRCC personnel to coordinate the deployment of teams, persons and equipment to sustain the response operation.

Collection of Information

Title: National Catastrophic Resource Catalog.

Type of Information Collection: New information collection.

OMB Number: OMB Collection 1660–NEW.

FEMA Forms: FEMA Form 035–0–1, National Catastrophic Resource Catalog.

Abstract: This information collection will help USFA meet the ESF–4 firefighting resource requirements before/during a national catastrophic disaster response, such as an earthquake, hurricane, or terroristic act. USFA will pre-identify those specialized resources that may be available to support a disaster response. This collection will be solicited from the nation's fire and emergency services on a voluntary basis to establish a catalog/database of potential resources

that could be mobilized to support a national catastrophic disaster response.

Affected Public: Not-for-profit institutions; State, Local or Tribal Governments.

Estimated Number of Respondents: 3,947.

Estimated Number of Responses: 3,947.

Estimated Total Annual Burden Hours: 439.

Estimated Total Annual Respondent Cost: \$23,728.94.

Estimated Respondents' Operation and Maintenance Costs: \$0.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$85,824.49.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Dated: March 13, 2018.
