

information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

**Proposed Project: Screening, Brief Intervention, Brief Treatment and Referral to Treatment (SBIRT) Cross-Site Evaluation—New**

SAMHSA's Center for Substance Abuse Treatment (CSAT) is conducting a cross-site external evaluation of the impact of programs of screening, brief intervention (BI), brief treatment (BT) and referral to treatment on patients presenting at various health care delivery units with a continuum of

severity of substance use. CSAT's SBIRT program is a cooperative agreement grant program designed to help six States and one Tribal Council expand the continuum of care available for substance misuse and use disorders. The program includes screening, BI, BT and referrals for persons at risk for dependence on alcohol or drugs. The primary purpose of the evaluation is to study the extent to which the modified models of SBIRT being implemented by the grantees expand the continuum of care available for treatment of substance use disorders.

A survey will be used to collect data from patients at the participating grantee health care delivery units at baseline using a computer-assisted

personal interview (CAPI) and at a six-month follow-up primarily via computer-assisted telephone interviewing (CATI). A second survey will be administered to practitioners who are delivering SBIRT services using CAPI. The patient survey is composed of questions on substance use behaviors and other outcome measures such as productivity, absenteeism, health status, arrests and accidents. The practitioner survey is designed to evaluate the implementation of proposed SBIRT models by measuring their penetration and practitioners' willingness to adopt. Furthermore, the survey will document moderating factors related to practitioner and health care delivery unit characteristics.

**TOTAL BURDEN HOURS FOR THE CROSS-SITE PATIENT SURVEY**

Instrument/activity	Number of respondents	Number of responses per respondent	Average burden per response	Total burden hours per collection
Cross-Site Patient Survey:				
Baseline Data Collection .....	10,500	1	.25	2,625
6-Month Follow-up Data Collection (80% of baseline) .....	8,400	1	.25	2,100
Cross-Site Practitioner Survey .....	270	1	.25	67.5
Total .....	19,170	.....	.....	4,793

Send comments to Summer King, SAMHSA Reports Clearance Officer, Room 7-1044, 1 Choke Cherry Road, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: January 4, 2006.

**BILLING CODE 4162-20-P**

**DEPARTMENT OF HOMELAND SECURITY**

**Federal Emergency Management Agency**

**Agency Information Collection Activities: Proposed Collection; Comment Request**

**AGENCY:** Federal Emergency Management Agency, Department of Homeland Security.

**ACTION:** Notice and request for comments.

**SUMMARY:** The Federal Emergency Management Agency, as part of its

continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a proposed extension of a currently approved information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning reimbursement of claims submitted for fighting fires on Federal property.

**SUPPLEMENTARY INFORMATION:** The collection of information is necessary in order to reimburse fire services for claims submitted for fighting fires on property that is under jurisdiction of the United States. Section II of the Federal Fire Prevention and Control Act of 1974, implemented under 44 CFR part 151, provides that each fire service that engages in the fighting of a fire on property which is under the jurisdiction of the United States and who has a mutual aid agreement in effect between claimant and the <sup>1</sup> Federal Emergency Management Agency (FEMA) for the property upon which the fire occurred, may file a claim with FEMA for the amount of direct expense and direct

losses incurred by such fire services as a result of fighting fires.

**Collection of Information**

*Title:* Reimbursement for Cost of Fighting Fire on Federal Property.

*Type of Information Collection:* Extension of a currently approved collection.

*OMB Number:* 1660-0014.

*Abstract:* The Federal Emergency Management Agency (FEMA) Director; the Administrator of the United States Fire Administration (USFA); and the United States Treasury will use the information to ensure proper expenditure of Federal funds. Once a claim is received, a copy of FEMA determination and the claim is forwarded to the Treasury Department. The Treasury Department will pay for fire services or its parent jurisdiction for any moneys in the treasury subject to reimbursement, to the Federal department or agency under whose jurisdiction the fire occurred.

*Affected Public:* Business or Other For-Profit, Not For-Profit Institutions, and State, Local or Tribal Government.

*Estimated Total Annual Burden Hours:*

<sup>1</sup> The Reimbursement for Cost of Fighting Fire on Federal Property program is currently being transferred to the newly created Preparedness Directorate of the Department of Homeland

Security. During this transition FEMA, also part of the Department of Homeland Security, will continue to support this program as the new Directorate stands up. Ultimately this data

collection will be transferred to the Preparedness Directorate.

## ANNUAL BURDEN HOURS

Information collection activities	Number of respondents (A)	Frequency of responses (B)	Burden hours per respondent (C)	Annual responses (AxB)	Total annual burden hours (AxBxC)
Claims Information .....	4	On Occasion	1.5	16	24
Total .....	4	.....	1.5	16	24

**Estimated Cost:** The annualized cost burden for Fire Chiefs to complete and process a claim is estimated to be \$15,288 annually.

**Comments:** Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments must be submitted on or before February 13, 2006.

**ADDRESSES:** Interested persons should submit written comments to Chief, Records Management Section, Information Resources Management Branch, Information Technology Services Division, Federal Emergency Management Agency, 500 C Street, SW., Room 316, Washington, DC 20472.

**FOR FURTHER INFORMATION CONTACT:** Contact Tim Ganley, Fire Program Specialist, U.S. Fire Administration, (301) 447-1358 for additional information. You may contact the Records Management Branch for copies of the proposed collection of information at facsimile number (202) 646-3347 or e-mail address: [FEMA-Information-Collections@dhs.gov](mailto:FEMA-Information-Collections@dhs.gov).

Dated: January 4, 2006.

**Darcy Bingham,**

Branch Chief, Information Resources Management Branch, Information Technology Services Division.

## DEPARTMENT OF THE INTERIOR

## Bureau of Land Management

[UT-080-05-1310-DB]

**Notice of Availability of a Draft Environmental Impact Statement for the Chapita Wells-Stagecoach Area Natural Gas Development Project, Uintah County, UT**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** Under the National Environmental Policy Act (NEPA), the Federal Land Policy and Management Act of 1976 (FLPMA) and associated regulations, the Bureau of Land Management (BLM) announces the availability of a Draft Environmental Impact Statement (DEIS) that evaluates, analyzes, and discloses to the public direct, indirect, and cumulative environmental impacts of a proposal to develop natural gas in Uintah County, Utah.

**DATES:** The DEIS will be available for review for 45 calendar days following the date that the Environmental Protection Agency publishes its NOA in the **Federal Register**. The BLM can best use comments and resource information submitted within this 45-day review period.

**ADDRESSES:** Written comments may be mailed directly or delivered to the BLM at: CWSA DEIS, Bureau of Land Management, Vernal Field Office, 170 South 500 East, Vernal, UT 84078. Comments may be submitted by facsimile to the Vernal Field Office at 435-781-4410. At this time BLM is unable to accept electronic comments. A copy of the DEIS has been sent to the affected Federal, State, and local government agencies, Native American Tribes and to interested parties. Copies of the DEIS are available for public inspection at the address listed above and the Bureau of Land Management Utah State Office, 440 West 200 South, Suite 500, Salt Lake City, UT 84101.

**FOR FURTHER INFORMATION CONTACT:** Stephanie Howard, Project Manager, BLM Vernal Field Office, 170 South 500

East, Vernal, UT 84078. Ms. Howard may also be reached at 435-781-4400.

**SUPPLEMENTARY INFORMATION:** In response to a proposal submitted by EOG Resources, Inc., (EOG), the BLM published in the October 1, 2004, **Federal Register** a Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS).

The Chapita Wells-Stagecoach Area (CWSA) involves approximately 31,870 acres located in Townships 8 through 10 South, Ranges 22 and 23 East, Salt Lake Base Meridian, about 30 miles south of Vernal, Uintah County, Utah. The DEIS analyzes a proposal by EOG to fully develop Federal natural gas resources in the Chapita Wells and the Stagecoach Units, in addition to non-unitized lands in the project area. The Company's proposal includes drilling a total of up to 627 new wells and constructing associated ancillary transportation and transmission facilities within the project area. Of the planned wells, 473 wells would be new locations and 154 wells would be twinned, drilled from existing locations. Of the 31,870 acres within the project area, about 71% is Federal lands administered by the BLM; 21% is owned by the Ute Tribe and/or its allottees and administered by the BIA; 6% is owned by the State of Utah and administered by the Utah State School and Institutional Trust Lands Administration; and 2% is privately owned. The proposed life of the project is 40 years, with the majority of the drilling and development activities to occur within the first 7 years following approval of the BLM's Record of Decision.

As set out in the NOI, EOG proposes to fully develop its existing leases within the Chapita Wells-Stagecoach Area. As of March 2004, the CWSA contained 325 gas-producing wells, about 121 miles of roads and 115 miles of pipeline. An additional 100 wells, 12 miles of access road, and 18.5 miles of pipelines were approved by EA No. UT-080-1999-32, *Environmental Assessment, Chapita Wells Unit Infill Development, Uintah County, Utah*. Currently no oil wells or produced water disposal wells occur in the CWSA. The new gas wells would be
