

pesticide risks. These three cases, however, poses few or no risks that require mitigation. The Agency therefore is issuing the trichloromelamine RED, the sulfonated oleic acid-sodium salt RED as well as the triethylene glycol RED, its risk assessments, and related support materials simultaneously for public comment. The comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the Agency Docket for the specific active ingredient. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

EPA will carefully consider all comments received by the closing date and will provide a Response to Comments Memorandum in the Docket and www.regulations.gov. If any comment significantly affects the document, EPA also will publish an amendment to the RED in the **Federal Register**. In the absence of substantive comments requiring changes, the RED will be implemented as it is now presented.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Section 408(q) of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a(q), requires EPA to review tolerances and exemptions for pesticide residues in effect as of August 2, 1996, to determine whether the tolerance or exemption meets the requirements of section 408(b)(2) or (c)(2) of FFDCA. This review is to be completed by August 3, 2006.

The request would terminate bird seed use for all PPO product(s) registered in the U.S. EPA intends to grant this request at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the request, or unless the registrant withdraws their request within this period. Upon acceptance of this request, any sale, distribution, or use of products listed in this notice will be permitted only if such sale, distribution, or use is consistent with the terms as described in the final order.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for Preparing your Comments.* When submitting comments, remember to:

- i. Identify the document by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns, and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background on the Receipt of Requests to Amend Registrations to Delete Uses

This notice announces receipt by EPA of a request from registrant ABERCO, Inc. to voluntarily terminate bird seed uses of 47870-1, 47870-2, and 47870-3 PPO product registrations. PPO is an insecticidal fumigant used on several food items such as processed spices, cocoa (beans and powder), and in-shell and processed nutmeats (except peanuts). PPO also has nonfood uses for bird seeds, cosmetic articles, gums, ores, packaging, pigments, pharmaceutical materials, and discarded nut shells prior to disposal. In a letter dated January 26, 2006, ABERCO, Inc. requested EPA to terminate PPO's use on bird seed for pesticide product registrations identified in this notice (Table 1). Specifically, ABERCO, Inc. requests that the nonfood use of PPO as an insecticidal fumigant for the control of stored product insects in bird seed be terminated. ABERCO, Inc. requests provisions for sale, distribution, and use of existing stocks, as EPA defined that term in a document published on June 26, 1991 at 56 Fed. Reg. 29362, as follows:

1. Registrants may sell and distribute existing stocks for one year from the date of this letter making the use termination request, and

2. The product may be sold, distributed, and used by people other than the registrant until their stocks have been exhausted, provided that such sale, distribution, and use complies with the EPA-approved label and labeling of the product. There will be no more PPO pesticide products registered in the United States for bird seed use.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from a registrant to terminate bird seed uses of PPO product registrations. The affected products and

the registrant making the requests are identified in Table 1 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or

2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The PPO registrant has requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued amending the affected registrations.

TABLE 1.— PPO PRODUCT REGISTRATIONS WITH PENDING REQUESTS FOR AMENDMENT

Registration No.	Product name	Company
47870-1	Propylene Oxide	ABERCO, Inc.
47870-2	Propylene Oxide Technical	ABERCO, Inc.
47870-3	Propoxide 892	ABERCO, Inc.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of PPO

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before April 21, 2006. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

In any order issued in response to this request for amendment(s) to terminate bird seed use, the Agency proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1:

1. The registrant may sell and distribute existing stocks for one year from the date of this letter making the use termination request, and

2. The product may be sold, distributed, and used by people other than the registrant until their stocks have been exhausted, provided that such sale, distribution, and use complies with the EPA-approved label and labeling of the product.

If the request for voluntary termination is granted as discussed above, the Agency intends to issue a cancellation order that will allow persons other than the registrant to continue to sell and/or use existing stocks of cancelled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved label on, or that accompanied, the cancelled product. The order will specifically prohibit any use of existing stocks that is non consistent with such previously approved labeling. If, as the Agency currently intends, the final cancellation order contains the existing stocks provision just described, the order will be sent only to the affected registrants of the cancelled products. If the Agency determines that the final cancellation order should contain existing stocks provisions different than the ones just

described, the Agency will publish the cancellation order in the **Federal Register**.
