SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. Although this action may be of particular interest to persons who produce or use pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. **Docket.** EPA has established a docket for this action under Docket identification number (ID) [EPA-HQ-OPP-2006-0084; FRL-7772-3]. Publicly available docket materials are available either electronically at <http://www.regulations.gov> or in hard copy at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This Docket Facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket telephone number is (703) 305-5805.

2. **Electronic access.** You may access this **Federal Register** document electronically through the EPA Internet under the “**Federal Register**” listings at <http://www.epa.gov/fedrgrstr/>.

II. What Action is the Agency Taking?

In accordance with section 6(f)(1) of FIFRA, as amended, EPA issued a notice of receipt of request by registrants to voluntarily cancel certain pesticide registrations (71 FR 9118, February 22, 2006) (FRL-7762-4). The notice announced that 90 pesticide registrations would be canceled unless a cancellation request was withdrawn by

August 21, 2006. The 90 registrations were listed in Table 1. EPA Registration Number 000100-01074 (Cyclone Concentrate Herbicide) was erroneously included in the February 22, 2006 Notice. In this technical correction, EPA is removing the entry for EPA Registration Number 000100-01074 (Cyclone Concentrate Herbicide) from table 1 of the February 22, 2006 Notice (71 FR 9119). A request to voluntarily cancel EPA Registration Number 000100-01074 (Cyclone Concentrate Herbicide) was previously published in the **Federal Register** of October 28, 2005 (70 FR 62112) (FRL-7743-6) and the terms of the October 28, 2005 Notice are applicable to EPA Registration Number 000100-01074 (Cyclone Concentrate Herbicide) and take precedent over the erroneous inclusion of this registration in the February 22, 2006 **Federal Register** Notice and the terms of that Notice.

In FR Doc. E6-2492, in the issued of February 22, 2006, page 9119, in Table 1, the entry for Registration No. 000100-01074, product name: Cyclone Concentrate Herbicide, and chemical name: Paraquat dichloride, is removed in its entirety.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does This Action Apply to Me?

EPA Regions, as well as States, Territories and Tribes authorized to implement the National Pollutant Discharge Elimination System (NPDES) program, issue permits that must comply with the technology-based and water quality-based requirements of the Clean Water Act (CWA). In doing so, NPDES permitting authorities, including States, Territories, and Tribes, make a number of determinations. These include the selection of pollutants to be measured, monitoring requirements,

permit conditions (e.g., triggers), and, in many cases, limits in permits. EPA's NPDES regulations (applicable to all authorized State NPDES programs) require monitoring results to be reported at the intervals specified in the permit, but in no case less frequently than once per year. Monitoring results must be conducted according to test procedures approved under 40 CFR part 136 [see 40 CFR 122.41(j)(4), 122.44(i)(1)(iv) and 122.44(i)(2)]. Therefore, entities with NPDES permits may potentially be regulated by rulemaking actions related to the information announced in this notice. In addition, when an authorized State, Territory, or Tribe certifies Federal licenses under CWA section 401, they must use the standardized analysis and sampling procedures. Categories and entities that could potentially be regulated by EPA's proposal in August 2005 include:

Category	Examples of potentially regulated entities
Federal, State, Territorial, and Indian Tribal Governments.	Federal, State, Territorial, and Tribal entities authorized to administer the NPDES permitting program; Federal, State, Territorial, and Tribal entities providing certification under Clean Water Act section 401.
Industry	Facilities that must conduct monitoring to comply with NPDES permits.
Municipalities	POTWs that must conduct monitoring to comply with NPDES permits.

This table is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be regulated by the earlier proposal. This table lists types of entities that EPA is now aware could potentially be regulated. Other types of entities not listed in the table could also be regulated. To determine whether your facility is regulated by this action, you should carefully examine the applicability language at 40 CFR 122.1, (NPDES purpose and scope), 40 CFR 136.1 (NPDES permits and CWA), 40 CFR 503.32 (Sewage sludge and pathogens). If you have questions regarding the applicability of this action to a particular entity, consult the appropriate person listed in the preceding **FOR FURTHER INFORMATION CONTACT** section.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through <http://www.regulations.gov> or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI). In addition to one

complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- Follow directions—The agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data that you used.
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- Provide specific examples to illustrate your concerns, and suggest alternatives.

- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

- Make sure to submit your comments by the comment period deadline identified.

II. Summary of New Information and Request for Comment

On August 16, 2005, EPA proposed to approve a number of new analytical methods for measuring *E. coli* and other microbiological pollutants in wastewater and sewage sludge. In that proposal, EPA solicited comment on the proposed methods and also solicited information about additional methods. During the comment period, EPA received data and information on an additional *E. coli* method, m-ColiBlue24®, in wastewater (comments OW-2004-0014-51, and 53). In today's action, EPA is announcing the availability of this new information that could support approval of m-ColiBlue24® for monitoring *E. coli* for use in wastewater. EPA has added these data to the docket as document number OW-2004-0014-60, and will consider it together with the data received during the comment period in its evaluation of methods to be approved in a final rule. Today's notice solicits comment on these data and information.

EPA is soliciting comment only on the additional information and data discussed in this notice. EPA is not requesting comment on other methods or on other aspects of the August 16, 2005, proposal.
