Any interested person may file written comments with the committee by forwarding the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has instituted stringent procedures for entrance onto the NIH campus. All visitor vehicles, including taxicabs, hotel, and airport shuttles will be inspected before being allowed on campus. Visitors will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit.

Information is also available on the Institute's/Center's home page: <https://nccih.nih.gov/about/naccih/>, where an agenda and any additional information for the meeting will be posted when available. #### National Institute of Neurological Disorders and Stroke; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

*Name of Committee:* National Institute of Neurological Disorders and Stroke Special Emphasis Panel; Brain Initiative—Exploratory Research U01 Review.

*Date:* May 21–22, 2018.

*Time:* 8:00 a.m. to 6:00 p.m.

*Agenda:* To review and evaluate grant applications.

*Place:* The Alexandrian, 480 King Street, Alexandria, VA 22314.

*Contact Person:* Ernest W Lyons, Ph.D., Scientific Review Officer, Scientific Review Branch, NINDS/NIH/DHHS, Neuroscience Center, 6001 Executive Blvd., Suite 3208, MSC 9529, Bethesda, MD 20892-9529 (301) 496-4045 [lyonse@ninds.nih.gov](mailto:lyonse@ninds.nih.gov).

## DEPARTMENT OF HOMELAND SECURITY

### Coast Guard

[Docket Number USCG-2018-0193]

#### Polar Icebreaker Program; Preparation of Environmental Impact Statement

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notice of intent to prepare an Environmental Impact Statement (EIS); notice of public meeting; and request for comments.

**SUMMARY:** The U.S. Coast Guard, as lead agency, is providing notice of their intent to prepare an environmental impact statement (EIS) in accordance with the National Environmental Policy Act (NEPA) for the Polar Icebreaker Program's design and build of up to six polar icebreakers (PIB). Notice is hereby given that the public scoping process has begun for the preparation of an EIS that will address the impacts and alternatives of the Proposed Action. The purpose of the scoping process is to solicit public comments regarding the range of issues, including potential environmental impacts and alternatives that should be addressed in the EIS. This notice also notifies the public that the U.S. Coast Guard intends to hold public meetings to discuss potential issues, concerns and reasonable alternatives that should be considered in the EIS. Following the scoping meetings and comment period, a Draft EIS will be prepared and ultimately circulated for public comment.

**DATES:** Comments and related material must be received by the U.S. Coast

Guard on or before June 25, 2018. The public meetings will be held in May 2018 in Anchorage, Utqiagvik (Barrow), Nome, and Kotzebue. The exact days and times of the public meetings will be announced through notice in the local papers (The Arctic Sounder, The Anchorage Daily News, and The Nome Nugget) and online at <http://www.dcms.uscg.mil/Our-Organization/Assistant-Commandant-for-Acquisitions-CG-9/Programs/Surface-Programs/Polar-Icebreaker/>.

**ADDRESSES:** You may submit comments identified by docket number USCG–2018–0193 using the Federal portal at <http://www.regulations.gov>. See the “Public Participation and Request for Comments” portion of the

**SUPPLEMENTARY INFORMATION** section for further instructions on submitting comments. Written comments and related material may also be submitted to U.S. Coast Guard personnel specified at the public meetings.

**FOR FURTHER INFORMATION CONTACT:** If you have questions about this notice of intent, email Mr. Ahmed Majumder, Deputy Program Manager, Polar Icebreaker Program, U.S. Coast Guard; email [PIBEnvironment@uscg.mil](mailto:PIBEnvironment@uscg.mil).

**SUPPLEMENTARY INFORMATION:**

**I. Table of Abbreviations**

CFR Code of Federal Regulations  
CGC Coast Guard Cutter  
EIS Environmental Impact Statement  
FR Federal Register  
NEPA National Environmental Policy Act  
PIBs Polar Icebreakers  
U.S.C. United States Code

**II. Background and Purpose**

The U.S. Coast Guard’s current fleet of PIBs consists of two heavy icebreakers, Coast Guard Cutter (CGC) POLAR STAR and CGC POLAR SEA, and one medium icebreaker, CGC HEALY. The U.S. Coast Guard’s heavy icebreakers have both exceeded their designed 30 year service life. CGC POLAR STAR was commissioned in 1976 and CGC POLAR SEA in 1978. CGC POLAR STAR began reactivation in 2010 and completed a service life extension in 2013 to allow CGC POLAR STAR to operate for an additional seven to ten years. CGC POLAR SEA has remained out of service since 2010 and is not expected to be reactivated. The current PIB program acquisition strategy is approved to construct up to three heavy PIBs and may (at a future date) potentially expand to include up to three medium icebreakers, with planned service design lives of 30 years each. The first of these new PIBs is expected to be delivered in 2023. Because the first new PIB would not be operational in the Polar Regions

until at least 2023, new information may become available after the completion of this EIS. In that case, supplemental NEPA documentation may, as appropriate, be prepared in support of individual proposed actions. Examples of new information may include, but are not limited to, changes to a species listing status or any other applicable laws and directives, and information regarding mission, training, homeporting, maintenance, and eventual decommissioning of the new PIBs.

A new PIB would be designed to carry out the U.S. Coast Guard’s primary missions supported by the current polar icebreaker fleet. Expected missions include Ice Operations, Defense Readiness, Aids to Navigation, Living Marine Resources, Marine Safety, Marine Environmental Protection, Other Law Enforcement, Ports, Waterways, and Coastal Security, and Search and Rescue.

In executing its various missions, the U.S. Coast Guard protects the public, the environment, and U.S. economic and security interests in any maritime region, including international waters and the Nation’s coasts, ports, and inland waterways, as required to support national security. Legislation and Executive orders assign the U.S. Coast Guard a wide range of responsibilities applicable to Polar regions. The U.S. Coast Guard derives its authority for the use of icebreaking from several statutes governing execution of its missions. These include 14 U.S.C. 81 (Coast Guard establishment, maintenance, and operation of aids to navigation), 14 U.S.C. 88 (Coast Guard saving of life and property), 14 U.S.C. 89 (Coast Guard law enforcement), 14 U.S.C. 90 (Arctic maritime transportation), 14 U.S.C. 91 (controlling anchorage and movement of vessels), 14 U.S.C. 94 (conduct oceanographic research), and 14 U.S.C. 141 (cooperation with agencies, States, territories, and others). In addition, Executive Order 7521 (Use of Vessels for Icebreaking in Channels and Harbors), 1 FR 2184, Dec. 24, 1936, directs the U.S. Coast Guard to assist in keeping channels and harbors open to navigation by means of icebreaking operations.

The U.S. Coast Guard proposes to conduct polar icebreaker operations and training exercises to meet Coast Guard mission responsibilities in the U.S. Arctic and Antarctic regions of operation, in addition to vessel performance testing post-dry dock in the Pacific Northwest near the probable polar icebreaker homeport of Seattle, Washington (the exact location for homeporting has not been determined,

but the current fleet of polar icebreakers is homeported in Seattle, Washington).

Polar regions are becoming increasingly important to U.S. national interests. The changing environment in these regions could lead to a rise in human activity and increased commercial ship, cruise ship, and naval surface ship operations, as well as increased exploration for oil and other resources, particularly in the Arctic. One of the U.S. Coast Guard’s highest priorities is safety of life at sea. This entails the arctic responsibilities described above as well as assisting with McMurdo Station; Antarctica Logistics. Long term-projected increases in U.S. Coast Guard mission demand in the Polar Regions would require additional support from PIBs. A lack of infrastructure, polar environmental conditions, distance between operating areas and support bases, all influence the U.S. Coast Guard’s ability to provide comparable service and presence provided in other non-polar areas of operation with existing Coast Guard assets.

Although the total number of new PIBs is subject to change, no more than six are proposed or anticipated, and therefore, the EIS will analyze the potential impacts of the range of up to six new PIBs, as this will be the highest number projected to be operational in the Polar Regions. Fewer than six new PIBs is also possible, but the analysis will cover impacts of fewer vessels and it is expected that fewer icebreakers will result in either similar impacts or some combination that should result in fewer impacts than what will be discussed and evaluated in the EIS. Potential environmental stressors include acoustic (underwater acoustic transmissions, vessel noise, icebreaking noise, aircraft noise, and gunnery noise), and physical (vessel movement, aircraft or in-air device movement, in-water device movement, icebreaking, and marine expended materials).

**III. Scoping Process**

The U.S. Coast Guard intends to follow the Council on Environmental Quality (CEQ) regulations implementing the NEPA (40 CFR 1500 *et seq.*) by scoping through public comment and public meetings. Scoping, which is integral to the process for implementing NEPA, provides a process to ensure that (1) issues are identified early and properly studied; (2) issues of little significance do not consume substantial time and effort; (3) the draft EIS is thorough and balanced; and (4) delays caused by an inadequate EIS are avoided.

Public scoping is a process for determining the scope of issues to be addressed in this EIS and for identifying the issues related to the proposed action that may have a significant effect on the project environment. The scoping process begins with publication of this notice and ends after the U.S. Coast Guard has:

- Invited the participation of Federal, State, and local agencies, any affected Indian tribe, and other interested persons;

- Consulted with affected Federally Recognized Tribes on a government-to-government basis, and with affected Alaska Native corporations, in accordance with Executive Order 13175 and other policies. Native concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given appropriate consideration;

- Requested the Environmental Protection Agency, the United States Fish and Wildlife Service, the National Marine Fisheries Service, and the United States Army Corps of Engineers to serve as cooperating agencies in the preparation of this EIS. With this Notice of Intent, we are asking Federal, State, and local agencies with jurisdiction or special expertise with respect to environmental issues in the project area, in addition to those we have already contacted, to formally cooperate with us in the preparation of this EIS;

- Determined the scope and the issues to be analyzed in depth in the EIS;

- Allocated responsibility for preparing the EIS components;

- Indicated any related environmental assessments or environmental impact statements that are not part of this EIS;

- Identified other relevant environmental review and consultation requirements, such as Coastal Zone Management Act consistency determinations, and threatened and endangered species and habitat impacts;

- Indicated the relationship between timing of the environmental review and other aspects of the application process; and

- Exercised our option under 40 CFR 1501.7(b) to hold the public scoping meeting announced in this notice.

Once the scoping process is complete, the U.S. Coast Guard will prepare a draft EIS, and will publish a **Federal Register** notice announcing its public availability. We will provide the public with an opportunity to review and comment on the draft EIS. Comments received during the draft EIS review period will be available in the public docket and made available in the final EIS. After the U.S. Coast Guard

considers those comments, we will prepare the final EIS and similarly announce its availability and solicit public review and comment.

#### IV. Information Requested

We are seeking comments on the potential environmental impacts that may result from the development, building, testing, and operation of up to three heavy polar icebreakers and potentially three medium icebreakers to help in the development of an EIS. NEPA requires Federal agencies to consider environmental impacts that may result from a proposed action, to inform the public of potential impacts and alternatives, and to facilitate public involvement in the assessment process. An EIS would include, among other matters, discussions of the purpose and need for the proposed action, a description of alternatives, a description of the affected environment, and an evaluation of the environmental impacts of the proposed action and alternatives.

As required by the NEPA, the U.S. Coast Guard also will analyze the No Action Alternative as a baseline for comparing the impacts of the proposed action. For the purposes of this proposed action, the No Action Alternative is defined as not approving the design and build of new polar icebreakers. The U.S. Coast Guard encourages public participation in the EIS process. The scoping period will begin upon publication of this notice in the **Federal Register** and continue for a period of sixty (60) days. As part of the scoping process, and as authorized by 40 CFR 1508.22(b)(4), the U.S. Coast Guard will hold a public scoping meeting and informational open house in Anchorage, Utqiagvik (Barrow), Nome, and Kotzebue, Alaska in May 2018. Public comments will be accepted at those meetings and can also be submitted to the docket, as previously described under **ADDRESSES**.

#### V. Public Participation and Request for Comments

Pursuant to the CEQ regulations, the U.S. Coast Guard invites public participation in the NEPA process. This notice requests public participation in the scoping process, establishes a public comment period, and provides information on how to participate.

We encourage you to submit comments through the Federal portal at <http://www.regulations.gov>. If your material cannot be submitted using <http://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions. In your submission, please include the docket

number for this notice of intent and provide a reason for each suggestion or recommendation.

We accept anonymous comments. All comments received will be posted without change to <http://www.regulations.gov> and will include any personal information you have provided. For more about privacy and the docket, visit <http://www.regulations.gov/privacyNotice>.

Documents mentioned in this notice of intent as being available in the docket, and all public comments, will be in our online docket at <http://www.regulations.gov> and can be viewed by following that website's instructions.

We plan to hold public meetings in Anchorage, Utqiagvik (Barrow), Nome, and Kotzebue to receive oral comments on this notice of intent. The dates, times, and locations of the public meetings will be announced in the local papers (The Arctic Sounder, The Anchorage Daily News, and The Nome Nugget) and online at <http://www.dcms.uscg.mil/Our-Organization/Assistant-Commandant-for-Acquisitions-CG-9/Programs/Surface-Programs/Polar-Icebreaker/>. If special assistance is required to attend the meetings, such as sign language interpretation or other reasonable accommodations, contact the U.S. Coast Guard as indicated in **FOR FURTHER INFORMATION CONTACT**.

Dated: April 23, 2018.

**Ahmedur Majumder,**

*Deputy Program Manager, Polar Icebreaker Program, United States Coast Guard.*

## DEPARTMENT OF HOMELAND SECURITY

### U.S. Customs and Border Protection

#### Notice of Issuance of Final Determination Concerning Axion Series Led Video Display Cabinets

**AGENCY:** U.S. Customs and Border Protection, Department of Homeland Security.

**ACTION:** Notice of final determination.

**SUMMARY:** This document provides notice that U.S. Customs and Border Protection ("CBP") has issued a final determination concerning the country of origin of Axion series LED video display cabinets. Based upon the facts presented, CBP has concluded in the final determination that Taiwan is the country of origin of the Axion series LED video display cabinets for purposes of U.S. Government procurement.
