Summary of Millennium Challenge Compact With the Government of the Republic of Armenia

I. Introduction

A small, landlocked country in the Caucasus region, Armenia is struggling to recover from the severe economic setbacks caused by the collapse of the Soviet Union in the early 1990s. In

1994, Armenia adopted a comprehensive stabilization and reform program that transformed it into a liberal market economy and launched a period of uninterrupted growth that saw its GDP increase at an average annual rate of 8% over the next decade. Today, the per-capita GDP of Armenia's 3.2 million inhabitants is estimated at \$1,100. Economic growth to date has disproportionately benefited inhabitants of the capital, Yerevan, and the rural poverty rate remains above 30%. More than one million Armenians, or about 35% of the population, live in rural areas and are dependant on semi-subsistence agriculture. These farmers are operating on small, fragmented parcels of land and are constrained by poor infrastructure and an underdeveloped agricultural economy.

The \$235 million Millennium Challenge Compact with the Republic of Armenia is focused on the reduction of rural poverty through a sustainable increase in the economic performance of the agricultural sector. The Program to be funded under the Compact will advance this goal through a five-year program of strategic investments in rural roads, irrigation infrastructure and technical assistance, and financial support to water supply entities, farmers, and commercial agribusinesses (the "Program").

II. Program Overview and Budget

To transform the economic performance of Armenia's agricultural sector and reduce rural poverty, the Program will undertake a Rural Road

Rehabilitation Project and an Irrigated Agriculture Project.

A. Rural Road Rehabilitation Project (\$67 million): This project will rehabilitate up to 943 km of rural roads, or 35% of the government-proposed lifeline road network. When complete, the lifeline network will ensure that every rural community has essential road access to markets, social services and the main road/interstate network. In addition, funding will be provided to the Armenian Road Directorate for a technical audit of the ongoing maintenance contracts and for a road maintenance strategic plan.

B. Irrigated Agriculture Project (\$146 million): This project includes two activities:

- The *Infrastructure Activity* (\$113 million) will rehabilitate up to 21 targeted irrigation infrastructure schemes across the country, expanding the total area under irrigated production and improving the overall efficiency of sourcing and delivery of water to farmers.

- The *Water-to-Market Activity* (\$33 million) will build the management capacities of the local and national water supply entities and support the transition to higher-value agricultural systems of some 60,000 farmers by providing technical and rural credit assistance. This will ensure the sustainable management of the improved irrigation infrastructure and enable the emergence of profitable farming operations.

The following table outlines the MCA contribution to the Program by year and category.

III. Impact

The Program will directly impact approximately 750,000 people, or 75% of the rural population, increasing their annual income by an estimated \$36 million in 2010 and over \$113 million in 2015. This corresponds to agricultural value-added gains of 4% and 11% over the same periods. By 2013, the rural poverty rate is projected to fall by 5 percentage points as a result of the Program. Continued reductions in

rural poverty are expected with a sustained transformation of the agricultural sector.

The Rural Road Rehabilitation Project will reduce transport costs for the greater rural community, including farmers and processors, by an estimated \$20 million annually beginning five years after material project benefits are realized. The principal beneficiaries of this project will be approximately 360,000 rural Armenians living in 265

communities connected by the portion of the road network to be rehabilitated with MCC funds.

The Irrigated Agriculture Project will benefit approximately 250,000 farmer households, 34% of which are headed by women. The Infrastructure Activity improvements will extend irrigation to an additional 46,000 hectares (114,000 acres) of new and recovered farmland, expanding the total area under irrigated production by more than 40%.

Technical support provided under the Water-to-Market Activity will enable over 60,000 participating farmers to increase their average net incomes by approximately 25% through the adoption of improved on-farm water management techniques and the cultivation of higher-value agriculture. The Water-to-Market Activity will also boost the development of small- and medium-sized agribusinesses by expanding rural access to credit and providing training in post-harvest processing and marketing.

IV. Program Management

The GOA will create a legal entity, MCA-Armenia, to manage and oversee the Program. MCA-Armenia will consist of a Governing Council and a Management Unit. The Governing Council, responsible for making key strategic and management decisions, will be chaired by the Prime Minister and include voting representatives from both government and civil society. The Management Unit will include technical experts and be responsible for the day-to-day management of the Program.

Project implementation will be carried out by three separate entities reporting to the Management Unit. The Rural Road Rehabilitation Project will

be implemented by the Armenian Road Directorate, and the Infrastructure Activity of the Irrigated Agriculture Project will be implemented by the Irrigation Project Implementation Unit previously established by the World Bank. Implementation of the Water-to-Market Activity of the Irrigated Agriculture Project will be contracted out to a private firm or non-governmental organization ("NGO").

A third-party non-government entity will be engaged to provide fiscal agent services to MCA-Armenia, including funds control, disbursement documentation and management, cash management and accounting. The fiscal agent will have sole signatory authority to authorize re-disbursements from the MCA-Armenia bank account into which MCC funds will be disbursed.

The World Bank procurement guidelines—modified as necessary to conform to MCC policies—will be used for procurement of the works, goods and consulting services needed under the Program. MCC will review and approve procurement plans on a periodic basis, as well as quarterly reports of all completed procurement actions. Independent auditors will also audit the

procurement activity quarterly for compliance with MCC requirements.

V. Assessment

A. Economic Analysis

The projects included in the Program represent sound investments that will alleviate key constraints to economic growth and poverty reduction in rural Armenia. Economic rates of return ("ERRs") were calculated for each infrastructure investment and technical assistance activity to select the highest return projects. These returns, which were modeled by the GOA's transaction team and reviewed by MCC, quantify the expected incremental increase in income from each individual activity. For the Rural Road Rehabilitation Project, savings in transport costs were estimated. For the Irrigated Agriculture Project, quantified benefits include additional income from newly irrigated land, the increase in high value-added crop cultivation, higher yields, lower production costs, and energy and water savings. The economic rates of return of each of the activities were compared to a benchmark of 12.5%, the average real growth rate for the past three years. The overall economic rate of return of the Compact is estimated at 25%.

Scenario	Key underlying assumptions	Project ERR (percent)	ERR for the Armenia Compact
Base case	Base traffic estimates and cost estimates	Roads—26	25
Low return case 1	Base benefit and cost estimates	Irrigation—25	
Low return case 2	Cost increase of 30%	Roads—21	20
		Irrigation—20	
	Current traffic is only 50% of estimated value	Roads—18	18
	Benefits are delayed by two years	Irrigation—18	

B. Consultative Process

The GOA based its Program proposal on a comprehensive consultative process that was initiated in 2003 for the development of its Poverty Reduction Strategy Paper ("PRSP"). The opportunity to apply for MCC funding led to further review and dissemination of the PRSP through electronic and printed media. In the initial priority-setting stage, the GOA engaged a broad cross-section of civil society—including rural community members, NGOs, and the private sector—through public meetings and regional roundtables focused specifically on MCA proposal development. The NGO community contributed substantially to the proposal development and due diligence processes by electing its own representatives to participate in meetings of the inter-governmental board of trustees ("Board of Trustees").

Issues raised will continue to be addressed through an ongoing consultative process that incorporates feedback mechanisms reaching out to stakeholders, particularly those involved in irrigation, agriculture, rural road, policy development and advocacy, and groups that specialize in monitoring and evaluation. In order to provide an Internet-based resource and information portal, MCA-Armenia maintains an interactive website that provides up-to-date information on the Program, all meeting minutes, a forum page on which to post and debate issues related to proposal development and implementation, and an e-mail address for sending inquiries and concerns.

To ensure meaningful stakeholder participation in Compact implementation, the MCA-Armenia Governing Council will include five voting representatives of civil society. These representatives will be appointed

by a Stakeholders' Committee consisting of eight to twelve individuals who represent Water User Associations ("WUAs"), farmer groups, NGOs involved in the PRSP and MCA consultative processes, and regional stakeholder committees. The Stakeholders' Committee will also consult with the chairman of the Board of Trustees on its views and recommendations regarding the performance and progress of the Program, project and sub-project activities, components of the Implementation Plan, procurement, and financial management. The minutes of these meetings and discussions will be posted on the MCA-Armenia Web site.

C. Government Commitment and Effectiveness

The GOA has exhibited a high degree of commitment to the Program, and will take the following measures to ensure

the effectiveness of the MCA investment:

- Adopting into legislation policies that will ensure the sustainability of the infrastructure investments, including user fee-based cost recovery mechanisms for irrigation systems and assigning maintenance responsibilities of the lifeline network to the Armenian Road Directorate.

- Developing and implementing a plan to restructure the Water Supply Agency and transferring certain operations and maintenance responsibilities to developing federations of WUAs.

- Identifying and contributing to financing for the rehabilitation of the rest of the lifeline network, in addition to the roads rehabilitated with MCC funding.

- Meeting the co-financing requirements of the WUAs for tertiary canals consistent with the ongoing World Bank Irrigation Development Project.

D. Sustainability

Currently, the GOA expends approximately \$9 million per year for routine maintenance on the entire road network. As rehabilitation of the lifeline network proceeds, the GOA will commit additional resources for future financing of routine maintenance on the lifeline network. The Rural Road Rehabilitation Project will further help to institutionalize performance-based contracts, which were instituted by the Armenian Road Directorate in 2005.

The management of Armenia's irrigation network has recently been decentralized to 53 WUAs, and the GOA has enhanced water management efficiency by merging responsibilities for irrigation and drainage. The Irrigated Agriculture Project will benefit from an extensive Water-to-Market Activity that will provide technical and organizational support to ensure WUAs and federations of WUAs have systems to effectively manage and finance their operations. In addition, credit organizations will receive training and capital to expand financing opportunities to WUA member farmers and enterprises. The resulting transition to more profitable operations by member farmers will enhance the financial sustainability of the irrigation system, as will the replacement of pumping systems with more energy-efficient gravity irrigation and the increased capacity of the WUAs to finance themselves through member contributions.

E. Environmental and Social Impacts

The Program is unlikely to cause significant environmental, health, or safety hazards, and immitigable impacts on sensitive areas are not expected. The Rural Road Rehabilitation Project is classified as a "Category B" according to MCC guidelines, requiring environmental and social analyses due to potentially adverse site-specific environmental impacts. The Irrigated Agriculture Project is classified as a "Category A," requiring environmental and social impact assessments due to potentially adverse environmental impacts resulting from the construction of reservoirs, gravity schemes, and the Ararat Valley drainage scheme. A baseline study will be required for the Ararat Valley drainage scheme prior to initiating the required environmental and social impact assessment, and a land compensation framework may be required for certain reservoirs. Environmental management plans will be developed for both projects. The environmental benefits expected from the Irrigated Agriculture Project include reduced water losses through increased efficiency, improved energy conservation and more sustainable agricultural practices. After reviewing an initial environmental assessment, the Armenian Ministry of Nature Protection issued a positive evaluation of the overall Program, a prerequisite for further environmental assessment and project design.

F. Donor Coordination

The Program builds upon an extensive body of work by several international donors, particularly the World Bank, which produced much of the research upon which the Program is based. In transportation, the main donors have been the World Bank and the Lincy Foundation. The Rural Road Rehabilitation Project complements the rehabilitation and construction of larger roads, and serves as a catalyst for contributions of future donors to the completion of the lifeline network. In irrigation, the main donors have been the World Bank and the International Fund for Agricultural Development. Other significant donor projects include the USDA Marketing Assistance Project, the USAID Micro Enterprise Development Initiative, and the USAID Armenia Agribusiness Small and Medium Enterprise Market Development Project. The Irrigated Agriculture Project will work closely with and build on the contributions of these donors.

Millennium Challenge Compact

This Millennium Challenge Compact (the "Compact") is made between the

United States of America, acting through the Millennium Challenge Corporation, a United States Government corporation (“MCC”), and the Government of the Republic of Armenia (the “Government”) (referred to herein individually as a “Party” and collectively, the “Parties”). A compendium of capitalized terms defined herein is included in Exhibit A attached hereto.

Recitals

Whereas, MCC, acting through its Board of Directors, has selected the Republic of Armenia as eligible to present to MCC a proposal for the use of Millennium Challenge Account (“MCA”) assistance to help facilitate poverty reduction through economic growth in Armenia;

Whereas, the Government has carried out a consultative process with the country’s private sector and civil society to outline the country’s priorities for the use of MCA assistance and developed a proposal, which was submitted to MCC on March 28, 2005 (the “Proposal”);

Whereas, the Proposal focused on increasing agricultural production in poor, rural areas of the country through investments in irrigation and rural roads;

Whereas, MCC has evaluated the Proposal and related documents to determine whether the Proposal is consistent with core MCA principles and includes proposed activities and projects that will advance the progress of Armenia towards achieving economic growth and poverty reduction;

Whereas, based on MCC’s evaluation of the Proposal and related documents and subsequent discussions and negotiations between the Parties, the Government and MCC determined to enter into this Compact to implement a program using MCC Funding to advance Armenia’s progress towards economic growth and poverty reduction (the “Program”); and

Whereas, the Government intends to establish a legal entity, in a form mutually agreeable to the Parties, which shall be responsible for the oversight and management of the implementation of this Compact on behalf of the Government (“MCA-Armenia”).

Now, Therefore, in consideration of the foregoing and the mutual covenants and agreements set forth herein, the Parties hereby agree as follows:

Article I. Purpose and Term

Section 1.1 Objectives

The overall objective of this Compact is to reduce rural poverty through a sustainable increase in the economic

performance of the agricultural sector in Armenia (the “Compact Goal”). The Parties have identified the following project-level objectives (the “Objectives”) to advance the Compact Goal, each of which is described in more detail in the Annexes attached hereto:

Expand the access of rural communities to agricultural markets, non-farm income opportunities and social infrastructure by improving the condition of rural roads (the “Rural Road Rehabilitation Objective”); and

Increase the productivity of the agricultural sector by extending and improving the quality of the irrigation system, strengthening the entities that manage the system and enabling farmers to commercialize their products (the “Irrigated Agriculture Objective”).

The Government expects to achieve, and shall use its best efforts to ensure the achievement of, these Objectives during the Compact Term.

Section 1.2 Projects

The Annexes attached hereto describe the specific projects and the policy reforms and other activities related thereto (each, a “Project”) that the Government will carry out, or cause to be carried out, in furtherance of this Compact to achieve the Objectives.

Section 1.3 Entry into Force; Compact Term

This Compact shall enter into force on the date of the last letter in an exchange of letters between the Principal Representatives of each Party confirming that each Party has completed its domestic requirements for entry into force of this Compact and that all conditions set forth in Section 4.1 have been satisfied by the Government and MCC (such date, the “Entry into Force”). This Compact shall remain in force for five (5) years from the Entry into Force of this Compact, unless earlier terminated in accordance with Section 5.4 (the “Compact Term”).

Article II. Funding and Resources

Section 2.1 MCC Funding

(a) MCC’s Contribution. MCC hereby grants to the Government, subject to the terms and conditions of this Compact, an amount not to exceed Two Hundred Thirty-Five Million Six Hundred Fifty Thousand United States Dollars (USD \$235,650,000) (“MCC Funding”) during the Compact Term to enable the Government to implement the Program and achieve the Objectives.

(i) Subject to Sections 2.1(a)(ii), 2.2(b) and 5.4, the allocation of MCC Funding within the Program and among and

within the Projects shall be as generally described in Annex II or as otherwise agreed upon by the Parties from time to time.

(ii) If at any time MCC determines that a condition precedent to an MCC Disbursement has not been satisfied, MCC may, upon written notice to the Government, reduce the total amount of MCC Funding by an amount equal to the amount estimated in the applicable Detailed Financial Plan for the Program, Project or Project Activity for which such condition precedent has not been met. Upon the expiration or termination of this Compact, (1) any amounts of MCC Funding not disbursed by MCC to the Government shall be automatically released from any obligation in connection with this Compact and (2) any amounts of MCC Funding disbursed by MCC to the Government as provided in Section 2.1(b)(i), but not re-disbursed as provided in Section 2.1(b)(ii) or otherwise incurred as permitted pursuant to Section 5.4(e) prior to the expiration or termination of this Compact, shall be returned to MCC in accordance with Section 2.5(a)(ii).

(iii) Notwithstanding any other provision of this Compact and pursuant to the authority of section 609(g) of the Millennium Challenge Act of 2003, as amended (the “Act”), upon the conclusion of this Compact (and without regard to the satisfaction of all of the conditions for Entry into Force required under Section 1.3), MCC shall make available Five Hundred Thousand United States Dollars (USD \$500,000) (“Compact Implementation Funding”) to facilitate certain aspects of Compact implementation as described in Schedule 2.1(a)(iii) attached hereto; *provided*, such Compact Implementation Funding shall be subject to (1) the limitations on the use or treatment of MCC Funding set forth in Section 2.3, as if such provision were in full force and effect, and (2) any other requirements for, and limitations on the use of, such Compact Implementation Funding as may be required by MCC in writing; *provided, further*, that any Compact Implementation Funding granted in accordance with this Section 2.1(a)(iii) shall be included in, and not additional to, the total amount of MCC Funding; and *provided, further*, any obligation to provide such Compact Implementation Funding shall expire upon the expiration or termination of this Compact or five (5) years from the conclusion of this Compact, whichever occurs sooner. Notwithstanding anything to the contrary in this Compact, this Section 2.1(a)(iii) shall provisionally apply prior to Entry into Force.

(b) Disbursements.

(i) Disbursements of MCC Funding. MCC shall from time to time make disbursements of MCC Funding (each such disbursement, an “MCC Disbursement”) to a Permitted Account or through such other mechanism agreed by the Parties under and in accordance with the procedures and requirements set forth in Annex I, the Disbursement Agreement or as otherwise provided in any other relevant Supplemental Agreement.

(ii) Re-Disbursements of MCC Funding. The release of MCC Funding from a Permitted Account (each such release, a “Re-Disbursement”), shall be made in accordance with the procedures and requirements set forth in Annex I, the Disbursement Agreement or as otherwise provided in any other relevant Supplemental Agreement.

(c) Interest. Unless the Parties agree otherwise in writing, any interest or other earnings on MCC Funding that accrue (collectively, “Accrued Interest”) shall be held in a Permitted Account and accrue in accordance with the requirements for the accrual and treatment of Accrued Interest as specified in Annex I or any relevant Supplemental Agreement. On a quarterly basis and upon the termination or expiration of this Compact, the Government shall return, or ensure the return of, all Accrued Interest to any United States Government account designated by MCC.

(d) Conversion; Exchange Rate. The Government shall ensure that all MCC Funding that is held in the Permitted Account(s) shall be denominated in the currency of the United States of America (“United States Dollars”) prior to Re-Disbursement; *provided*, that a certain portion of MCC Funding may be transferred to a Local Account and may be held in such Local Account in the currency of the Republic of Armenia prior to Re-Disbursement in accordance with the requirements of Annex I and any relevant Supplemental Agreement. To the extent that any amount of MCC Funding held in United States Dollars must be converted into the currency of the Republic of Armenia for any purpose, including for any Re-Disbursement or any transfer of MCC Funding into a Local Account, the Government shall ensure that such amount is converted consistent with Annex I, including the rate and manner set forth in Annex I, and the requirements of the Disbursement Agreement or any other Supplemental Agreement between the Parties.

(e) Guidance. From time to time, MCC may provide guidance to the

Government through Implementation Letters on the frequency, form and content of requests for MCC Disbursements and Re-Disbursements or any other matter relating to MCC Funding. The Government shall apply such guidance in implementing this Compact.

Section 2.2 Government Resources

(a) The Government shall provide or cause to be provided such Government funds and other resources, and shall take or cause to be taken such actions, including obtaining all necessary approvals and consents, as are specified in this Compact or in any Supplemental Agreement to which the Government is a party or as are otherwise necessary and appropriate to effectively carry out the Government Responsibilities or other responsibilities or obligations of the Government under or in furtherance of this Compact during the Compact Term and through the completion of any post-Compact Term activities, audits or other responsibilities.

(b) If at any time during the Compact Term, the Government materially reallocates or reduces the allocation in its national budget or any other Armenian governmental authority at a departmental, municipal, regional or other jurisdictional level materially reallocates or reduces the allocation of its respective budget, of the normal and expected resources that the Government or such other governmental authority, as applicable, would have otherwise received or budgeted, from external or domestic sources, for the activities contemplated herein, the Government shall notify MCC in writing within fifteen (15) days of such reallocation or reduction, such notification to contain information regarding the amount of the reallocation or reduction, the affected activities, and an explanation for the reduction. In the event that MCC independently determines upon review of the executed national annual budget that such a material reallocation or reduction of resources has occurred, MCC shall notify the Government and, following such notification, the Government shall provide a written explanation for such reallocation or reduction and MCC may (i) reduce, in its sole discretion, the total amount of MCC Funding or any MCC Disbursement by an amount equal to the amount estimated in the applicable Detailed Financial Plan for the activity for which funds were reduced or reallocated or (ii) otherwise suspend or terminate MCC Funding in accordance with Section 5.4(b).

(c) The Government shall use its best efforts to ensure that all MCC Funding

is fully reflected and accounted for in the annual budget of the Republic of Armenia on a multi-year basis.

Section 2.3 Limitations on the Use or Treatment of MCC Funding

(a) Abortions and Involuntary Sterilizations. The Government shall ensure that MCC Funding shall not be used to undertake, fund or otherwise support any activity that is subject to prohibitions on use of funds contained in (i) paragraphs (1) through (3) of section 104(f) of the Foreign Assistance Act of 1961 (22 U.S.C. 2151b(f)(1)–(3), a United States statute, which prohibitions shall apply to the same extent and in the same manner as such prohibitions apply to funds made available to carry out Part I of such Act; or (ii) any provision of law comparable to the eleventh and fourteenth provisos under the heading “Child Survival and Health Programs Fund” of division E of Public Law 108–7 (117 Stat. 162), a United States statute.

(b) United States Job Loss or Displacement of Production. The Government shall ensure that MCC Funding shall not be used to undertake, fund or otherwise support any activity that is likely to cause a substantial loss of United States jobs or a substantial displacement of United States production, including:

(i) Providing financial incentives to relocate a substantial number of United States jobs or cause a substantial displacement of production outside the United States;

(ii) Supporting investment promotion missions or other travel to the United States with the intention of inducing United States firms to relocate a substantial number of United States jobs or a substantial amount of production outside the United States;

(iii) Conducting feasibility studies, research services, studies, travel to or from the United States, or providing insurance or technical and management assistance, with the intention of inducing United States firms to relocate a substantial number of United States jobs or cause a substantial displacement of production outside the United States;

(iv) Advertising in the United States to encourage United States firms to relocate a substantial number of United States jobs or cause a substantial displacement of production outside the United States;

(v) Training workers for firms that intend to relocate a substantial number of United States jobs or cause a substantial displacement of production outside the United States;

(vi) Supporting a United States office of an organization that offers incentives

for United States firms to relocate a substantial number of United States jobs or cause a substantial displacement of production outside the United States; or

(vii) Providing general budget support for an organization that engages in any activity prohibited above.

(c) Military Assistance and Training. The Government shall ensure that MCC Funding shall not be used to undertake, fund or otherwise support the purchase or use of goods or services for military purposes, including military training, or to provide any assistance to the military, police, militia, national guard or other quasi-military organization or unit.

(d) Prohibition of Assistance Relating to Environmental, Health or Safety Hazards. The Government shall ensure that MCC Funding shall not be used to undertake, fund or otherwise support any activity that is likely to cause a significant environmental, health, or safety hazard. Unless MCC and the Government agree otherwise in writing, the Government shall ensure that activities undertaken, funded or otherwise supported in whole or in part (directly or indirectly) by MCC Funding comply with environmental guidelines delivered by MCC to the Government or posted by MCC on its Web site or otherwise publicly made available, as such guidelines may be amended from time to time (the "*Environmental Guidelines*"), including any definition of "likely to cause a significant environmental, health, or safety hazard" as may be set forth in such Environmental Guidelines.

(e) Taxation.

(i) Taxes. The Government shall ensure that the Program, all Program Assets, MCC Funding and Accrued Interest shall be free from any taxes imposed under laws currently or hereafter in effect in the Republic of Armenia during the Compact Term. This exemption shall apply to any use of any Program Asset, MCC Funding and Accrued Interest, including any Exempt Uses, and to any work performed under or activities undertaken in furtherance of this Compact by any person or entity (including contractors and grantees) funded by MCC Funding, and shall apply to all taxes, tariffs, duties, and other levies (each a "*Tax*" and collectively, "*Taxes*"), including:

(1) To the extent attributable to MCC Funding, income taxes and other taxes on profit or businesses imposed on organizations or entities, other than nationals of the Republic of Armenia, receiving MCC Funding, including taxes on the acquisition, ownership, rental, disposition or other use of real or personal property, taxes on investment

or deposit requirements and currency controls in the Republic of Armenia, or any other tax, duty, charge or fee of whatever nature, except fees for specific services rendered; for purposes of this Section 2.3(e), the term "national" refers to organizations established under the laws of the Republic of Armenia, other than MCA-Armenia or any other entity established solely for purposes of managing or overseeing the implementation of the Program or any wholly-owned subsidiaries, divisions, or Affiliates of entities not registered or established under the laws of the Republic of Armenia;

(2) Customs duties, tariffs, import and export taxes, or other levies on the importation, use and re-exportation of goods, services, or the personal belongings and effects, including personally-owned automobiles, for Program use or the personal use of individuals who are neither citizens nor permanent residents of the Republic of Armenia and who are present in the Republic of Armenia for purposes of carrying out the Program or their family members, including all charges based on the value of such imported goods;

(3) Taxes on the income or personal property of all individuals who are neither citizens nor permanent residents of the Republic of Armenia, including income and social security taxes of all types and all taxes on the personal property owned by such individuals, to the extent such income or property are attributable to MCC Funding; and

(4) Taxes or duties levied on the purchase of goods or services funded by MCC Funding, including sales taxes, tourism taxes, value-added taxes ("*VAT*"), or other similar charges.

(ii) This Section 2.3(e) shall apply, but is not limited to (1) any transaction, service, activity, contract, grant or other implementing agreement funded in whole or in part by MCC Funding; (2) any supplies, equipment, materials, property or other goods (referred to herein collectively as "goods") or funds introduced into, acquired in, used or disposed of in, or imported into or exported from, the Republic of Armenia by MCC, or by any person or entity (including contractors and grantees) as part of, or in conjunction with, MCC Funding or the Program; (3) any contractor, grantee, or other organization carrying out activities funded in whole or in part by MCC Funding; and (4) any employee of such organizations (the uses set forth in clauses (1) through (4) are collectively referred to herein as "*Exempt Uses*").

(iii) If a Tax has been levied and paid contrary to the requirements of this Section 2.3(e), whether inadvertently,

due to the impracticality of implementation of this provision with respect to certain types or amounts of taxes, or otherwise, the Government shall refund promptly to MCC to an account designated by MCC the amount of such Tax in the currency of the Republic of Armenia, within thirty (30) days (or such other period as may be agreed in writing by the Parties) after the Government is notified in writing according to procedures agreed by the Parties, whether by MCC or otherwise, of such levy and tax payment; *provided, however*, the Government shall apply national funds to satisfy its obligations under this Section 2.3(e)(iii) and no MCC Funding, Accrued Interest, or any assets, goods, or property (real, tangible, or intangible) purchased or financed in whole or in part (directly or indirectly) by MCC Funding ("*Program Assets*") may be applied by the Government in satisfaction of its obligations under this paragraph.

(iv) The Parties shall memorialize in a mutually acceptable Supplemental Agreement or Implementation Letter or other suitable document the mechanisms for implementing this Section 2.3(e), including (1) a formula for determining refunds for Taxes paid, the amount of which is not susceptible to precise determination, (2) a mechanism for ensuring the tax-free importation, use, and re-exportation of goods, services, or the personal belongings of individuals (including all Providers) described in paragraph (i)(2) of this Section 2.3(e), and (3) any other appropriate Government action to facilitate the administration of this Section 2.3(e).

(v) The Parties agree that this Section 2.3(e) shall supplement, without limiting in any manner, the provisions relating to tariffs, dues, customs duties, import taxes and other similar taxes or charges contained in the bilateral agreement entered into on December 12, 1992 between the Government of the United States of America and the Government of the Republic of Armenia Regarding Cooperation to Facilitate the Provision of Humanitarian and Technical Economic Assistance (the "*Bilateral Agreement*"), which agreement continues in full force and effect. In case of any inconsistency between the provisions of this Section 2.3(e) and the provisions relating to tariffs, dues, customs duties, import taxes and other similar taxes or charges contained in the Bilateral Agreement, the provisions of this Section 2.3(e) shall prevail.

(f) Alteration. The Government shall ensure that no MCC Funding, Accrued Interest or Program Assets shall be

subject to any impoundment, rescission, sequestration or any provision of law now or hereafter in effect in the Republic of Armenia that would have the effect of requiring or allowing any impoundment, rescission or sequestration of any MCC Funding, Accrued Interest or Program Asset.

(g) Liens or Encumbrances. The Government shall ensure that no MCC Funding, Accrued Interest or Program Assets shall be subject to any lien, attachment, enforcement of judgment, pledge, or encumbrance of any kind (each a "*Lien*"), except with the prior approval of MCC in accordance with Section 3(c) of Annex I, and in the event of the imposition of any Lien not so approved, the Government shall promptly seek the release of such Lien; *provided, however*, the Government shall satisfy its obligations under this Section 2.3(g) at its own expense and no MCC Funding, Accrued Interest or Program Assets may be applied by the Government in satisfaction of its obligations under this Section 2.3(g).

(h) Other Limitations. The Government shall ensure that the use or treatment of MCC Funding, Accrued Interest and Program Assets shall be subject to such other limitations (i) as required by the applicable law of the United States of America now or hereafter in effect during the Compact Term, (ii) as advisable under or required by applicable United States Government policies now or hereafter in effect during the Compact Term, or (iii) to which the Parties may otherwise agree in writing.

(i) Utilization of Goods, Services and Works. The Government shall ensure that any Program Assets, services, facilities or works funded in whole or in part (directly or indirectly) by MCC Funding, unless otherwise agreed by the Parties in writing, shall be used solely in furtherance of this Compact.

(j) Notification of Applicable Laws and Policies. MCC shall notify the Government of any applicable United States law or policy affecting the use or treatment of MCC Funding, whether or not specifically identified in this Section 2.3, and shall provide to the Government a copy of the text of any such applicable law and a written explanation of any such applicable policy.

Section 2.4 Incorporation; Notice; Clarification

(a) The Government shall include, or ensure the inclusion of, all of the requirements set forth in Section 2.3 in all Supplemental Agreements to which MCC is not a party and shall use its best efforts to ensure that no such

Supplemental Agreement is implemented in violation of the prohibitions set forth in Section 2.3.

(b) The Government shall ensure notification of all of the requirements set forth in Section 2.3 to any Provider and all relevant officers, directors, employees, agents, representatives, Affiliates, contractors, sub-contractors, grantees and sub-grantees of any Provider. The term "*Provider*" shall mean (i) MCA-Armenia and any Government Affiliate or Permitted Designee involved in any activities in furtherance of this Compact or (ii) any third party who receives at least USD \$50,000 in the aggregate of MCC Funding (other than employees of MCA-Armenia) during the Compact Term or such other amount as the Parties may agree in writing, whether directly from MCC, indirectly through Re-Disbursements, or otherwise.

(c) In the event the Government or any Provider requires clarification from MCC as to whether an activity contemplated to be undertaken in furtherance of this Compact violates or may violate any provision of Section 2.3, the Government shall notify, or ensure that such Provider notifies, MCC in writing and provide in such notification a detailed description of the activity in question. In such event, the Government shall not proceed, and shall use its best efforts to ensure that no relevant Provider proceeds, with such activity, and the Government shall ensure that no Re-Disbursements shall be made for such activity, until MCC advises the Government or such Provider in writing that the activity is permissible.

Section 2.5 Refunds; Violation

(a) Notwithstanding the availability to MCC, or exercise by MCC of, any other remedies, including under international law, this Compact, or any Supplemental Agreement:

(i) If any amount of MCC Funding or Accrued Interest, or any Program Asset, is used for any purpose prohibited under this Article II or otherwise in violation of any of the terms and conditions of this Compact, any guidance in any Implementation Letter, or any Supplemental Agreement between the Parties, MCC may require the Government to repay promptly to MCC to an account designated by MCC or to others as MCC may direct the amount of such misused MCC Funding or Accrued Interest, or the cash equivalent of the value of any misused Program Asset, in United States Dollars, plus any interest that accrued or would have accrued thereon, within thirty (30) days (or such other period as may be

agreed in writing by the Parties) after the Government is notified, whether by MCC or otherwise, of such prohibited use; *provided, however*, the Government shall apply national funds to satisfy its obligations under this Section 2.5(a)(i) and no MCC Funding, Accrued Interest or Program Assets may be applied by the Government in satisfaction of its obligations under this Section 2.5(a)(i); and

(ii) If all or any portion of this Compact is terminated or suspended and upon the expiration of this Compact, the Government shall, subject to the requirements of Sections 5.4(e) and 5.4(f), refund, or ensure the refund, to MCC to such account(s) designated by MCC the amount of any MCC Funding, plus any Accrued Interest, promptly, but in no event later than thirty (30) days after the Government receives MCC's request for such refund; *provided*, that if this Compact is terminated or suspended in part, MCC may request a refund for only the amount of MCC Funding, plus any Accrued Interest, then allocated to the terminated or suspended portion; *provided, further*, that any refund of MCC Funding or Accrued Interest shall be to such account(s) as designated by MCC.

(b) Notwithstanding any other provision in this Compact or any other agreement to the contrary, MCC's right under this Section 2.5 for a refund shall continue during the Compact Term and for a period of (i) five (5) years thereafter or (ii) one (1) year after MCC receives actual knowledge of such violation, whichever is later.

(c) If MCC determines that any activity or failure to act violates, or may violate, any Section in this Article II, MCC may refuse any further MCC Disbursements for or conditioned upon such activity, and may take any action to prevent any Re-Disbursement related to such activity.

Article III. Implementation

Section 3.1 Implementation Framework

This Compact shall be implemented by the Parties in accordance with this Article III and as further specified in the Annexes and in relevant Supplemental Agreements.

Section 3.2 Government Responsibilities

(a) The Government shall have principal responsibility for oversight and management of the implementation of the Program (i) in accordance with the terms and conditions specified in this Compact and relevant

Supplemental Agreements, (ii) in accordance with all applicable laws then in effect in the Republic of Armenia, and (iii) in a timely and cost-effective manner and in conformity with sound technical, financial and management practices (collectively, the “*Government Responsibilities*”). Unless otherwise expressly provided, any reference to the Government Responsibilities or any other responsibilities or obligations of the Government herein shall be deemed to apply to any Government Affiliate and any of their respective directors, officers, employees, contractors, sub-contractors, grantees, sub-grantees, agents or representatives.

(b) The Government shall ensure that no person or entity shall participate in the selection, award, administration or oversight of a contract, grant or other benefit or transaction funded in whole or in part (directly or indirectly) by MCC Funding, in which (i) the entity, the person, members of the person’s immediate family or household or his or her business partners, or organizations controlled by or substantially involving such person or entity, has or have a financial or other interest or (ii) the person or entity is negotiating or has any arrangement concerning prospective employment, unless such person or entity has first disclosed in writing to the Government the conflict of interest and, following such disclosure, the Parties agree in writing to proceed notwithstanding such conflict. The Government shall ensure that no person or entity involved in the selection, award, administration, oversight or implementation of any contract, grant or other benefit or transaction funded in whole or in part (directly or indirectly) by MCC Funding shall solicit or accept from or offer to a third party or seek or be promised (directly or indirectly) for itself or for another person or entity any gift, gratuity, favor or benefit, other than items of de minimis value and otherwise consistent with such guidance as MCC may provide from time to time.

(c) The Government shall not designate any person or entity, including any Government Affiliate, to implement, in whole or in part, this Compact or any Supplemental Agreement between the Parties (including any Government Responsibilities or any other responsibilities or obligations of the Government under this Compact or any Supplemental Agreement between the Parties) or to exercise any rights of the Government under this Compact or any Supplemental Agreement between the Parties, except as expressly provided

herein or with the prior written consent of MCC; *provided, however*, the Government may designate MCA-Armenia or, with the prior written consent of MCC, such other mutually acceptable persons or entities, to implement some or all of the Government Responsibilities or any other responsibilities or obligations of the Government or to exercise any rights of the Government under this Compact or any Supplemental Agreement between the Parties (referred to herein collectively as “*Designated Rights and Responsibilities*”), in accordance with the terms and conditions set forth in this Compact or such Supplemental Agreement (each, a “*Permitted Designee*”). Notwithstanding any provision herein or any other agreement to the contrary, no such designation shall relieve the Government of such Designated Rights and Responsibilities, for which the Government shall retain ultimate responsibility. In the event that the Government designates any person or entity, including any Government Affiliate, to implement any portion of the Government Responsibilities or other responsibilities or obligations of the Government, or to exercise any rights of the Government under this Compact or any Supplemental Agreement between the Parties, in accordance with this Section 3.2(c), then the Government shall (i) cause such person or entity to perform such Designated Rights and Responsibilities in the same manner and to the full extent to which the Government is obligated to perform such Designated Rights and Responsibilities, (ii) ensure that such person or entity does not assign, delegate, or contract (or otherwise transfer) any of such Designated Rights and Responsibilities to any other person or entity and (iii) cause such person or entity to certify to MCC in writing that it will so perform such Designated Rights and Responsibilities and will not assign, delegate, or contract (or otherwise transfer) any of such Designated Rights and Responsibilities to any person or entity without the prior written consent of MCC.

(d) The Government shall, upon a request from MCC, execute, or ensure the execution of, an assignment to MCC of any cause of action which may accrue to the benefit of the Government, a Government Affiliate or any Permitted Designee, including MCA-Armenia, in connection with or arising out of any activities funded in whole or in part (directly or indirectly) by MCC Funding.

(e) The Government shall ensure that (i) no decision of MCA-Armenia is modified, supplemented, unduly

influenced or rescinded by any governmental authority, except by a non-appealable judicial decision or any judicial decision which MCA-Armenia, with the agreement of MCC, decides not to appeal, and (ii) the authority of MCA-Armenia shall not be expanded, restricted, or otherwise modified, except in accordance with this Compact, the Governance Agreement or any other Supplemental Agreement between the Parties.

(f) The Government shall ensure that all persons and individuals that enter into agreements to provide goods, services or works under the Program or in furtherance of this Compact shall do so in accordance with the Procurement Guidelines and shall obtain all necessary immigration, business and other permits, licenses, consents and approvals to enable them and their personnel to fully perform under such agreements.

Section 3.3 Government Deliveries

The Government shall proceed, and cause others to proceed, in a timely manner to deliver to MCC all Government deliveries required to be delivered by the Government under this Compact or any Supplemental Agreement between the Parties, in form and substance as set forth in this Compact or in any such Supplemental Agreement.

Section 3.4 Government Assurances

The Government hereby provides the following assurances to MCC that as of the date this Compact is signed:

(a) The information contained in the Proposal and any agreement, report, statement, communication, document or otherwise delivered or otherwise communicated to MCC by or on behalf of the Government on or after the date of the submission of the Proposal (i) are true, correct and complete in all material respects and (ii) do not omit any fact known to the Government that if disclosed would (1) alter in any material respect the information delivered, (2) likely have a material adverse effect on the Government’s ability to effectively implement, or ensure the effective implementation of, the Program or any Project or to otherwise carry out its responsibilities or obligations under or in furtherance of this Compact, or (3) have likely adversely affected MCC’s determination to enter into this Compact or any Supplemental Agreement between the Parties;

(b) Unless otherwise disclosed in writing to MCC, the MCC Funding made available hereunder is in addition to the normal and expected resources that the

Government usually receives or budgets for the activities contemplated herein from external or domestic sources;

(c) This Compact does not conflict and will not conflict with any international agreement or obligation to which the Government is a party or by which it is bound; and

(d) No payments have been (i) received by any official of the Government or any other government body in connection with the procurement of goods, services or works to be undertaken or funded in whole or in part (directly or indirectly) by MCC Funding, except fees, taxes, or similar payments legally established in the Republic of Armenia or (ii) made to any third party, in connection with or in furtherance of this Compact, in violation of the United States Foreign Corrupt Practices Act of 1977, as amended (15 U.S.C. 78a *et seq.*).

Section 3.5 Implementation Letters; Supplemental Agreements

(a) MCC may, from time to time, issue one or more letters to furnish additional information or guidance to assist the Government in the implementation of this Compact (each, an “*Implementation Letter*”). The Government shall apply such guidance in implementing this Compact.

(b) The details of any funding, implementing and other arrangements in furtherance of this Compact may be memorialized in one or more agreements between (i) the Government (or any Government Affiliate or Permitted Designee) and MCC, (ii) MCC and/or the Government (or any Government Affiliate or Permitted Designee) and any third party, including any of the Providers or Permitted Designee or (iii) any third parties where neither MCC nor the Government is a party, before, on or after the Entry into Force (each, a “*Supplemental Agreement*”). The Government shall deliver, or cause to be delivered, to MCC within five (5) days of its execution a copy of any Supplemental Agreement to which MCC is not a party.

Section 3.6 Procurement; Awards of Assistance

(a) The Government shall ensure that the procurement of all goods, services and works by the Government or any Provider in furtherance of this Compact shall be consistent with the procurement guidelines (the “*Procurement Guidelines*”) reflected in a Supplemental Agreement between the Government (and/or a mutually acceptable Government Affiliate such as MCA-Armenia) and MCC (the “*Procurement Agreement*”), which

Procurement Guidelines shall include the following requirements:

(i) Internationally accepted procurement rules with open, fair and competitive procedures are used in a transparent manner to solicit, award and administer contracts, grants, and other agreements and to procure goods, services and works;

(ii) Solicitations for goods, services, and works shall be based upon a clear and accurate description of the goods, services or works to be acquired;

(iii) Contracts shall be awarded only to qualified and capable contractors that have the capability and willingness to perform the contracts in accordance with the terms and conditions of the applicable contracts and on a cost effective and timely basis; and

(iv) No more than a commercially reasonable price, as determined, for example, by a comparison of price quotations and market prices, shall be paid to procure goods, services, and works.

(b) The Government shall maintain, and shall use its best efforts to ensure that all Providers maintain, records regarding the receipt and use of goods, services and works acquired in furtherance of this Compact, the nature and extent of solicitations of prospective suppliers of goods, services and works acquired in furtherance of this Compact, and the basis of award of contracts, grants and other agreements in furtherance of this Compact.

(c) The Government shall use its best efforts to ensure that information, including solicitations, regarding procurement, grant and other agreement actions funded (or to be funded) in whole or in part (directly or indirectly) by MCC Funding shall be made publicly available in the manner outlined in the Procurement Guidelines or in any other manner agreed upon by the Parties in writing.

(d) The Government shall ensure that no goods, services or works funded in whole or in part (directly or indirectly) by MCC Funding are procured pursuant to orders or contracts firmly placed or entered into prior to the Entry into Force, except as the Parties may otherwise agree in writing.

(e) The Government shall ensure that MCA-Armenia and any other Permitted Designee follows, and uses its best efforts to ensure that all Providers follow, the Procurement Guidelines in procuring (including soliciting) goods, services and works and in awarding and administering contracts, grants and other agreements in furtherance of this Compact, and shall furnish MCC evidence of the adoption of the Procurement Guidelines by MCA-

Armenia no later than the time specified in the Disbursement Agreement.

(f) The Government shall include, or ensure the inclusion of, the requirements of this Section 3.6 into all Supplemental Agreements between the Government or any Government Affiliate or Permitted Designee or any of their respective directors, officers, employees, Affiliates, contractors, sub-contractors, grantees, sub-grantees, representatives or agents, on the one hand, and a Provider, on the other hand.

(g) The Government shall ensure that approvals of the procurement of goods, works and services in furtherance of this Compact by the Governing Council pursuant to the terms of the Procurement Agreement shall not be subject to any additional approval by the Government.

Section 3.7 Policy Performance; Policy Reforms

In addition to the specific policy and legal reform commitments identified in Annex I and the Schedules thereto, the Government shall seek to maintain and improve its level of performance under the policy criteria identified in section 607 of the Act, and the MCA selection criteria and methodology published by MCC pursuant to section 607 of the Act from time to time (“*MCA Eligibility Criteria*”).

Section 3.8 Records and Information; Access; Audits; Reviews

(a) Reports and Information. The Government shall furnish to MCC, and shall use its best efforts to ensure that all Providers and any other third party receiving MCC Funding, as appropriate, furnish to the Government (and the Government shall provide to MCC), any records and other information required to be maintained under this Section 3.8 and such other information, documents and reports as may be necessary or appropriate for the Government to effectively carry out its obligations under this Compact, including under Section 3.12.

(b) Government Books and Records. The Government shall maintain, and shall use its best efforts to ensure that all Providers maintain, accounting books, records, documents and other evidence relating to this Compact adequate to show, to the satisfaction of MCC, without limitation, the use of all MCC Funding, including all costs incurred by the Government and the Providers in furtherance of this Compact, the receipt, acceptance and use of goods, services and works acquired in furtherance of this Compact by the Government and the Providers, agreed-upon cost sharing requirements,

the nature and extent of solicitations of prospective suppliers of goods, services and works acquired by the Government and the Providers in furtherance of this Compact, the basis of award of Government and other contracts and orders in furtherance of this Compact, the overall progress of the implementation of the Program, and any documents required by this Compact or any Supplemental Agreement between the Parties or reasonably requested by MCC upon reasonable notice (*"Compact Records"*). The Government shall maintain, and shall use its best efforts to ensure that all Covered Providers maintain, Compact Records in accordance with generally accepted accounting principles prevailing in the United States, or at the Government's option and with the prior written approval by MCC, other accounting principles, such as those (i) prescribed by the International Accounting Standards Committee (an affiliate of the International Federation of Accountants) or (ii) then prevailing in the Republic of Armenia. Compact Records shall be maintained for at least five (5) years after the end of the Compact Term or for such longer period, if any, required to resolve any litigation, claims or audit findings or any statutory requirements.

(c) Access. Upon the request of MCC, the Government, at all reasonable times, shall permit, or cause to be permitted, authorized representatives of MCC, the Inspector General, the United States Government Accountability Office, any auditor responsible for an audit contemplated herein or otherwise conducted in furtherance of this Compact, and any agents or representatives engaged by MCC or a Permitted Designee to conduct any assessment, review or evaluation of the Program, at all reasonable times the opportunity to audit, review, evaluate or inspect activities funded in whole or in part (directly or indirectly) by MCC Funding or undertaken in connection with the Program, the utilization of goods and services purchased or funded in whole or in part (directly or indirectly) by MCC Funding, and Compact Records, including of the Government or any Provider, relating to activities funded or undertaken in furtherance of, or otherwise relating to, this Compact, and shall use its best efforts to ensure access by MCC, the Inspector General, the United States Government Accountability Office or relevant auditor, reviewer or evaluator or their respective representatives or agents to all relevant directors, officers, employees, Affiliates, contractors,

representatives and agents of the Government or any Provider.

(d) Audits.

(i) Government Audits. The Government shall, on at least an annual basis and as the Parties may otherwise agree in writing, conduct, or cause to be conducted, financial audits of all MCC Disbursements and Re-Disbursements during the year since the Entry into Force or since the prior anniversary of the Entry into Force in accordance with the following terms, except as the Parties may otherwise agree in writing. As requested by MCC in writing, the Government shall use, or cause to be used, or select, or cause to be selected, an auditor named on the approved list of auditors in accordance with the *Guidelines for Financial Audits Contracted by Foreign Recipients* (the *"Audit Guidelines"*) issued by the Inspector General (the *"Inspector General"*) of the United States Agency for International Development (*"USAID"*) and as approved by MCC, to conduct such annual audits. Such audits shall be performed in accordance with such Audit Guidelines and be subject to quality assurance oversight by the Inspector General in accordance with such Audit Guidelines. An audit shall be completed no later than 90 days after the first anniversary of the Entry into Force of this Compact and no later than 90 days after each anniversary of the Entry into Force thereafter, or such other period as the Parties may otherwise agree in writing.

(ii) Audits of U.S. Entities. The Government shall ensure that Supplemental Agreements between the Government or any Provider, on the one hand, and a United States nonprofit organization, on the other hand, state that the United States organization is subject to the applicable audit requirements contained in OMB Circular A-133, notwithstanding any other provision of this Compact to the contrary. The Government shall ensure that Supplemental Agreements between the Government or any Provider, on the one hand, and a United States for-profit Covered Provider, on the other hand, state that the United States organization is subject to audit by the cognizant United States Government agency, unless the Government and MCC agree otherwise in writing.

(iii) Audit Plan. The Government shall submit, or cause to be submitted, to MCC, no later than twenty (20) days prior to the date of its adoption, in form and substance satisfactory to MCC, a plan, in accordance with the Audit Guidelines, for the audit of the expenditures of any Covered Providers, which audit plan, in the form and

substance as approved by MCA-Armenia, the Government shall adopt, or cause to be adopted, no later than sixty (60) days prior to the end of the first anniversary of the Entry into Force of this Compact or prior to the end of the first period to be audited.

(iv) Covered Provider. A *"Covered Provider"* is (1) a non-United States Provider that receives (other than pursuant to a direct contract or agreement with MCC) USD \$300,000 or more of MCC Funding in any MCA-Armenia fiscal year or any other non-United States person or entity that receives (directly or indirectly) USD \$300,000 or more of MCC Funding from any Provider in such fiscal year or (2) any United States Provider that receives (other than pursuant to a direct contract or agreement with MCC) USD \$500,000 or more of MCC Funding in any MCA-Armenia fiscal year or any other United States person or entity that receives (directly or indirectly) USD \$500,000 or more of MCC Funding from any Provider in such fiscal year.

(v) Corrective Actions. The Government shall use its best efforts to ensure that Covered Providers take, where necessary, appropriate and timely corrective actions in response to audits, consider whether a Covered Provider's audit necessitates adjustment of its own records, and require each such Covered Provider to permit independent auditors to have access to its records and financial statements as necessary.

(vi) Audit Reports. The Government shall furnish, or use its best efforts to cause to be furnished, to MCC an audit report in a form satisfactory to MCC for each audit required by this Section 3.8, other than audits arranged for by MCC, no later than 90 days after the end of the period under audit, or such other time as may be agreed by the Parties from time to time.

(vii) Other Providers. For Providers who receive MCC Funding under this Compact pursuant to direct contracts or agreements with MCC, MCC shall include appropriate audit requirements in such contracts or agreements and shall, on behalf of the Government, unless otherwise agreed by the Parties, conduct the follow-up activities with regard to the audit reports furnished pursuant to such requirements.

(viii) Audit by MCC. MCC retains the right to perform, or cause to be performed, the audits required under this Section 3.8 by utilizing MCC Funding or other resources available to MCC for this purpose, and to audit, conduct a financial review, or otherwise ensure accountability of any Provider or any other third party receiving MCC

Funding, regardless of the requirements of this Section 3.8.

(e) Application to Providers. The Government shall include, or ensure the inclusion of, at a minimum, the requirements of:

(i) Paragraphs (a), (b), (c), (d)(ii), (d)(iii), (d)(v), (d)(vi), and (d)(viii) of this Section 3.8 into all Supplemental Agreements between the Government, any Government Affiliate, any Permitted Designee or any of their respective directors, officers, employees, Affiliates, contractors, sub-contractors, grantees, sub-grantees, representatives or agents (each, a "Government Party"), on the one hand, and a Covered Provider that is not a non-profit organization domiciled in the United States, on the other hand;

(ii) Paragraphs (a), (b), (c), (d)(ii), and (d)(viii) of this Section 3.8 into all Supplemental Agreements between a Government Party and a Provider that does not meet the definition of a Covered Provider; and

(iii) Paragraphs (a), (b), (c), (d)(ii), (d)(v) and (d)(viii) of this Section 3.8 into all Supplemental Agreements between a Government Party and a Covered Provider that is a non-profit organization domiciled in the United States.

(f) Reviews or Evaluations. The Government shall conduct, or cause to be conducted, such performance reviews, data quality reviews, environmental and social audits, or program evaluations during the Compact Term or otherwise and in accordance with the M&E Plan or as otherwise agreed in writing by the Parties.

(g) Cost of Audits, Reviews or Evaluations. MCC Funding may be used to fund the costs of any Audits, reviews or evaluations required under this Compact, including as reflected on Exhibit A to Annex II, and in no event shall the Government be responsible for the costs of any such Audits, reviews or evaluations from financial sources other than MCC Funding.

Section 3.9 Insurance

The Government shall, to MCC's satisfaction, insure or cause to be insured all Program Assets and shall obtain or cause to be obtained such other appropriate insurance and other protections to cover against risks or liabilities associated with the operations of the Program, including by requiring Providers to obtain adequate insurance and post adequate performance bonds or other guarantees. MCA-Armenia or the Implementing Entity, as applicable, shall be named as the payee on any such insurance and the beneficiary of any

such guarantee, including performance bonds. MCC and, to the extent it is not named as the payee, MCA-Armenia shall be named as additional insureds on any such insurance or other guarantee, to the extent permissible under applicable laws. The Government shall ensure that any proceeds from claims paid under such insurance or any other form of guarantee shall be used to replace or repair any loss of Program Assets or to pursue the procurement of the covered goods, services or works; *provided, however*, at MCC's election, such proceeds shall be deposited in a Permitted Account as designated by MCA-Armenia and acceptable to MCC or otherwise as directed by MCC. To the extent MCA-Armenia is held liable under any indemnification or other similar provision of any agreement between MCA-Armenia, on the one hand, and any other Provider or other third party, on the other hand, the Government shall pay in full on behalf of MCA-Armenia any such obligation; *provided, further*, the Government shall apply national funds to satisfy its obligations under this Section 3.9 and no MCC Funding, Accrued Interest, or Program Asset may be applied by the Government in satisfaction of its obligations under this Section 3.9.

Section 3.10 Domestic Requirements

The Government shall proceed in a timely manner to seek any required ratification of this Compact or similar domestic requirement, which process the Government shall initiate promptly after the conclusion of this Compact. Notwithstanding anything to the contrary in this Compact, this Section 3.10 shall provisionally apply prior to the Entry into Force.

Section 3.11 No Conflict

The Government shall undertake not to enter into any agreement in conflict with this Compact or any Supplemental Agreement during the Compact Term.

Annex I—Program Description

This Annex I to the Compact (the “*Program Annex*”) generally describes the Program that MCC Funding will support in Armenia during the Compact Term and the results to be achieved from the investment of MCC Funding. Prior to any MCC Disbursement or Re-Disbursement, including for the Projects described herein, MCC, the Government (or a mutually acceptable Government Affiliate) and MCA-Armenia shall enter into a Supplemental Agreement that (i) further specifies the terms and conditions of such MCC Disbursements and Re-Disbursements, (ii) is in a form and substance mutually satisfactory to the Parties, and (iii) is signed by the Principal Representative of each Party (or in the case of the Government, the principal representative of the applicable Government Affiliate) and of MCA-Armenia (the “*Disbursement Agreement*”).

Except as specifically provided herein, the Parties may amend this Program Annex only by written agreement signed by the Principal Representative of each Party. Except as defined in this Program Annex, each capitalized term in this Program Annex shall have the same meaning given such term elsewhere in this Compact. Unless otherwise expressly stated, each Section

reference herein is to the relevant Section of the main body of the Compact.

1. Background; Consultative Process

(a) Background. Economic development in Armenia suffered a severe setback in the early 1990s following the collapse of the Soviet Union. In 1994, Armenia adopted a comprehensive stabilization and reform program that transformed it into a liberal market economy and launched a period of uninterrupted growth with an average increase of eight percent of gross domestic product (“GDP”) per year. In recent years, the Government has continued to focus on improving the business investment climate by pursuing macroeconomic stability, low inflation, strong fiscal discipline, and the privatization of state-owned enterprises.

Armenia’s economic growth, however, has mainly benefited inhabitants of the capital Yerevan and a few other cities, and poverty remains widespread among the rural population. In 2004, per capita GDP was estimated at USD \$1,100, with 35 percent of the population classified as poor. Data from household surveys show that the impact of agricultural sector growth on reducing rural poverty in Armenia has been much stronger than that of GDP growth. Consequently, specific policies and investments aimed at promoting sustainable growth in the agricultural sector are central to bringing about a reduction in rural poverty.

There are two important preconditions for growth in the Armenian agricultural sector: (i) Investment in the rural road network, which is essential for improving access to markets and communities and (ii) investment in irrigated agriculture to increasing productivity. Only 10 percent of Armenia’s rural road network is in good condition and there has been minimal investment in, or maintenance of, the network over the past decade. Currently, less than ten percent of total agricultural land is irrigated, while nearly 85 percent of total crop production is produced with irrigation.

(b) Consultative Process. In connection with the Program, Armenia engaged in a comprehensive consultative process based on the Poverty Reduction Strategy Paper initiated in 2003. In the initial priority-setting stage, the Government engaged a broad cross-section of the public, specifically civil society and rural communities, in a consultative process focused on MCA compact development. Issues were addressed through a continuous process that incorporated a

feedback mechanism reaching out to stakeholders, particularly those involved in irrigation, rural road, policy development and advocacy, and groups that specialize in monitoring and evaluation.

The Government engaged in rounds of regional, municipal, and local village level meetings to seek input and feedback on potential Proposal components. Meetings were held outside of city centers with announcements published beforehand. In addition to face-to-face meetings, the Government utilized various forms of mass media to reach more remote areas of Armenia, including radio and television announcements and programs, electronic mailing lists that are managed by non-governmental organizations (“NGOs”) throughout Armenia, and the printing of information brochures.

The selection of the irrigation and rural roads components of the Program also introduced new challenges that focused on issues ranging from communal land rights and responsibilities, sustainability of the investments and involvement of civil society in compact development and implementation. To address concerns of the NGO community, the Government offered to have the NGOs elect their own representatives to participate in the meetings of the MCA-Armenia Board of Trustees—an inter-governmental body, chaired by the Prime Minister that was established to oversee the MCC Proposal and Compact development process. Using existing NGO electronic mailing lists and a self-regulated selection process, NGOs voted to select three representatives to participate in the meetings.

The Government has created and maintains an interactive Web site (<http://www.mca.am>) (the “MCA-Armenia Web site”) that provides access to up-to-date information and a forum page on which to post and debate issues related to the Proposal process. The MCA-Armenia Web site also makes publicly available the Board of Trustees meeting minutes and the minutes of all meetings convened to discuss the Proposal.

2. Overview

(a) Program. The Program involves a series of specific and complementary interventions that the Parties expect will achieve the Irrigated Agriculture Objective and the Rural Road Rehabilitation Objective and advance the progress of Armenia toward the Compact Goal.

(b) Projects. To achieve the Objectives, the Parties have identified

Projects that the Government will implement, or cause to be implemented, using MCC Funding, each of which is described in the Schedules to this Program Annex. The Schedules to this Program Annex identify the activities that will be undertaken in furtherance of each Project (each, a “*Project Activity*”). Notwithstanding anything to the contrary in this Compact, the Parties may agree to amend, terminate or suspend these Projects or Project Activities or create a new project by written agreement signed by the Principal Representative of each Party without amending this Compact; *provided, however*, any such amendment of a Project or Project Activity or creation of a new project is (i) consistent with the Objectives; (ii) does not cause the amount of MCC Funding to exceed the aggregate amount specified in Section 2.1(a) of this Compact; (iii) does not cause the Government’s responsibilities or contribution of resources to be less than specified in Section 2.2 of this Compact or elsewhere in this Compact; and (iv) does not extend the Compact Term.

(c) Beneficiaries. The intended beneficiaries of each Project are described in the respective Schedule to this Program Annex and Annex III to the extent identified as of the date hereof. The intended beneficiaries shall be identified more precisely during the initial phases of the implementation of the Program. The Parties shall agree upon the description of the intended beneficiaries of the Program, including publishing such description on the MCA-Armenia Web site.

(d) Civil Society. Civil society will participate in overseeing the implementation of the Program through its representation on the Stakeholders’ Committee as further described in Section 3(d)(iv) of this Program Annex. In addition, the Work Plans for each Project shall note the extent to which civil society will have a role in the implementation of a particular Project Activity. Finally, members of civil society may be recipients of training or other public awareness programs that are related to the Project Activities.

(e) Monitoring and Evaluation. Annex III of this Compact generally describes the plan to measure and evaluate progress toward achievement of the Compact Goal and Objectives of this Compact (the “*M&E Plan*”). As outlined in the Disbursement Agreement and other Supplemental Agreements, continued payment of MCC Funding under this Compact will be contingent on successful achievement of targets set forth in the M&E Plan.

3. Implementation Framework

The implementation framework and the plan for ensuring adequate governance, oversight, management, monitoring, evaluation and fiscal accountability for the use of MCC Funding is summarized below and in the Schedules attached to this Program Annex, or as may otherwise be agreed in writing by the Parties.

(a) General. The elements of the implementation framework will be further described in relevant Supplemental Agreements and in a detailed plan for the implementation of the Program and each Project (the "*Implementation Plan*"), which will be memorialized in one or more documents and shall consist of a Financial Plan, a Fiscal Accountability Plan, Procurement Plans, Program and Project Work Plans, and an M&E Plan. MCA-Armenia shall adopt each component of the Implementation Plan in accordance with the requirements and timeframe as may be specified in this Program Annex, the Disbursement Agreement or as may otherwise be agreed by the Parties from time to time. MCA-Armenia may amend the Implementation Plan or any component thereof without amending this Compact, *provided*, any material amendment of the Implementation Plan or any component thereof has been approved by MCC and is otherwise consistent with the requirements of this Compact and any relevant Supplemental Agreement between the Parties. By such time as may be specified in the Disbursement Agreement or as may otherwise be agreed by the Parties from time to time, MCA-Armenia shall adopt one or more work plans for the overall administration of the Program and for each Project (collectively, the "*Work Plans*"). The Work Plan(s) shall set forth the details of each activity to be undertaken or funded by MCC Funding as well as the allocation of roles and responsibilities for specific Project activities, or other programmatic guidelines, performance requirements, targets, or other expectations for a Project.

(b) Government.

(i) The Government shall promptly take all necessary and appropriate actions to carry out the Government Responsibilities under and in furtherance of this Compact, including undertaking or pursuing such legal, legislative or regulatory actions, procedural changes and contractual arrangements as may be necessary or appropriate to achieve the Objectives, to successfully implement the Program, and to establish MCA-Armenia. The

Government shall promptly deliver to MCC certified copies of any documents, orders, decrees, laws or regulations evidencing such legal, legislative, regulatory, procedural, contractual or other actions.

(ii) During the Compact Term, the Government shall ensure that MCA-Armenia is duly authorized and organized and sufficiently staffed and empowered to fully carry out the Designated Rights and Responsibilities. Without limiting the generality of the preceding sentence, MCA-Armenia shall be organized, and have such roles and responsibilities, as described in Section 3(d) of this Program Annex and as provided in the Governance Agreement and any Governing Documents, which shall be in a form and substance satisfactory to MCC; *provided, however*, the Government may, subject to MCC approval, carry out any of the roles and responsibilities designated to be carried out by MCA-Armenia and described in Section 3(d) of this Program Annex or elsewhere in this Program Annex, applicable law, the Governing Documents, or any Supplemental Agreement prior to and during the initial period of the establishment and staffing of MCA-Armenia, but in no event longer than the earlier of (i) the formation of the Management Unit and the engagement of each of the officers and (ii) six months from the Entry into Force, unless otherwise agreed by the Parties in writing.

(c) MCC.

(i) Notwithstanding Section 3.1 of this Compact or any provision in this Program Annex to the contrary, and except as may be otherwise agreed upon by the Parties from time to time, MCC must approve in writing each of the following transactions, activities, agreements and documents prior to the execution or carrying out of such transaction, activity, agreement or document and prior to MCC Disbursements or Re-Disbursements in connection therewith:

An Implementing Entity shall report directly to MCA-Armenia as designated in the applicable Implementing Entity Agreement or as otherwise agreed by the Parties.

(f) Outside Project Manager. MCA-Armenia shall have the authority to engage qualified persons or entities to serve as outside project managers (each, an "*Outside Project Manager*") in the event that it is advisable to do so for the proper and efficient day-to-day management of a Project; *provided, however*, that the appointment or engagement of any Outside Project Manager after a competitive selection process shall be subject to approval by the Governing Council and MCC prior to such appointment or engagement. Upon Governing Council approval, MCA-Armenia may delegate, assign, or contract to the Outside Project Managers such duties and responsibilities as it deems appropriate with respect to the management of the Implementing Entities and the implementation of the specific Projects; and *provided, further*, that the Management Unit shall remain accountable for those duties and responsibilities and all reports delivered by the Outside Project Manager notwithstanding any such delegation, assignment or contract and the Outside Project Manager shall be subject to the oversight of the Fiscal Agent and Procurement Agent. The Governing Council may determine that it is advisable to engage one or more Outside Project Managers and instruct MCA-Armenia and, where appropriate, a Procurement Agent to commence and conduct the competitive selection process for such Outside Project Manager.

(g) Fiscal Agent. The Government shall ensure that MCA-Armenia engages one or more fiscal agents (each, a "*Fiscal Agent*"), who shall be responsible for, among other things, (i) ensuring and certifying that Re-Disbursements are properly authorized and documented in accordance with established control procedures set forth

in the Disbursement Agreement, the Fiscal Agent Agreement and other relevant Supplemental Agreements, (ii) instructing a Bank to make Re-Disbursements from a Permitted Account, following applicable certification by the Fiscal Agent, (iii) providing applicable certifications for MCC Disbursement Requests, (iv) maintaining proper accounting of all MCC Funding financial transactions, and (v) producing reports on MCC Disbursements and Re-Disbursements (including any requests therefore) in accordance with established procedures set forth in the Disbursement Agreement, the Fiscal Agent Agreement or any other relevant Supplemental Agreements. Upon the written request of MCC, the Government shall ensure that MCA-Armenia terminates a Fiscal Agent, without any liability to MCC, and the Government shall ensure that MCA-Armenia engages a new Fiscal Agent, subject to the approval by the Governing Council and MCC. The Government shall ensure that MCA-Armenia enters into an agreement with each Fiscal Agent, in form and substance satisfactory to MCC, that sets forth the roles and responsibilities of the Fiscal Agent and other appropriate terms and conditions, such as payment of the Fiscal Agent ("*Fiscal Agent Agreement*").

(h) Auditors and Reviewers. The Government shall ensure that MCA-Armenia carries out the Government's audit responsibilities as provided in Sections 3.8(d), (e) and (f), including engaging one or more auditors (each, an "*Auditor*") required by Section 3.8(d). As requested by MCC in writing from time to time, the Government shall ensure that MCA-Armenia shall also engage an independent (i) reviewer to conduct reviews of performance and compliance under this Compact pursuant to Section 3.8(f), which reviewer shall have the capacity to (1) conduct general reviews of performance or compliance, (2) conduct environmental and social audits, and (3) conduct data quality assessments in accordance with the M&E Plan, as described more fully in Annex III, and/or (ii) evaluator to assess performance as required under the M&E Plan (each, a "*Reviewer*"). MCA-Armenia shall select the Auditor(s) or Reviewers in accordance with the Governing Documents or relevant Supplemental Agreement. The Government shall ensure that MCA-Armenia enters into an agreement with each Auditor or Reviewer, in form and substance satisfactory to MCC, that sets forth the roles and responsibilities of the Auditor

or Reviewer with respect to the audit, review or evaluation, including access rights, required form and content of the applicable audit, review or evaluation and other appropriate terms and conditions such as payment of the Auditor or Reviewer (the "*Auditor/Reviewer Agreement*"). In the case of a financial audit required by Section 3.8(f), such Auditor/Reviewer Agreement shall be effective no later than 120 days prior to the end of the relevant fiscal year or other period to be audited; *provided, however*, if MCC requires concurrent audits of financial information or reviews of performance and compliance under this Compact, then such Auditor/Reviewer Agreement shall be effective no later than a date agreed by the Parties in writing.

(i) Procurement Agent. If requested by MCC, the Government shall ensure that MCA-Armenia engages one or more procurement agents (each, a "*Procurement Agent*") to carry out and/or certify specified procurement activities in furtherance of this Compact on behalf of the Government, MCA-Armenia, any Outside Project Manager or Implementing Entity. The roles and responsibilities of such Procurement Agent and the criteria for selection of a Procurement Agent shall be as set forth in the applicable Implementation Letter or Supplemental Agreement. The Government shall ensure that MCA-Armenia enters into an agreement with the Procurement Agent, in form and substance satisfactory to MCC, that sets forth the roles and responsibilities of the Procurement Agent with respect to the conduct, monitoring and review of procurements and other appropriate terms and conditions, such as payment of the Procurement Agent (the "*Procurement Agent Agreement*"). Any Procurement Agent shall adhere to the procurement standards set forth in the Procurement Agreement and Procurement Guidelines and ensure procurements are consistent with the procurement plan (the "*Procurement Plan*") adopted by MCA-Armenia, which plan shall forecast the upcoming six month procurement activities and be updated every six months.

4. Finances and Fiscal Accountability

(a) Financial Plan.

(i) Financial Plan. The multi-year financial plan for the Program and for each Project (the "*Multi-Year Financial Plan*") is summarized in Annex II to this Compact.

(ii) Detailed Financial Plan. During the Compact Term, the Government shall ensure that MCA-Armenia delivers to MCC for approval timely financial plans that detail the annual and

quarterly budget and projected cash requirements for the Program (including administrative costs) and each Project, projected both on a commitment and cash requirement basis (each a "*Detailed Financial Plan*"). Each Detailed Financial Plan shall be delivered by such time as specified in the Disbursement Agreement or as may otherwise be agreed by the Parties. The Multi-Year Financial Plan, each Detailed Financial Plan and each amendment, supplement or other change thereto are collectively, the "*Financial Plan*."

(iii) Expenditures. No financial commitment involving MCC Funding shall be made, no obligation of MCC Funding shall be incurred, and no Re-Disbursement shall be made or MCC Disbursement Request submitted for any activity or expenditure, unless the expense is provided for in the Detailed Financial Plan and unless uncommitted funds exist in the balance of the Detailed Financial Plan for the relevant period or unless the Parties otherwise agree in writing.

(iv) Modifications to Financial Plan. Notwithstanding anything to the contrary in this Compact, MCA-Armenia may amend or supplement the Financial Plan or any component thereof without amending this Compact, *provided*, any material amendment or supplement has been approved by MCC and is otherwise consistent with the requirements of this Compact and any relevant Supplemental Agreement between the Parties.

(b) Disbursement and Re-Disbursement. The Disbursement Agreement (and disbursement schedules thereto), as amended from time to time, shall specify the terms, conditions and procedures on which MCC Disbursements and Re-Disbursements shall be made. The obligation of MCC to make MCC Disbursements or approve Re-Disbursements is subject to the fulfillment or waiver of any such terms and conditions. The Government and MCA-Armenia shall jointly submit the applicable request for an MCC Disbursement (the "*MCC Disbursement Request*") as may be specified in the Disbursement Agreement. MCC will make MCC Disbursements in tranches to a Permitted Account from time to time as provided in the Disbursement Agreement or as may otherwise be agreed by the Parties, subject to Program requirements and performance by the Government, MCA-Armenia and other relevant parties in furtherance of this Compact. Re-Disbursements will be made from time to time based on requests by an authorized representative of the appropriate party designated for

the size and type of Re-Disbursement in accordance with the Governing Documents and Disbursement Agreement; *provided, however*, unless otherwise agreed by the Parties in writing, no Re-Disbursement shall be made unless and until the written approvals specified herein or in the Governing Documents and Disbursement Agreement for such Re-Disbursement have been obtained and delivered to the Fiscal Agent.

(c) Fiscal Accountability Plan. By such time as specified in the Disbursement Agreement or as otherwise agreed by the Parties, MCA-Armenia shall adopt as part of the Implementation Plan a fiscal accountability plan that identifies the principles and mechanisms to ensure appropriate fiscal accountability for the use of MCC Funding provided under this Compact, including the process to ensure that open, fair, and competitive procedures will be used in a transparent manner in the administration of grants or cooperative agreements and the procurement of goods and services for the accomplishment of the Objectives (the "*Fiscal Accountability Plan*"). The Fiscal Accountability Plan shall set forth, among other things, requirements with respect to the following matters: (i) Funds control and documentation; (ii) separation of duties and internal controls; (iii) accounting standards and systems; (iv) content and timing of reports; (v) policies concerning public availability of all financial information; (vi) cash management practices; (vii) procurement and contracting practices, including timely payment to vendors; (viii) the role of independent auditors; and (ix) the roles of fiscal agents and procurement agents.

(d) Permitted Accounts. The Government shall establish, or cause to be established, such accounts (each, a "*Permitted Account*," and collectively "*Permitted Accounts*") as may be agreed by the Parties in writing from time to time, including:

(i) A single, completely separate U.S. Dollar interest-bearing account at either the Central Bank of Armenia or at a commercial bank to receive MCC Disbursements;

(ii) If necessary, an interest-bearing local currency of Armenia account (the "*Local Account*") at either the Central Bank of Armenia or at a commercial bank that is procured through a competitive process to which the Fiscal Agent may authorize transfer from any U.S. Dollar Permitted Account for the purpose of making Re-Disbursements payable in local currency; and

(iii) Such other interest-bearing accounts to receive MCC Disbursements

in such banks as the Parties mutually agree upon in writing.

No other funds shall be commingled in a Permitted Account other than MCC Funding and Accrued Interest thereon. All MCC Funding held in an interest-bearing Permitted Account shall earn interest at a rate of no less than such amount as the Parties may agree in the respective Bank Agreement or otherwise. MCC shall have the right, among other things, to view any Permitted Account statements and activity directly on-line or at such other frequency as the Parties may otherwise agree. By such time as shall be specified in the Disbursement Agreement or as otherwise agreed by the Parties, the Government shall ensure that MCA-Armenia enters into an agreement with each Bank, respectively, satisfactory to MCC, that sets forth the signatory authority, access rights, anti-money laundering and anti-terrorist financing provisions, and other terms related to the Permitted Account, respectively (each a "Bank Agreement"). For purposes of this Compact, any bank holding a Permitted Account referenced in Section 4(d) of this Program Annex are each a "Bank" and, are collectively referred to as the "Banks."

(e) Currency Exchange. The Bank shall convert MCC Funding to the currency of the Republic of Armenia at a rate to which the Parties mutually agree with the Bank in the Bank Agreement.

5. Transparency; Accountability

Transparency and accountability to MCC and to the beneficiaries are important aspects of the Program and Projects. Without limiting the generality of the foregoing, in an effort to achieve the goals of transparency and accountability, the Government shall ensure that MCA-Armenia:

(a) Establishes an e-mail suggestion box as well as a means for other written comments that interested persons may use to communicate ideas, suggestions or feedback to MCA-Armenia;

(b) Considers as a factor in its decision-making the recommendations of the Stakeholders' Committee;

(c) Develops and maintains the MCA-Armenia Web site in a timely, accurate and appropriately comprehensive manner, such MCA-Armenia Web site to include postings of information and documents in English and Armenian and other languages where relevant; and

(d) Posts on the MCA-Armenia Web site and otherwise makes publicly available from time to time the following documents or information:

(i) The Compact and all Compact Reports;

(ii) All minutes of the meetings of the Governing Council and Stakeholders' Committee;

(iii) The M&E Plan, as amended from time to time, along with periodic reports on Program performance;

(iv) All Project environmental and social impact assessments ("ESIAs") and supporting documents;

(v) All audit reports by an Auditor and any periodic reports or evaluations by a Reviewer;

(vi) Disbursement Agreement, as amended from time to time;

(vii) All procurement policies and procedures (including standard documents and procurement plans) and any other documents required to be made publicly available pursuant to the Procurement Agreement; and

(viii) A copy of any legislation and other documents related to the formation, organization and governance of MCA-Armenia, including the Governing Documents, and any amendments thereto.

Schedule 1 to Annex I—Rural Road Rehabilitation Project

This Schedule 1 describes and summarizes the key elements of the rural road rehabilitation project ("*Rural Road Rehabilitation Project*") that the Parties intend to implement in furtherance of the Rural Road Rehabilitation Objective. Additional details regarding the implementation of the Rural Road Rehabilitation Project will be included in the Implementation Plan and in relevant Supplemental Agreements.

1. Background

Armenia's public road network consists of 7,703 km of roads, including 1,561 km of main roads, 1,800 km of secondary roads (referred to in Armenia as "republican" roads) and 4,342 km of local roads. Main and republican roads are managed by the Armenian Road Directorate ("*ARD*") and local roads are managed at the regional (*Marz*) level.

In 2002, the World Bank financed a rural infrastructure study which identified a lifeline network (the "*LLN*") from among the republican and local roads. The objective was to ensure all communities, towns and villages are linked to the main road network, either directly or through other communities. The resulting network comprises 2703 km, of which 759 km (28 percent) are republican roads, and 1943 km (72 percent) are local roads.

The Government is committed to bringing the entire LLN up to a maintainable standard and ensuring sustainable maintenance of this network. Moreover, the Government has

committed to re-classifying the entire LLN as republican roads so that they will come under the management and maintenance responsibility of the ARD.

2. Summary of the Project

(a) Project Description. MCC Funding will be used to rehabilitate up to 943 km of high priority LLN roads (45 percent of the LLN), consisting of 85 road segments throughout the country and amounting to 321 km of republican roads and 622 km of local roads. All rehabilitation works will be on existing alignments and will include pavement rehabilitation, improvements to up to 19 bridges, drainage facilities, and road safety features.

MCA-Armenia will select roads from among the LLN roads described above. MCC Funding will be provided to rehabilitate selected roads subject to the condition that each road must:

- Have an economic rate of return at least equal to 12.5 percent, calculated in a manner acceptable to MCC and based on a feasibility study and final design;
- Conform to Government requirements and MCC's Environmental Guidelines; and
- Conform to the World Bank policy on Involuntary Resettlement, where relevant.

MCC Funding will also be provided to ARD to conduct a technical audit of its existing performance based maintenance contracts and for technical assistance to create a long-term road maintenance strategic plan.

The M&E Plan (described in Annex III) will set forth anticipated results and, where appropriate, regular benchmarks that may be used to monitor implementation progress of the Rural Road Rehabilitation Project. Performance against these benchmarks and the overall impact of the Rural Road Rehabilitation Project will be assessed and reported at regular intervals to be specified in the M&E Plan or otherwise agreed by the Parties from time to time. The Parties expect that additional benchmarks may be identified during implementation of the Project. Estimated amounts of MCC Funding for the Rural Road Rehabilitation Project are identified in Annex II of this Compact. Conditions precedent and sequencing of the Project shall be set forth in the Disbursement Agreement or other relevant Supplemental Agreements.

(b) Project Implementation. The Rural Road Rehabilitation Project will be implemented through the ARD, under the authority of the Ministry of Transport and Communications ("*MoTC*"). ARD is responsible for planning, design and construction of all

state owned roads in Armenia and is responsible for the maintenance of all main and republican roads. It has departments for design and tender, planning (road survey and economic evaluation), construction and rehabilitation and routine maintenance, as well as a road safety group and an on-site laboratory. ARD was the project implementation unit for two World Bank projects in the last 10 years and has a trained staff and the basic technical capacity to implement the Project. The Government will establish a rural roads coordination unit within the ARD, staffed with members of the former project implementation unit established by the World Bank for its completed transportation project. MCA-Armenia will enter into an Implementing Entity Agreement with the ARD that will set out the terms and conditions for the use of MCC Funding in implementing the Rural Road Rehabilitation Project.

3. Beneficiaries

The principal beneficiaries of the Rural Road Rehabilitation Project are expected to be approximately 360,000 Armenians living in 265 rural communities connected by the rehabilitated LLN. Particular beneficiaries include: Farmers who use the improved roads to get products to market and to get inputs to production; users of public transport; and other travelers.

4. Donor Coordination

The Rural Road Rehabilitation Project will complement the rehabilitation and construction of larger roads and other rural roads recently undertaken by other donors. In addition, MCC support to the redefinition and management of the LLN will require collaboration and coordination with other donors active in the road sector. Although the World Bank's two transportation projects in Armenia, the Highway Project and the Transport Project, are closed, the World Bank takes an active interest in the sustainable maintenance arrangements of the roads. Coordination will also continue with the Lincy Foundation, which has completed several main road rehabilitation projects and is considering additional ones. Other donors include: The Japan International Cooperation Agency which is currently funding a landslide survey; the Kuwait Fund, which is currently considering a request to fund the rehabilitation of rural roads leading to places of historical and tourist significance; and the Asian Development Bank, which is establishing a country office in Armenia

and has also expressed interest in road sector investments.

5. Sustainability

(a) Institutional Sustainability

The Government will ensure continued institutional support of the Project through the passage of appropriate legislation establishing the LLN as republican roads, placing them under the operations and maintenance jurisdiction of the ARD. The portion of the LLN to be rehabilitated with MCC Funding represents the initial phase of the establishment of this network and creates a commitment by the Government to build out the rest of the LLN, as well as establish a sustainable maintenance program for the LLN and main road network. The Rural Road Rehabilitation Project will further help to institutionalize performance based contracts, which were instituted by ARD in 2005 and provide a mechanism to promote local contractors by establishing a competitive and reliable contracting environment.

(b) Financial Sustainability

Financial sustainability is a function of the Government's commitment to finance necessary annual road maintenance programs for the rehabilitated roads. Currently, the Government finances approximately USD \$9 million annually of routine maintenance on the entire road network. As rehabilitation on the LLN proceeds, additional resources will be committed by the Government to cover routine maintenance on the additional roads. Moreover, the Government will establish a plan for financing periodic maintenance so as to ensure the long term sustainability of the entire road network. In addition, the Government agrees to fund any environmental mitigation costs associated with the Rural Road Rehabilitation Project in excess of MCC Funding allocated to cover such costs.

(c) Environmental and Social Sustainability

The key to ensuring environmental and social sustainability of the Project is ongoing public consultation. The Environment and Social Impact Officer ("ESI Officer") within the Management Unit will ensure that environmental and social mitigation measures are followed for all Project Activities in accordance with the provisions set forth in this Compact and in relevant Supplemental Agreements. The ESI Officer will serve as the point of contact for comments and concerns of parties affected by the implementation of all Project Activities

under the Compact and will lead the effort to find feasible resolutions to those problems. The ESI Officer will convene periodic public meetings to provide implementation updates and to identify and address public concerns. The Stakeholders' Committee will also appoint representatives of civil society to the Governing Council and provide a link between local NGOs and program managers. Environmental and social analyses of the roads will be conducted as part of the technical survey and design to determine the environmental impacts and existence of economic and physical displacement. In addition to the analyses, environmental management plans ("EMPs") satisfactory to MCC will be developed, implemented and monitored during project implementation. Disbursement of MCC Funding will be contingent upon issuance of environmental licenses, as needed, or any other required permits.

6. Policy, Legal and Regulatory Reforms

The Parties have identified the following policy, legal and regulatory reforms and actions that the Government will pursue in support of the Rural Road Rehabilitation Project to reach its full benefits. Satisfactory implementation of these reforms may be conditions precedent to certain MCC Disbursements as provided in the Disbursement Agreement:

(a) The Government will define and adopt into legislation the concept of a LLN of no less than 2,703 km of roads. LLN roads are to be defined as those which ensure road access from each community to the main road network. LLN roads should be classified as republican roads so that the maintenance of the LLN falls under the jurisdiction of the ARD.

(b) The Government will present an annual plan for the repair and routine maintenance of the entire LLN, acceptable to MCC, including the roads to be rehabilitated with MCC Funding.

(c) The Government will allocate sufficient funds in the budget for continued rehabilitation of a minimum of 532 km of the LLN over the Compact Term, with the following minimum annual km and threshold expenditure amounts (actual budgeted in Armenian Drams ("AMD")):

(i) Fiscal year 2006: 32 km; 1.01 billion AMD;

(ii) Fiscal year 2007: 100 km; 3.15 billion AMD;

(iii) Fiscal year 2008: 100 km; 3.31 billion AMD;

(iv) Fiscal year 2009: 120 km; 3.97 billion AMD; and

(v) Fiscal year 2010: 180 km; 5.95 billion AMD.

(d) The Government will allocate funds in the budget for routine maintenance of the entire Armenian road network in amounts at least equal to the amounts set out below for the following fiscal years, will expend such amounts for their intended purpose, and will make up any budget shortfall from the prior year's road maintenance budget:

(i) Fiscal year 2006: 5.02 billion AMD;

(ii) Fiscal year 2007: 5.99 billion AMD;

(iii) Fiscal year 2008: 6.29 billion AMD;

(iv) Fiscal year 2009: 6.90 billion AMD; and

(v) Fiscal year 2010: 7.36 billion AMD.

(e) The Government will submit a long-term routine and periodic maintenance plan for the entire road network by the end of the third year of the Compact Term.

Schedule 2 to Annex I—Irrigated Agriculture Project

This Schedule 2 describes and summarizes the key elements of the irrigated agriculture project that the Parties intend to implement in furtherance of the Irrigated Agriculture Objective (the "*Irrigated Agriculture Project*"). Additional details regarding the implementation of the Irrigated Agriculture Project will be included in the Implementation Plan and in relevant Supplemental Agreements.

1. Background

Armenian agricultural productivity and profitability are constrained by dilapidated irrigated infrastructure and an outdated system characterized by water losses, inefficient operations and high costs of electric pumping. Farmers operate on small plots of land and are limited by an underdeveloped market economy. In addition, agriculture lending in Armenia is at a very low level. Despite this, a reformed institutional environment for modern irrigation management and agribusiness development is emerging at a critical juncture in the post-Soviet era. The Irrigated Agriculture Project will address the conditions necessary to achieve higher rural incomes based on irrigated agriculture. It includes infrastructure improvements on targeted irrigation schemes, as well as technical support and training for key actors in the irrigation sector, namely: The national Water Supply Agency (the "WSA"), the Water User Associations (the "WUAs"), federations of WUAs and their member farmers. In addition, the

Project will provide medium and long-term lending to farmers and enterprises participating in the Project through registered credit organizations.

2. Summary of the Project and Project Activities

The Irrigated Agriculture Project addresses the physical, managerial and financial investments needed to generate sustainable increases in rural incomes through irrigated agriculture. These investments will be implemented through two critical activities:

- Improving dilapidated infrastructure to expand the land area under irrigated production and improvements to the overall efficiency of sourcing and delivering water to member farmers (the "*Infrastructure Activity*"); and
- Building the management capacities of the WSA and WUAs and providing training and access to credit for member farmers to transition to more profitable, market-oriented agriculture (the "*Water-to-Market Activity*").

The M&E Plan (described in Annex III) will set forth anticipated results and, where appropriate, regular benchmarks that may be used to monitor implementation progress. Performance against these benchmarks and the overall impact of the Irrigated Agriculture Project will be assessed and reported at the intervals to be specified in the M&E Plan or as otherwise agreed by the Parties from time to time. The Parties expect that additional benchmarks may be identified during the implementation of each Project Activity. Estimated amounts of MCC Funding for each Project Activity for this Irrigated Agriculture Project are identified in Annex II of this Compact. Conditions precedent to each Irrigated Agriculture Project Activity and sequencing of these Project Activities shall be set forth in the Disbursement Agreement or other relevant Supplemental Agreements.

(a) Infrastructure Activity.

(i) MCC Funding will be used to increase the land area under irrigated production and improve the overall efficiency of sourcing and water delivery to member farmers. This will be done by selectively:

(1) Rehabilitating infrastructure and equipment for up to 21 regional irrigation schemes, including:

(A) Conversion of part or all of 15 schemes from pump to gravity systems;

(B) Construction or rehabilitation of 7 reservoirs;

(C) Rehabilitation of 200 km of main canals;

(D) Renovation and resizing of 68 pumping stations; and

(E) Rehabilitation of tertiary canals utilizing a 15 percent beneficiary co-investment;

(2) Rehabilitating additional tertiary canal systems in up to nine WUAs utilizing a 15 percent beneficiary co-investment and not included in clause (i)(1)(E) above; and

(3) Renovating the drainage system serving the Ararat Valley production systems, including renovating open and closed drains, tube wells and artesian wells within 3 sub-regions. MCA-Armenia will select individual components or groups of components from among the foregoing irrigation schemes for rehabilitation. MCC Funding will be provided to rehabilitate such components, subject to the condition that each individual component or group of components must:

- Have an economic rate of return at least equal to 12.5 percent, calculated in a manner acceptable to MCC and based on a feasibility study and final design;

- Conform to Government regulations and MCC's Environmental Guidelines; and

- Conform to the World Bank policy on Involuntary Resettlement, where relevant.

(ii) The Infrastructure Activity will be implemented through the Water Sector Development and Institutional Project Implementation Unit under the authority of the State Water Committee (the "*Irrigation PIU*"). Originally established for the World Bank's irrigation projects, the Irrigation PIU has a trained staff and the basic technical capacity to implement the Infrastructure Activity. MCC Funding will be used to recruit an outside project management advisor to assist the Irrigation PIU. MCA-Armenia will enter into an Implementing Entity Agreement with the Irrigation PIU that will set out the terms and conditions for the use of MCC Funding in implementing the Infrastructure Activity.

(b) Water-to-Market Activity.

(i) The Water-to-Market Activity will ensure that MCC Funding of the Infrastructure Activity is sustained through a combination of training, technical assistance, access to credit and essential equipment. Under the Water-to-Market Activity, MCC Funding will be used to build management capacities within the WSA and 53 WUAs and improve the ability of member farmers to convert the improved water supply to profitable production and pay for water charges through two sub-activities:

(1) Strengthening Irrigation System Entities. MCC Funding will be used to:

(A) Support organizational reforms and institutional strengthening of the WSA;

(B) Build administrative and operational capacity of the WUAs and the developing federations of WUAs; and

(C) Support the establishment of a professional irrigation association.

(2) Improving the Profitability of WUA Member Farmers. MCC Funding will be used to:

(A) Provide member farmers with access to technology and training in on-farm water management and higher value agricultural production;

(B) Provide training and consulting to individual member farmers, farmer groups and small and medium enterprises on post-harvest, processing and marketing investments; and

(C) Build capacity within credit organizations and provide funding to such credit organizations which will on-lend to member farmers and related enterprises.

(ii) The sub-activity to strengthen irrigation system entities will be managed in the Irrigation PIU. The sub-activity to improve profitability of WUA member farmers will be managed by an Outside Project Manager to be selected through a competitive international tender process.

3. Beneficiaries

The beneficiaries of the Irrigated Agriculture Project will be the 53 WUAs and their approximately 250,000 member farmers who will benefit from more efficient and reliable irrigation water and intensive institutional strengthening. Among these member farmers, an estimated 60,000 will be reached with on-farm water management techniques. At least 30,000 member farmers will be reached with transition to higher value agriculture technology. A further subset of an estimated 15,000 member farmers will be reached with modern post-harvest, processing and marketing techniques. Some 300 enterprises involved with post-harvest, processing and marketing are expected to benefit leading to significant additional job creation.

4. Donor Coordination

The Irrigated Agriculture Project builds upon and complements an extensive body of work by several donors in irrigation and agriculture.

(a) World Bank and IFAD. The World Bank has contributed to the irrigation sector through three operations: the Irrigation Dam Safety Projects I and II; the Irrigation Development Project (the "IDP"); and the Irrigation Rehabilitation Project. The International Fund for

Agricultural Development ("IFAD") has also contributed to the sector under the latter two World Bank projects, as well as its own Agriculture Research Project. Regarding improvements in WUA members' capacity to pay for water services, the World Bank is initiating a loan package to support the agricultural sector called the Rural Enterprise and Small-Scale Commercial Agriculture Development Project. IFAD is also extending a loan focusing on providing credit, grants and training to rural enterprises in communities of mountainous regions. Coordination with the World Bank and IFAD programs is advantageous in the following areas: (i) The phase-out of the Government's subsidy policies and establishment of effective cost recovery mechanisms; (ii) the co-financing contributions by the WUAs to capital investments in the tertiary canal system; (iii) institutional strengthening; and (iv) technical and marketing support programs for member farmers.

(b) USAID and USDA. USAID is currently funding a Water Management Program that focuses on national water policy (including drinking water) and the institutional framework for that policy. The Government and MCA-Armenia will align policy reform and support to the WSA and WUAs through this program's progress and insights. The USAID-supported Armenia SME Market Development Project will continue to support agribusiness, textiles and stone-work enterprises until September 2006, and the Micro Enterprise Development Initiative provides management consulting services to financial institutions and business service providers also until September, 2006. United States Department of Agriculture ("USDA") funding supports the Center for Agribusiness and Rural Development to develop value-adding enterprises producing high quality product to meet market demand. The USAID and USDA programs represent economic development approaches that will be complemented by MCA-Armenia's support to WUA member farmers and related enterprises.

5. Sustainability

(a) Institutional Sustainability

The Government has taken substantial steps to strengthen the institutional framework for rural development. The management of Armenia's irrigation system has recently been decentralized to 53 regional WUAs. The Government has enhanced water management efficiency by merging responsibilities for irrigation and drainage. The Irrigated

Agriculture Project will benefit from an extensive Water-to-Market Activity which will provide organizational support for the WSA reforms, management capacity building of the WUAs and developing regional federations of WUAs, and guidance for the formation of a professional irrigation association. Technical assistance will be targeted to ensure that the WSA, WUAs and federations of WUAs have systems to effectively manage and finance their operations. In addition, credit organizations will receive training and capital to expand financial services targeted at WUA member farmers.

(b) Financial Sustainability

Armenia's irrigation system has suffered from a lack of resources for maintenance. The Irrigated Agriculture Project aims to address this problem, which has led to the degradation of the system over time.

First, the Irrigated Agriculture Project is designed to rely less on pumping systems and more on gravity-based irrigation, which should decrease energy costs. However, to the extent pumping systems will be rehabilitated, the Government will present an adequate plan for coverage of operations and maintenance costs, including depreciation, before MCC Funding will be disbursed for civil works on these systems.

Second, the institutional strengthening of the WUAs under the Water-to-Market Activity will also increase the capacity of WUAs to finance themselves through member contributions and water charges. Investing in human capacities (farmers' technical and management skills and approach toward the market) to transform their enterprises to be profitable by competing in commercial markets significantly contributes to the financial sustainability of the irrigation system. Improved capacity of credit organizations to on-lend to rural borrowers will be sustained and expanded as new profit opportunities in the value chain emerge.

Third, the Government will continue its policy of WUA co-financing of tertiary canals consistent with the World Bank IDP and will implement such co-financing in a manner satisfactory to MCC. In addition, the Government agrees to fund any environmental mitigation costs associated with the Irrigated Agriculture Project in excess of MCC Funding allocated to cover such costs.

(c) Environmental and Social Sustainability

The key to ensuring environmental and social sustainability of the Project is ongoing public consultation. The ESI Officer within the Management Unit will ensure that environmental and social mitigation measures are followed for all Project Activities in accordance with the provisions set forth in this Compact and in relevant Supplemental Agreements. The ESI Officer will serve as the point of contact for comments and concerns of parties affected by the implementation of all Project Activities and will lead the effort to find feasible resolutions to those problems. The ESI Officer will convene periodic public meetings to provide implementation updates and to identify and address public concerns. The Stakeholders' Committee will also appoint representatives of civil society to the Governing Council and provide a link between local NGOs and program managers.

ESIAs of the Irrigated Agriculture Project will be conducted as part of the technical survey and design. EMPs satisfactory to MCC will be developed, implemented and monitored during project implementation. Should the issue of involuntary resettlement arise, the Irrigated Agriculture Project will be conducted in compliance with the World Bank Policy on Involuntary Resettlement. To maximize the positive social impacts of the Project, the Implementing Entities for the Water-to-Market Activity will ensure that women are adequately represented in the groups targeted for assistance.

6. Policy Actions; Legislative and Regulatory Reform

The Parties have identified the following policy actions and legislative and regulatory reforms that the Government will pursue in support of the Irrigated Agriculture Project to reach its full benefits. Satisfactory implementation of these reforms may be conditions precedent to certain MCC Disbursements as provided in the Disbursement Agreement:

(a) The Government will arrange for 15 percent WUA co-financing of investments in tertiary canal systems consistent with the World Bank IDP and will implement such co-financing in a manner satisfactory to MCC.

(b) Before the end of the second quarter of the second year of the Compact Term, the Government will adopt and implement a plan acceptable to MCC for the restructuring of the WSA.

(c) Before the end of the second year of the Compact Term, the Government

will adopt appropriate legislation and/or regulations required by the Water Code of 2002 to establish a national policy on irrigation that will govern the relationships among the State Committee of Water Economy, the WSA, WUAs and the federations of WUAs.

(d) The Government will use its best efforts to ensure that water charges collected from WUAs continue towards the goal of full recovery of operations and maintenance costs. During the Compact Term, at least the following percentages of annual operations and maintenance costs will be covered:

- (i) 2006: 46 percent;
- (ii) 2007: 55 percent;
- (iii) 2008: 60 percent;
- (iv) 2009: 66 percent; and
- (v) 2010: 70 percent.

These percentages will be calculated in a manner acceptable to MCC according to the following formula: WC/SC .

WC = Actual water charges collected during the most recently completed fiscal year as reported by the Board of WUAs and federations of WUAs pursuant to the Law on Water User Associations and Federations of Water User Associations.

SC = Operations and maintenance costs for the most recently completed fiscal year of the WSA and the WUAs as reported by the Board of WUAs and federations of WUAs pursuant to the Law on Water User Associations and Federations of Water User Associations.

(e) The Government will allocate funds to cover rehabilitation of the irrigation system in at least the amounts specified in the recommendation of the Technical Commission on Water System Operation and Maintenance, excluding any amounts provided for rehabilitation by MCC Funding.

(f) The Technical Commission on Water System Operation and Maintenance will make a recommendation with respect to the overall costs to cover depreciation of the irrigation system. The Government will ensure that such depreciation costs are reflected in its annual budgets throughout the life of the Program Assets.

(g) Before the end of the 18th month of the Compact Term, the Government will develop and adopt legislation and/or regulations, or amend existing legislation and regulations, to facilitate the establishment of agricultural cooperatives.

(h) By the end of the first year of the Compact Term, the Government will develop and adopt legislation and/or regulations to improve statistics on agriculture, including an accounting of

the sector and data collection procedures.

(i) The Central Banking Authority will modify the regulatory framework for the licensing of MFIs as credit organizations.

(j) In an effort to ensure that the councils of the Water User Associations are more representative of their constituencies, the Government will adopt the amendment of Article 16 of the Law on Water User Associations and Federations of Water User Associations proposed by the Government on September 13, 2005.

(k) The Government will allocate in its budget and expend amounts satisfactory to MCC to fund the activities of the National Statistical Service, including conducting the Integrated Survey of Living Standards and the Community Survey. These surveys will be used by MCC as a key monitoring indicator and for impact evaluations. Funding by the Government should increase year-to-year to ensure sustainability post-Compact.

Annex II—Financial Plan Summary

This Annex II to the Compact (the "*Financial Plan Annex*") summarizes the Multi-Year Financial Plan for the Program. Except as defined in this Financial Plan Annex, each capitalized term in this Financial Plan Annex shall have the same meaning given such term elsewhere in this Compact.

1. General

A multi-year financial plan summary ("*Multi-Year Financial Plan Summary*") is attached hereto as Exhibit A. By such time as specified in the Disbursement Agreement, MCA-Armenia will adopt, subject to MCC approval, a Multi-Year Financial Plan that includes, in addition to the multi-year summary of anticipated estimated MCC Funding and the Government's contribution of funds and resources, an estimated draw-down rate for the first year of the Compact based on the achievement of performance milestones, as appropriate, and the satisfaction or waiver of conditions precedent. Each year, at least 30 days prior to the anniversary of the Entry into Force, the Parties shall mutually agree in writing to a Detailed Financial Plan for the upcoming year of the Program, which shall include a more detailed plan for such year, taking into account the status of the Program at such time and making any necessary adjustments to the Multi-Year Financial Plan.

2. Implementation and Oversight

The Multi-Year Financial Plan and each Detailed Financial Plan shall be implemented by MCA-Armenia, consistent with the approval and oversight rights of MCC and the Government as provided in this Compact, the Governance Agreement and the Disbursement Agreement.

3. Estimated Contributions of the Parties

The Multi-Year Financial Plan Summary identifies the estimated annual contribution of MCC Funding for Program administration, monitoring and evaluation, and each Project. The Government's contribution of resources to Program administration, monitoring and evaluation, and each Project shall consist of (i) "in-kind" contributions in the form of Government Responsibilities and any other obligations and responsibilities of the Government identified in this Compact, including contributions identified in the notes to the Multi-Year Financial Plan Summary and (ii) such other contributions or amounts as may be identified in relevant Supplemental Agreements between the Parties or as may otherwise be agreed by the Parties; *provided*, in no

event shall the Government's contribution of resources be less than the amount, level, type and quality of resources required to effectively carry out the Government Responsibilities or any other responsibilities or obligations of the Government under or in furtherance of this Compact.

4. Modifications

The Parties recognize that the anticipated distribution of MCC Funding between and among the various Program activities and Project and Project Activities will likely require adjustment from time to time during the Compact Term. In order to preserve flexibility in the administration of the Program, the Parties may, upon agreement of the Parties in writing and without amending the Compact, change the designations and allocations of funds between Program administration and a Project, between one Project and another Project, between different activities within a Project, or between a Project identified as of the Entry into Force of this Compact and a new Project, without amending the Compact; *provided, however*, that such reallocation (i) is consistent with the

Objectives, (ii) does not cause the amount of MCC Funding to exceed the aggregate amount specified in Section 2.1(a) of this Compact, and (iii) does not cause the Government's obligations or responsibilities or overall contribution of resources to be less than specified in Section 2.2(a) of this Compact, this Annex II or elsewhere in the Compact.

5. Conditions Precedent; Sequencing

MCC Funding will be disbursed in tranches. The obligation of MCC to approve MCC Disbursements and Material Re-Disbursements for the Program and each Project is subject to satisfactory progress in achieving the Objectives and on the fulfillment or waiver of any conditions precedent specified in the Disbursement Agreement for the relevant Program activity or Project or Project Activity. The sequencing of Projects or Project Activities and other aspects of how the Parties intend the Projects to be implemented will be set forth in the Implementation Plan, including Work Plans for the applicable Project, and MCC Disbursements and Re-Disbursements will be disbursed consistent with that sequencing.

Annex III—Description of the M&E Plan

This Annex III to the Compact (the "M&E Annex") generally describes the

components of the M&E Plan for the Program. Except as defined in this M&E Annex, each capitalized term in this

M&E Annex shall have the same meaning given such term elsewhere in this Compact.

1. Overview

MCC and the Government (or a mutually acceptable Government Affiliate or Permitted Designee) shall formulate, agree to and the Government shall implement, or cause to be implemented, an M&E Plan that specifies (1) how progress toward the Objectives and the intermediate results of each Project and Project Activity set forth in this M&E Annex (the “*Outcomes*”) will be monitored (the “*Monitoring Component*”), (2) a methodology, process and timeline for the evaluation of planned, ongoing, or completed Projects and Project Activities to determine their efficiency, effectiveness, impact and sustainability (the “*Evaluation Component*”), and (3) other components of the M&E Plan described below. Information regarding the Program’s performance, including the M&E Plan, and any amendments or modifications thereto, as well as periodically generated reports, will be made publicly available on the MCA-Armenia Web site and elsewhere.

2. Monitoring Component

To monitor progress toward the achievement of the Objectives and Outcomes, the Monitoring Component of the M&E Plan shall identify (a) the Indicators, (b) the party or parties responsible, the timeline, and the instrument for collecting data and reporting on each Indicator to MCA-Armenia, and (c) the method by which the reported data will be validated.

(a) Indicators. The M&E Plan shall measure the results of the Program using quantitative, objective and reliable data (“*Indicators*”). Each Indicator will have one or more expected results that specify the expected value and the expected time by which that result will be achieved (each, a “*Target*”). The M&E Plan will measure and report on Indicators at four levels. First, the Indicators for the Compact Goal (each, a “*Compact Goal Indicator*”) will measure the results for the overall Program. Second, the Indicators for each Objective (each, an “*Objective Indicator*”) will measure the final results of the Projects to monitor their

success in meeting each of the Objectives, including results for the intended beneficiaries identified in accordance with Annex I (collectively, the “*Beneficiaries*”). Third, intermediate Indicators (each, an “*Outcome Indicator*”) will measure the intermediate results achieved under each of the Project Activities to provide an early measure of the likely impact of the Project Activities. A fourth level of Indicators (each, an “*Output Indicator*”) will be included in the M&E Plan to measure the direct outputs of the Project Activities. All Indicators will be disaggregated by gender, income level and age, to the extent practicable. Subject to prior written approval from MCC, MCA-Armenia may add Indicators or refine the Targets of existing Indicators.

(i) Compact Goal Indicators. The M&E Plan shall contain the Compact Goal Indicators listed in the table below with their definitions. The corresponding Targets to be achieved are in the following tables.

² The Targets for this Indicator will be available at the end of the second quarter of 2006, when the recommendations of the Technical Commission on Water System Operation and Maintenance are due for Government confirmation.

³ The Targets for this Indicator will be incorporated once individual WUAs agree to the 15% co-financing required to proceed with the investments in tertiary canals.

(b) Data Collection and Reporting. The M&E Plan shall establish guidelines for data collection and a reporting framework, including a schedule of Program reporting and responsible parties. The Management Unit shall conduct regular assessments of program performance to inform MCA-Armenia and MCC of progress under the Program and to alert these parties to any problems. These assessments will report the actual results compared to the Targets on the Indicators referenced in the Monitoring Component, explain deviations between these actual results and Targets, and in general, serve as a management tool for implementation of the Program. With respect to any data or reports received by MCA-Armenia, MCA-Armenia shall promptly deliver such reports to MCC along with any other related documents, as specified in the M&E Plan or as may be requested from time to time by MCC.

(c) Data Quality Reviews. From time to time, as determined in the M&E Plan

or as otherwise requested by MCC, the quality of the data gathered through the M&E Plan shall be reviewed to ensure that data reported are as valid, reliable, and timely as resources will allow. The objective of any data quality review will be to verify the quality and the consistency of performance data, across different implementation units and reporting institutions. Such data quality reviews also will serve to identify where those levels of quality are not possible, given the realities of data collection. The data quality reviewer shall enter into an Auditor / Reviewer Agreement with MCA-Armenia in accordance with Annex I.

3. Evaluation Component

The Program shall be evaluated on the extent to which the interventions contribute to the Compact Goal. The Evaluation Component shall contain a methodology, process and timeline for analyzing data in order to assess planned, ongoing, or completed Project

Activities to determine their efficiency, effectiveness, impact and sustainability. This component should use state-of-the-art methods for addressing selection bias and should make provisions for collecting data from both treatment and control groups, where practicable. The Evaluation Component shall contain two types of reports: Final Evaluations and Ad Hoc Evaluations, and shall be finalized before any MCC Disbursement or Re-Disbursement for specific Program activities or Project Activities.

(a) Final Evaluation. MCA-Armenia, with the prior written approval of MCC, may engage an independent evaluator to conduct an evaluation at the expiration or termination of the Compact Term ("Final Evaluation") or at MCC's election, MCC may engage such independent evaluator. The Final Evaluation must at a minimum (i) evaluate the efficiency and effectiveness of the Program; (ii) estimate, quantitatively and in a statistically valid way, the causal relationship between

the Compact Goal (to the extent possible), the Objectives and Outcomes; (iii) determine if, and analyze the reasons why, the Compact Goal, Objectives and Outcomes were or were not achieved; (iv) identify positive and negative unintended results of the Program; (v) provide lessons learned that may be applied to similar projects; (vi) assess the likelihood that results will be sustained over time; and (vii) any other guidance and direction that will be provided in the M&E Plan. To the extent engaged by MCA-Armenia, such independent evaluator shall enter into an Auditor/Reviewer Agreement with MCA-Armenia in accordance with Annex I.

(b) *Ad Hoc Evaluations.* Either MCC or MCA-Armenia may request ad hoc or interim evaluations or special studies of Projects, Project Activities, or the Program as a whole prior to the expiration of the Compact Term (“*Ad Hoc Evaluations*”). If MCA-Armenia engages an evaluator, the evaluator will be an externally contracted independent source selected by MCA-Armenia, subject to the prior written approval of MCC, following a tender in accordance with the Procurement Guidelines, and otherwise in accordance with any relevant Implementation Letter or Supplemental Agreement. The cost of an independent evaluation or special study may be paid from MCC Funding. If MCA-Armenia requires an ad hoc independent evaluation or special study at the request of the Government for any reason, including for the purpose of

contesting an MCC determination with respect to a Project or Project Activity or to seek funding from other donors, no MCC Funding or MCA-Armenia resources may be applied to such evaluation or special study without MCC’s prior written approval.

4. *Other Components of the M&E Plan*

In addition to the Monitoring and Evaluation Components, the M&E Plan shall include the following components for the Program, Projects and Project Activities, including, where appropriate, roles and responsibilities of the relevant parties and Providers:

(a) *Costs.* A detailed cost estimate for all components of the M&E Plan.

(b) *Assumptions and Risks.* Any assumptions and risks external to the Program that underlie the accomplishment of the Objectives and Outcomes; *provided*, such assumptions and risks shall not excuse performance of the Parties, unless otherwise expressly agreed to in writing by the Parties.

5. *Implementation of the M&E Plan*

(a) *Approval and Implementation.* The approval and implementation of the M&E Plan, as amended from time to time, shall be in accordance with the Program Annex, this M&E Annex, the Governance Agreement, and any other relevant Supplemental Agreement.

(b) *Stakeholders’ Committee.* The completed portions of the M&E Plan will be presented to the Stakeholders’ Committee at the Stakeholders’ Committee’s initial meetings, and any

amendments or modifications thereto or any additional components of the M&E Plan will be presented to the Stakeholders’ Committee at appropriate subsequent meetings of the Stakeholders’ Committee. The Stakeholders’ Committee will have opportunity to present its suggestions to the M&E Plan, which the Governing Council will take into consideration in its review of any amendments to the M&E Plan during the Compact Term.

(c) *MCC Disbursement and Re-Disbursement for a Project Activity.* As a condition to each MCC Disbursement or Re-Disbursement there shall be satisfactory progress on the M&E Plan for the relevant Project or Project Activity, and substantial compliance with the M&E Plan, including any reporting requirements.

(d) *Modifications.* Notwithstanding anything to the contrary in the Compact, including the requirements of this M&E Annex, MCC and the Government (or a mutually acceptable Government Affiliate or Permitted Designee) may modify or amend the M&E Plan or any component thereof, including those elements described herein, without amending the Compact; *provided*, any such modification or amendment of the M&E Plan has been approved by MCC in writing and is otherwise consistent with the requirements of this Compact and any relevant Supplemental Agreement between the Parties.
