Title: 7 CFR part 220, School Breakfast Program.

OMB Number: 0584-0012.

Expiration Date: 10/31/2018.

Type of Request: Revision of a currently approved collection.

Abstract: Section 4 of the Child Nutrition Act of 1966 (CNA) (42 U.S.C. 1773) authorizes the School Breakfast Program (SBP) as a nutrition assistance program in schools, and requires that "Breakfast served by schools participating in the School Breakfast Program under this section shall consist of a combination of foods and shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research." This information collection is required to administer and operate this program in accordance with the NSLA (National School Lunch Act). The School Breakfast Program is administered at the

State and school food authority (SFA) levels and operations include the submission of applications and agreements, submissions and payment of claims, and maintenance of records. The reporting and recordkeeping burden associated with this revision is summarized in the charts below. The difference in burden is due to adjustments, such as a decrease in the number of SFAs and an increase in the number of schools participating in the program. All the reporting and recordkeeping requirements associated with the SBP are currently approved by the Office of Management and Budget and are in force. This is a revision of the currently approved information collection.

U.S. firms are also required to report annually to Commerce information on offsets transactions completed in performance of existing offsets commitments for which offsets credit of \$250,000 or more has been claimed from the foreign representative. This year, such reports must include relevant information from calendar year 2017 and must be submitted to Commerce no later than June 15, 2018.

ADDRESSES: Submit reports in both hard copy and electronically. SUPPLEMENTARY INFORMATION:

Background

Section 723(a)(1) of the Defense Production Act of 1950, as amended (DPA) (50 U.S.C. 4568 (2015)) requires the President to submit an annual report to Congress on the impact of offsets on the U.S. defense industrial base. Section 723(a)(2) directs the Secretary of Commerce (Secretary) to prepare the President's report and to develop and administer the regulations necessary to collect offsets data from U.S. defense exporters.

The authorities of the Secretary regarding offsets have been delegated to the Under Secretary of Commerce for Industry and Security. The regulations associated with offsets reporting are set forth in part 701 of title 15 of the Code of Federal Regulations (Offsets Regulations). Offsets are compensation practices required as a condition of purchase in either government-to-government or commercial sales of defense articles and/or defense services, as defined by the Arms Export Control Act (22 U.S.C. 2778) and the International Traffic in Arms Regulations (22 CFR 120-130). Offsets are also applicable to certain items controlled on the Commerce Control list (CCL) and with an Export Control Classification Number (ECCN) including the numeral "6" as its third character. The CCL is found in Supplement No. 1 to part 774 of the Export Administration Regulations.

An example of an offset is as follows: A company that is selling a fleet of military aircraft to a foreign government may agree to offset the cost of the aircraft by providing training assistance

to plant managers in the purchasing country. Although this distorts the true price of the aircraft, the foreign government may require this sort of extra compensation as a condition of awarding the contract to purchase the aircraft. As described in the Offsets Regulations, U.S. firms are required to report information on contracts for the sale of defense articles or defense services to foreign countries or foreign firms that are subject to offsets agreements exceeding \$5,000,000 in value. U.S. firms are also required to report annually information on offsets transactions completed in performance of existing offsets commitments for which offsets credit of \$250,000 or more has been claimed from the foreign representative.

Commerce's annual report to Congress includes an aggregated summary of the data reported by industry in accordance with the offsets regulation and the DPA (50 U.S.C. 4568 (2015)). As provided by section 723(c) of the DPA, BIS will not publicly disclose individual firm information it receives through offsets reporting unless the firm furnishing the information specifically authorizes public disclosure. The information collected is sorted and organized into an aggregate report of national offsets data, and therefore does not identify company-specific information.

To enable BIS to prepare the next annual offset report reflecting calendar year 2017 data, affected U.S. firms must submit required information on offsets agreements and offsets transactions from calendar year 2017 to BIS no later than June 15, 2018.

Dated: May 18, 2018.

Richard E. Ashooh,

Assistant Secretary for Export Administration.
