

reports, and records are essential in determining compliance; and are required, in general, of all sources subject to New Source Performance Standards (NSPS).

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 37 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of kraft pulp mills.

Estimated Number of Respondents: 100.

Frequency of Response: Initially, Semiannually, On Occasion.

Estimated Total Annual Hour Burden: 15,235.

Estimated Total Annual Cost: \$5,194,799, includes \$344,900 capital/startup costs and \$3,620,000 annualized O&M costs, and \$1,229,899 annual labor cost.

Changes in the Estimates: There is an increase of 3,128 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an increase in the number of kraft pulp

mills that become subject to subpart BB, and an expansion of the calculations to include managerial and clerical labor rates. The increase in O&M costs is due to an increase in equipment maintenance costs.

Dated: April 6, 2006

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Notification of Regulated Waste Activity (Renewal), EPA ICR Number 0261.15, OMB Control Number 2050-0028

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on April 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before May 22, 2006.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-RCRA-2005-0013, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by mail to: RCRA Docket (5305T), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; and (2) OMB by mail to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Toshia King, Office of Solid Waste, mailcode 5303W, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 703-308-7033; fax

number: 703-308-8617; e-mail address: king.toshia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On August 15, 2005 (70 FR 47837), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-RCRA-2005-0013, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the RCRA Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for RCRA Docket is (202) 566-0270.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Notification of Regulated Waste Activity (Renewal).

ICR numbers: EPA ICR No. 0261.15, OMB Control No. 2050-0028.

ICR status: This ICR is currently scheduled to expire on April 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by

publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 3010 of Subtitle C of RCRA, as amended, requires any person who generates or transports regulated waste or who owns or operates a facility for the treatment, storage, or disposal (TSD) of regulated waste to notify EPA of their activities, including the location and general description of activities and the regulated wastes handled. The facility is then issued an EPA Identification number. The facilities are required to use the Notification Form (EPA Form 8700-12) to notify EPA of their hazardous waste activities. EPA needs this information to determine the universe of persons who generate, handle, and manage these regulated wastes; assign EPA Identification Numbers; and ensure that these regulated wastes are managed in a way that protects human health and the environment, as required by RCRA, as amended.

EPA enters notification information submitted by respondents into the EPA National data base and assigns EPA Identification Numbers. EPA uses the information primarily for tracking purposes, and secondarily for a variety of enforcement and inspection purposes. In addition, EPA uses this information to identify the universe of regulated waste generators, handlers, and managers and their specific regulated waste activities. Finally, EPA uses this information to ensure that regulated waste is managed properly, that statutory provisions are upheld, and that regulations are adhered to by facility owners or operators.

Section 3007(b) of RCRA and 40 CFR part 2, subpart B, which defines EPA's general policy on public disclosure of information, both contain provisions for confidentiality. However, the Agency does not anticipate that businesses will assert a claim of confidentiality covering all or part of the Notification of Regulated Waste Activity. If such a claim were asserted, EPA must and will treat the information in accordance with the regulations cited above. EPA also will assure that this information collection complies with the Privacy Act of 1974 and OMB Circular 108.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2 hours per response for the initial notification, and 1 hour per response for any subsequent notifications. Burden means the total

time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Business or other for-profit.

Estimated Number of Respondents: 55,915.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 100,307 hours.

Estimated Total Annual Cost: \$9,690,000, includes \$0 annualized capital costs and \$235,000 annualized O&M costs and \$9,455,000 annual labor costs.

Changes in the Estimates: There is an increase of 4,057 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to adjustments in the estimate of the number of respondents submitting subsequent notifications. Prior to this renewal, EPA did not have a consistent mechanism in place to track subsequent notifications from state to state. The information from the current database shows that the number of respondents submitting subsequent notifications was underestimated in the past.

Dated: April 10, 2006.

Oscar Morales,

Director, Collection Strategies Division.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed

to the Office of Federal Activities at 202-564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in the **Federal Register** dated April 7, 2006 (71 FR 17845).

Draft EISs

EIS No. 20050410, ERP No. D-COE-E34031-FL, Central and Southern Florida Project, Comprehensive Everglades Restoration Plan, Implementation, Everglades Agricultural Area Storage Reservoirs, Palm Beach County, FL.

Summary: EPA is fully supportive of the construction and operation of Everglades Agricultural Area Storage Reservoirs as a vital Comprehensive Everglades Restoration Plan component. However, EPA expressed environmental concerns about water quality, and requested that the Final EIS include additional water quality documentation, modeling and monitoring.

Rating EC1.

EIS No. 20050448, ERP No. D-BLM-J65455-MT, Upper Missouri River Breaks National Monument Resource Management Plan, Implementation, Blaine, Chouteau, Fergus and Phillips Counties, MT.

Summary: EPA expressed environmental concerns about potential impacts to water quality and aquatic habitat wildlife habitat and ecosystem processes, historic and cultural resources.

Rating EC2.

EIS No. 20050462, ERP No. D-IBR-K39095-CA, South Delta Improvements Program, To Improve Water Quality, Water Conveyance, and Fish Habitat Conditions, Central Valley Project, U.S. Army COE Section 404 Permit, South Sacramento-San Joaquin River Delta, Several Counties, CA.

Summary: EPA expressed environmental concerns about effects of Stage 1 on implementation of Clean Water Act Total Maximum Daily Load (TMDL) measures to improve water quality, and recommended establishment of a water quality monitoring and assessment program and that increased export pumping not be initiated until after the stage 2 operations decision.

Rating EC2.

EIS No. 20050538, ERP No. D-AFS-K65295-CA, Horse Heli Project, Harvest Merchantable Timber, Thin Stands, Treat Fuels, and Conduct Associated Activities, Klamath
