SUPPLEMENTARY INFORMATION:**Background**

The Ernest F. Hollings Scholarship Program was established through the

Consolidated Appropriations Act, 2005 (Pub. L. 108-447). The purposes of the program include: (1) To increase undergraduate training in oceanic and atmospheric science, research, technology, and education and to foster multidisciplinary training opportunities; (2) to increase public understanding and support for stewardship of the ocean and atmosphere and to improve environmental literacy; (3) to recruit and prepare students for public service careers with the National Oceanic and Atmospheric Administration and other natural resource and science agencies at the Federal, state and local and tribal levels of government; and, (4) to recruit and prepare students for careers as teachers and educators in oceanic and atmospheric science and to improve scientific and environmental education in the United States.

The Hollings Scholarship Program will provide successful undergraduate applicants with awards that include academic assistance (up to a maximum of \$8,000 per year) for full-time study during the 9-month academic year; a 10-week, full-time internship position (\$650/week) during the summer at a NOAA or affiliated partner facility; and, if reappointed, academic assistance (up to a maximum of \$8,000) for full-time study during a second 9-month academic year. The internship between the first and second years of the award provides the Scholars with "hands-on"/practical educational training experience in NOAA-related scientific, research, technology, policy, management, and education activities. Awards will also include travel expenses to attend a mandatory Hollings Scholarship Program orientation, conferences where students present a paper or poster, and a housing subsidy for scholars who do not reside at home during the summer internship.

Authority

The Ernest F. Hollings Undergraduate Scholarship Program is established by the Administrator of the National Oceanic and Atmospheric Administration under authority of the Consolidated Appropriations Act, 2005 (Pub. L. 108-447).

Funding Availability

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

Authorization shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses, and that the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth. NMFS has defined "negligible impact" in 50 CFR 216.103 as "...an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."

Section 101(a)(5)(D) of the MMPA established an expedited process by which citizens of the United States can
