Abstract: The New Source Performance Standards (NSPS) for Glass Manufacturing Plants (40 CFR part 60, subpart CC) were proposed on June 15, 1979, promulgated on October 7, 1980, and amended on both October 19, 1984 and October 17, 2000. These regulations apply to both existing and new glass melting furnaces located at glass manufacturing plants. New facilities include those that commenced construction, modification, or reconstruction after the date of proposal. Owners and operators of affected facilities are required to comply with reporting and recordkeeping requirements for the General Provisions (40 CFR part 60, subpart A), as well as the specific requirements at 40 CFR part 60, subpart CC. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with these standards.

Form Numbers: None.

Respondents/Affected Entities: Glass manufacturing facilities.

Respondent's Obligation to Respond: Mandatory (40 CFR part 60, subpart CC).

Estimated Number of Respondents: 41 (total).

Frequency of Response: Initially, semiannually and annually.

Total Estimated Burden: 850 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total Estimated Cost: \$327,000 (per year), which includes \$238,000 in either annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no significant change in the labor hours or cost in this ICR compared to the

previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, so there is no significant change in the overall burden. However, the calculation of labor costs has been updated to use more recent labor rates.

Director, Regulatory Support Division.
