II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting an adjustment increase in the existing burden hour estimate for the collection of information requirements specified by the Standards from 9,773 hours to 11,813 hours, a total increase of 2,040 hours. This increase is due to an increase in the number of establishments using this equipment. In this ICR, the scope of the maritime standards in 29 CFR part 1915 for slings, shackles, and hooks are based on the Final Economic Analysis for the Final Rule revising 29 CFR part 1915, subpart F prepared by OSHA's Office of Regulatory Analysis. As a result of the Final Rule, the revision of the standard applies to all shipyard employment which is defined in § 1915.4(i) as ship repairing, shipbuilding, shipbreaking, and related employment. Also, upon further analysis, the Agency identified two new collections of information

contained in the Standard under paragraphs §§ 1915.112(c)(2) and 1915.115(c)(1). The Agency will summarize any comments submitted in response to this notice and will include this summary in its request to OMB.

Type of Review: Extension of a currently approved collection.

SUPPLEMENTARY INFORMATION:

I. Background

The Institute of Museum and Library Services is the primary source of federal support for the nation's approximately 120,000 libraries and 35,000 museums and related organizations. Our mission is to inspire libraries and museums to advance innovation, lifelong learning, and cultural and civic engagement. II. Current Actions

Native Hawaiian grants are competitive grants available to carry out activities, described in 20 U.S.C. 9141, that enhance existing library services or implement new library services. Native Hawaiian Library Services grants are available to nonprofit organizations that primarily serve and represent Native Hawaiians (as the term is defined in 20 U.S.C. 7517). The term "Native Hawaiian" refers to an individual who is a citizen of the United States and a descendant of the aboriginal people

who, before 1778, occupied and exercised sovereignty in the area that now comprises the State of Hawaii. Successful Native Hawaiian grant projects should result in measureable changes and outcomes, such as increased understanding, interest, and confidence among participants. Successful Native Hawaiian grant projects support the activities described in 20 U.S.C. 9141, for example:

- Support for individuals' needs for education, lifelong learning, workforce development, and digital literacy skills;
- Improvement of the quality of and access to library and information services; and
- Enhancement of the skills of the current library workforce and leadership.
