Background

On July 1, 2005, the FAA published in the **Federal Register** a notice proposing to establish a number of RITTRs in the Jacksonville, FL, terminal area (70 FR 38053). Route T-210 was included in that proposal. Later, the FAA determined that T-210 required further modification and decided not to implement T-210 in the final rule (70 FR 66251). The FAA indicated in the rule that T-210 would be addressed through separate rulemaking action at a later date. This NPRM initiates action to establish T-210.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to establish RITTR T-210 in the Jacksonville, FL, terminal area. The route would be depicted on the appropriate IFR Enroute Low Altitude charts. RITTRs are low altitude Air Traffic Service routes, similar to VOR Federal airways, but based on Global Navigation Satellite System navigation. RNAV-equipped aircraft capable of filing flight plan equipment suffix "G" may file for these routes.

This proposed action would enhance safety and facilitate more flexible and efficient use of the navigable airspace for en route IFR aircraft transitioning through the Jacksonville, FL, terminal area.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory

Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
