SUPPLEMENTARY INFORMATION:

Title: Farm Loan Programs, Direct Loan Servicing—Special.

OMB Control Number: 0560–0233.

OMB Expiration Date: 08/31/2018.

Type of Request: Extension with a revision.

Abstract: The Farm Loan Programs provide loans to family farmers to purchase real estate and equipment and finance agricultural production. 7 CFR 766, Direct Loan Servicing-Special, provides the requirements for servicing financially distressed and delinquent direct loan borrowers. The loan servicing options include disaster set-aside, primary loan servicing (including reamortization, rescheduling, deferral, write down and conservation contracts), buyout at market value, and homestead protection. FSA also services borrowers who file bankruptcy or liquidate security when available servicing options are not sufficient to produce a feasible plan. The information collections contained in the regulation are necessary to evaluate a borrower's request for consideration of the special servicing actions.

The numbers of respondents and responses increased because the loan servicing activities increased by 15 percent to reflect the current numbers since the last OMB approval. The annual burden hours decreased due to removal of travel times from the request. The respondents are going to the County office to do regular and customary (or normal) business for the Farm Loan Programs.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per response multiplied by the estimated total annual responses.

Estimate of Respondent Burden: Public reporting burden for this information collection is estimated to average 0.374 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collections of information.

Type of Respondents: Individuals or households, businesses or other for profit farms.

Estimated Annual Number of Respondents: 17,174.

Estimated Number of Responses per Respondent: 1.869.

Estimated Total Annual Responses: 32,114.

Estimated Average Time per Response: 0.374.

Estimated Total Annual Burden on Respondents: 12,036.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of the FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility and clarity of the information to be collected;

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Richard Fordyce,

Administrator, Farm Service Agency.
