Abstract: The Office of Management and Budget regulation at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104–13), require that interested members of the public and affected

agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. The Office of Strategic Employee and Organization Development, Federal Consulting Group has submitted a request to the Office of Management and Budget to renew its approval of this collection of information for three years.

The proposed renewal of this information collection activity provides a means to consistently assess, benchmark, and improve customer satisfaction with Federal government agency programs and/or services within the Executive Branch. The Federal Consulting Group of the Department of the Interior serves as the executive agent for this methodology and has partnered with the Claes Fornell International Group (CFI Group) and the American Customer Satisfaction Index (ACSI) to offer the ACSI to Federal government agencies.

The CFI Group, a leader in customer satisfaction and customer experience management, offers a comprehensive model that quantifies the effects of quality improvements on citizen satisfaction. The CFI Group has developed the methodology and licenses it to the American Customer Satisfaction Index, an independent organization which produces the American Customer Satisfaction Index (ACSI). This national indicator is developed for different economic sectors each quarter, which are then published in *The Wall Street Journal*. The ACSI was introduced in 1994 by Professor Claes Fornell under the auspices of the University of Michigan, the American Society for Quality (ASQ), and the CFI Group. The ACSI monitors and benchmarks customer satisfaction across more than 200 companies and many U.S. Federal agencies.

The ACSI is the only cross-agency methodology for obtaining comparable measures of customer satisfaction with Federal government programs and/or services. Along with other economic objectives—such as employment and growth—the quality of outputs (goods and services) is a part of measuring living standards. The ACSI's ultimate purpose is to help improve the quality of goods and services available to American citizens.

ACSI surveys conducted by the Federal Consulting Group are subject to the Privacy Act of 1974, Public Law 93–579, December 31, 1974 (5 U.S.C. 552a). The agency information collection is an integral part of conducting an ACSI survey. The contractor will not be authorized to release any agency information upon completion of the
