

Proposed Rules

Federal Register

Vol. 71, No. 76

Thursday, April 20, 2006

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

7 CFR Part 28

[Doc. # CN-06-001]

RIN 0581-AC58

User Fees for 2006 Crop Cotton Classification Services To Growers

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Agricultural Marketing Service (AMS) is proposing to maintain user fees for cotton producers for 2006 crop cotton classification services under the Cotton Statistics and Estimates Act at the same level as in 2005. This is in accordance with the formula provided in the Uniform Cotton Classing Fees Act of 1987. The 2005 user fee for this classification service was \$1.85 per bale. This proposal would maintain the fee for the 2006 crop at \$1.85 per bale. The proposed fee and the existing reserve are sufficient to cover the costs of providing classification services, including costs for administration and supervision.

DATES: Comments must be received on or before May 5, 2006.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposed rule to Darryl Earnest, Deputy Administrator, Cotton Program, AMS, USDA, STOP 0224, 1400 Independence Avenue, SW., Washington, DC 20250-0224. Comments should be submitted in triplicate. Comments may also be submitted electronically to: cottoncomments@usda.gov. All comments should reference the docket number and the date and the page of this issue of the **Federal Register**. All comments received will be available for public inspection during regular business hours at the above office in Rm. 2641—South Building, 1400 Independence Avenue, SW.,

Washington, DC. A copy of this notice may be found at: <http://www.ams.usda.gov/cotton/rulemaking.htm>.

FOR FURTHER INFORMATION CONTACT:

Darryl Earnest, Deputy Administrator, Cotton Program, AMS, USDA, Room 2641-S, Stop 0224, 1400 Independence Avenue, SW., Washington, DC 20250-0224. Telephone (202) 720-2145, facsimile (202) 690-1718, or e-mail darryl.earnest@usda.gov.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

This proposed rule has been determined to be not significant for purposes of Executive Order 12866; and, therefore has not been reviewed by the Office of Management and Budget (OMB).

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect. This rule would not preempt any state or local laws, regulations, or policies unless they present an irreconcilable conflict with this rule. There are no administrative procedures that must be exhausted prior to any judicial challenge to the provisions of this rule.

Regulatory Flexibility Act

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) AMS has considered the economic impact of this action on small entities and has determined that its implementation will not have a significant economic impact on a substantial number of small businesses.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions so that small businesses will not be disproportionately burdened. There are an estimated 35,000 cotton growers in the U.S. who voluntarily use the AMS cotton classing services annually, and the majority of these cotton growers are small businesses under the criteria established by the Small Business Administration (13 CFR 121.201). Continuing the user fee at the 2005 crop level as stated will not significantly affect small businesses as defined in the RFA because:

(1) The fee represents a very small portion of the cost-per-unit currently

borne by those entities utilizing the services. (The 2005 user fee for classification services was \$1.85 per bale; the fee for the 2006 crop would be maintained at \$1.85 per bale; the 2006 crop is estimated at 21,000,000 bales).

(2) The fee for services will not affect competition in the marketplace; and

(3) The use of classification services is voluntary. For the 2005 crop, 23,703,000 bales were produced; and, almost all of these bales were voluntarily submitted by growers for the classification service.

(4) Based on the average price paid to growers for cotton from the 2004 crop of 41.6 cents per pound, 500 pound bales of cotton are worth an average of \$208 each. The proposed user fee for classification services, \$1.85 per bale, is less than one percent of the value of an average bale of cotton.

Paperwork Reduction Act

In compliance with OMB regulations (5 CFR part 1320), which implemented the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), the information collection requirements contained in the provisions to be amended by this proposed rule have been previously approved by OMB and were assigned OMB control number 0581-AC43.

It is anticipated that the proposed changes, if adopted, would be made effective July 1, 2006, as provided by the Cotton Statistics and Estimates Act.

Fees for Classification Under the Cotton Statistics and Estimates Act of 1927

The user fee charged to cotton producers for High Volume Instrument (HVI) classification services under the Cotton Statistics and Estimates Act (7 U.S.C. 473a) was \$1.85 per bale during the 2005 harvest season as determined by using the formula provided in the Uniform Cotton Classing Fees Act of 1987, as amended by Public Law 102-237. The fees cover salaries, costs of equipment and supplies, and other overhead costs, including costs for administration, and supervision.

This proposed rule establishes the user fee charged to producers for HVI classification at \$1.85 per bale during the 2006 harvest season.

Public Law 102-237 amended the formula in the Uniform Cotton Classing Fees Act of 1987 for establishing the producer's classification fee so that the producer's fee is based on the prevailing method of classification requested by producers during the previous year. HVI

classing was the prevailing method of cotton classification requested by producers in 2005. Therefore, the 2006 producer's user fee for classification service is based on the 2005 base fee for HVI classification.

The fee was calculated by applying the formula specified in the Uniform Cotton Classing Fees Act of 1987, as amended by Public Law 102-237. The 2005 base fee for HVI classification exclusive of adjustments, as provided by the Act, was \$2.37 per bale. An increase of 3.29 percent, or 8 cents per bale, due to the implicit price deflator of the gross domestic product added to the \$2.37 would result in a 2006 base fee of \$2.45 per bale. The formula in the Act provides for the use of the percentage change in the implicit price deflator of the gross national product (as indexed for the most recent 12-month period for which statistics are available). However, gross *national* product has been replaced by gross *domestic* product by the Department of Commerce as a more appropriate measure for the short-term monitoring and analysis of the U.S. economy.

The number of bales to be classed by the United States Department of Agriculture from the 2006 crop is estimated at 20,268,150 bales. The 2006 base fee was decreased 15 percent based on the estimated number of bales to be classed (1 percent for every 100,000 bales or portion thereof above the base of 12,500,000, limited to a maximum decreased adjustment of 15 percent). This percentage factor amounts to a 37 cents per bale reduction and was subtracted from the 2006 base fee of \$2.45 per bale, resulting in a fee of \$2.08 per bale.

However, with a fee of \$2.08 per bale, the projected operating reserve would be 35.74 percent. The Act specifies that the Secretary shall not establish a fee which, when combined with other sources of revenue, will result in a projected operating reserve of more than 25 percent. Accordingly, the fee of \$2.08 must be reduced by 23 cents per bale, to \$1.85 per bale, to provide an ending accumulated operating reserve for the fiscal year of not more than 25 percent of the projected cost of operating the program. This would establish the 2006 season fee at \$1.85 per bale.

Accordingly, section 28.909, paragraph (b) would reflect the continuation of the HVI classification fee at \$1.85 per bale.

As provided for in the Uniform Cotton Classing Fees Act of 1987, as amended, a 5 cent per bale discount would continue to be applied to voluntary centralized billing and collecting agents as specified in section 28.909 (c).

Growers or their designated agents receiving classification data would continue to incur no additional fees if classification data is requested only once. The fee for each additional retrieval of classification data in section 28.910 would remain at 5 cents per bale. The fee in section 28.910(b) for an owner receiving classification data from the National database would remain at 5 cents per bale, and the minimum charge of \$5.00 for services provided per monthly billing period would remain the same. The provisions of section 28.910(c) concerning the fee for new classification memoranda issued from the National database for the business convenience of an owner without reclassification of the cotton will remain the same at 15 cents per bale or a minimum of \$5.00 per sheet.

The fee for review classification in section 28.911 would be maintained at \$1.85 per bale.

The fee for returning samples after classification in section 28.911 would remain at 40 cents per sample.

A 15-day comment period is provided for public comments. This period is appropriate because it is anticipated that the proposed changes, if adopted, would be made effective July 1, 2006, as provided by the Cotton Statistics and Estimates Act.

List of Subjects in 7 CFR Part 28

Administrative practice and procedure, Cotton, Cotton samples, Grades, Market news, Reporting and recordkeeping requirements, Standards, Staples, Testing, Warehouses.

For the reasons set forth in the preamble, 7 CFR part 28 is proposed to be amended as follows:

PART 28—[AMENDED]

1. The authority citation for 7 CFR part 28, subpart D, continues to read as follows:

Authority: 7 U.S.C. 471–476.

2. In § 28.909, paragraph (b) is revised to read as follows:

§ 28.909 Costs.

* * * * *

(b) The cost of High Volume Instrument (HVI) cotton classification service to producers is \$1.85 per bale.

* * * * *

3. In § 28.911, the last sentence of paragraph (a) is revised to read as follows:

§ 28.911 Review classification.

(a) * * * The fee for review classification is \$1.85 per bale.

* * * * *

Dated: April 14, 2006.

Lloyd C. Day,

Administrator, Agricultural Marketing Service.

RIN 0581–AC55

Increase in Fees for Federal Dairy Grading and Inspection Services

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Agricultural Marketing Service (AMS) is proposing to increase, by approximately 10 percent, the hourly fees charged for Federal dairy grading and inspection services. Dairy grading and inspection services are voluntary and are financed through user-fees assessed to participants in the program. These revisions are necessary in order to recover, as nearly as practicable, the increase in salaries of Federal employees, the increase in Agency costs, and to ensure that the Dairy Grading Branch operates on a financially self-supporting basis.

DATES: Comments must be received on or before May 22, 2006.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposed rule to Dana H. Coale, Deputy Administrator, Dairy Programs, Agricultural Marketing Service, U.S. Department of Agriculture, Stop 0225, room 2968—South, 1400 Independence Avenue, SW., Washington, DC 20250–0225. Comments may be faxed to (202) 690–3410. Comments should be submitted in duplicate. Comments may also be electronically submitted to Dana.Coale@usda.gov or <http://www.regulations.gov>. All comments should reference docket number DA–05–04 and note the date and page number of this issue of the **Federal Register**. All comments received will be available for public inspection at the above location during regular business hours. Comments received also will be made available over the Internet in the rulemaking section of the AMS Web site <http://www.ams.usda.gov/rulemaking>.

FOR FURTHER INFORMATION CONTACT: Dana H. Coale, Dairy Programs (202) 720–4392.
