SUPPLEMENTARY INFORMATION:

I. Background

In 1990, Congress passed the Federal Civil Penalties Inflation Adjustment Act of 1990, to provide for regular adjustment for inflation of civil monetary penalties (CMPs). As amended by the Debt Collection Improvement Act of 1996, the FCPIAA required that the head of each Federal agency review, and if necessary, adjust by regulation the CMPs assessed under statutes enforced by the agency at least once every four years.

On November 2, 2015, the President of the United States signed into law the 2015 Improvements Act, which further amended the FCPIAA and requires Federal agencies to adjust their CMPs annually for inflation no later than January 15 of each year. These requirements apply to the NRC's maximum CMP amounts for (1) a violation of the Atomic Energy Act (AEA) of 1954, as amended, or any regulation or order issued under the AEA, codified in section 2.205(j) of title 10 of the *Code of Federal Regulations* (CFR), "Civil Penalties"; and (2) a false claim or statement made under the Program Fraud Civil Remedies Act, codified in 10 CFR 13.3, "Basis for Civil Penalties and Assessments."

Pursuant to the 2015 Improvements Act, the NRC codified on January 12,

2018 (83 FR 1515), the revised maximum daily base CMP based on the percentage change in the consumer price index between October 2017 and October 2016. Because this revised monetary value directly impacts the CMPs assessed to NRC licensees, the

NRC's Enforcement Policy table of civil penalties requires revision. Specifically, the monetary amounts found in Section 8.0, "Table of Base Civil Penalties" items a—e and g. This monetary adjustment does not include item "f" since its monetary value is based on the

estimated or actual cost of authorized disposal and not on the monetary value codified in 10 CFR 2.205(j).

Accordingly, the NRC has revised its Policy to read as follows:

8.0—TABLE OF BASE CIVIL PENALTIES

Table A

a. Power reactors, gaseous diffusion uranium enrichment plants, and high-level waste repository	\$290,000
b. Fuel fabricators authorized to possess Category I or II quantities of SNM and uranium conversion facilities	145,000
c. All other fuel fabricators, including facilities under construction, authorized to possess Category III quantities of SNM, industrial processors, independent spent fuel and monitored retrievable storage installations, mills, gas centrifuge and laser uranium enrichment facilities	72,500
d. Test reactors, contractors, waste disposal licensees, industrial radiographers, and other large material users	29,000
e. Research reactors, academic, medical, or other small material users	14,500
f. Loss, abandonment, or improper transfer or disposal of regulated material, regardless of the use or type of licensee:	
1. Sources or devices with a total activity greater than 3.7×10^4 MBq (1 Curie), excluding hydrogen-3 (tritium)	54,000
2. Other sources or devices containing the materials and quantities listed in 10 CFR 31.5(c)(13)(i)	17,000
3. Sources and devices not otherwise described above	7,000
