

y. Poly(methylene-*p*-nonylphenoxy)poly(oxyethylene) ethanol; the poly(oxyethylene) content averages 4–12 moles.

z. Poly(methylene-*p*-nonylphenoxy)poly(oxypropylene) propanol; the poly(oxypropylene) content averages 4–12 moles.

aa. Secondary alkyl (C₁₁–C₁₅) poly(oxyethylene) acetate, sodium salt; the ethylene oxide content averages 5 moles.

bb. Sodium butylnaphthalenesulfonate.

cc. Sodium diisobutylnaphthalenesulfonate.

dd. Sodium isopropylisohexylnaphthalenesulfonate.

ee. Sodium isopropylnaphthalenesulfonate.

ff. Sodium monoalkyl and diakyl (C₈–C₁₃) phenoxybenzenedisulfonate mixtures containing not less than 70% of the monoalkylated product.

gg. Sodium mono- and dimethylnaphthalenesulfonate, molecular weight (in amu) 245–260.

hh. Sodium mono-, di-, and tributyl-naphthalenesulfonates.

ii. Sodium *N*-oleoyl-*N*-methyl taurine.

jj. α -[*p*-(1,1,3,3-Tetramethylbutyl)phenyl]- ω -hydroxypoly(oxyethylene) produced by the condensation of 1 mole of *p*-(1,1,3,3-tetramethylbutyl)phenol with a range of 1–14 or 30–70 moles of ethylene oxide; if a blend of products is used, the average range number of moles of ethylene oxide reacted to produce any product that is a component of the blend shall be in the range of 1–14 or 30–70.

kk. α -[*p*-(1,1,3,3-Tetramethylbutyl)phenyl]- ω -hydroxypoly(oxyethylene) produced by the condensation of 1 mole of *p*-(1,1,3,3-tetramethylbutyl)phenol with an average of 4–14 or 30–70 moles of ethylene oxide; if a blend of products is used, the average number of moles of ethylene oxide reacted to produce any product that is a component of the blend shall be in the range of 4–14 or 30–70.

ll. Tridecylpoly(oxyethylene) acetate sodium salt; where the ethylene oxide content averages 6–7 moles.

§ 180.940 [Amended]

5. Section 180.940 is amended as follows:

a. The table in paragraph (a) is amended by removing the following entries:

i. α -Alkyl(C₁₀–C₁₄)- ω -hydroxypoly(oxyethylene) poly(oxypropylene) average molecular weight (in amu), 768 to 837.

ii. α -Alkyl(C₁₂–C₁₈)- ω -hydroxypoly(oxyethylene) poly(oxypropylene)

average molecular weight (in amu), 950 to 1120.

b. The table in paragraph (b) is amended by removing the following entries:

i. α -Lauroyl- ω -hydroxypoly(oxyethylene) with an average of 8–9 moles ethylene oxide, average molecular weight (in amu), 400.

ii. Oxirane, methyl-, polymer with oxirane, ether with (1,2-ethanediyl-dinitrilo)tetrakis [propanol] (4:1).

c. The table in paragraph (c) is amended by removing the following entries:

i. α -Alkyl(C₁₀–C₁₄)- ω -hydroxypoly(oxyethylene) poly(oxypropylene) average molecular weight (in amu), 768 to 837.

ii. α -Alkyl(C₁₁–C₁₅)- ω -hydroxypoly(oxyethylene) with ethylene oxide content 9 to 13 moles.

iii. α -Alkyl(C₁₂–C₁₅)- ω -hydroxypoly(oxyethylene) poly(oxypropylene), average molecular weight (in amu), 965.

iv. α -Alkyl(C₁₂–C₁₈)- ω -hydroxypoly(oxyethylene) poly(oxypropylene) average molecular weight (in amu), 950 to 1120.

v. α -Lauroyl- ω -hydroxypoly(oxyethylene) with an average of 8–9 moles ethylene oxide, average molecular weight (in amu), 400.

vi. Naphthalene sulfonic acid, sodium salt.

vii. Naphthalene sulfonic acid sodium salt, and its methyl, dimethyl and trimethyl derivatives.

viii. Naphthalene sulfonic acid sodium salt, and its methyl, dimethyl and trimethyl derivatives alkylated at 3% by weight with C₆–C₉ linear olefins.

ix. Oxirane, methyl-, polymer with oxirane, ether with (1,2-ethanediyl-dinitrilo)tetrakis [propanol] (4:1).

6. In § 180.960, the table is amended by alphabetically adding the following entries:

§ 180.960 Polymers; exemptions from the requirement of a tolerance.

Polymer	CAS No.
α -(<i>o,p</i> -Dinonylphenyl)- ω -hydroxypoly(oxyethylene) produced by condensation of 1 mole of dinonylphenol (nonyl group is a propylene trimer isomer) with an average of 140–160 moles of ethylene oxide	9014–93–1

Polymer	CAS No.
α -(<i>p</i> -Dodecylphenyl)- ω -hydroxypoly(oxyethylene) produced by the condensation of 1 mole of dodecylphenol (dodecyl group is a propylene tetramer isomer) with an average of 30–70 moles of ethylene oxide	9014–92–0 26401–47–8
α -(<i>p</i> -Nonylphenyl)- ω -hydroxypoly(oxyethylene) mixture of dihydrogen phosphate and monohydrogen phosphate esters and the corresponding ammonium, calcium, magnesium, monoethanolamine, potassium, sodium, and zinc salts of the phosphate esters; the nonyl group is a propylene trimer isomer and the poly(oxyethylene) content averages 30 moles	None
α -(<i>p</i> -Nonylphenyl)- ω -hydroxypoly(oxyethylene) sulfate, and its ammonium, calcium, magnesium, monoethanolamine, potassium, sodium, and zinc salts; the nonyl group is a propylene trimer isomer and the poly(oxyethylene) content averages 30–90 moles of ethylene oxide	None
α -[<i>p</i> -(1,1,3,3-Tetramethylbutyl)phenyl]- ω -hydroxypoly(oxyethylene) produced by the condensation of 1 mole of <i>p</i> -(1,1,3,3-tetramethylbutyl)phenol with a range of 30–70 moles of ethylene oxide	9036–19–5 9002–93–1

Pesticide Inert Ingredient Tolerance Exemptions with Insufficient Data for Reassessment; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Public meetings.

SUMMARY: EPA will hold two identical public meetings on Tuesday, May 23, 2006, on the Agency's proposed action on pesticide inert ingredient tolerance exemptions that lack sufficient toxicity

data to make the determination of safety for human health required by the Federal Food, Drug, and Cosmetic Act (FFDCA). During the public meetings, EPA will review its reassessment progress for inert ingredients, describe the Agency's data finding efforts, discuss data needs and the screening level studies that may suffice, and other topics that may prove useful to those who are considering developing data in support of these inert ingredients.

DATES: Two identical meetings will be held on Tuesday, May 23, 2006, with the first meeting from 9–11 a.m. and the second from 1–3 p.m. In order to ensure adequate space for attendees, the Agency requests an RSVP from those who are interested in attending the public meetings. Please RSVP to the contact person identified under **FOR FURTHER INFORMATION CONTACT** and indicate whether you prefer the morning or afternoon meeting and the number of attendees in your group.

ADDRESSES: The location of both meetings is the Office of Pesticide Program's new office building located at One Potomac Yard, 2777 S. Crystal Drive, Arlington, VA, 22202.

FOR FURTHER INFORMATION CONTACT: Karen Angulo, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460–0001; telephone number: (703) 306–0404; e-mail address: angulo.karen@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal roduction (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. To determine whether you or your business may be affected by

this action, you should carefully examine the applicability provisions in Unit II. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established a docket for this action under docket identification (ID) number EPA–HQ–OPP–2006–0400. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S–4400, One Potomac Yard (South Building), 2777 S. Crystal Drive Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket telephone number is (703) 305–5805.

2. *Electronic access* You may access this **Federal Register** document electronically through the EPA Internet under the “**Federal Register**” listings at <http://www.epa.gov/fedrgstr>.

II. Background

EPA is holding two identical public meetings about the proposed action on inert ingredient tolerance exemptions with insufficient data for reassessment under FFDCA. The Agency is unable to make a FFDCA safety finding because basic toxicology studies are not currently available. EPA is proposing to revoke the tolerance exemptions and make them expire 2 years from the publication of the final rule to allow for data development. During both identical public meetings, EPA will review its reassessment progress for inert ingredients, describe the Agency's data finding efforts, discuss data needs and the screening level studies that may suffice, and other topics that may prove useful to those who are considering developing data in support of these inert ingredients. The formal announcement of this proposed rule appears elsewhere in this issue of the **Federal Register**.

Both identical public meetings will be held on Tuesday, May 23, 2006, at the Office of Pesticide Program's new office building. The first meeting will be held from 9–11 a.m. and the second meeting will be from 1–3 p.m. In order to ensure adequate space for attendees, the Agency requests an RSVP from those who are interested in attending the public meetings. Please RSVP to the contact person identified under **FOR**

FURTHER INFORMATION CONTACT and indicate whether you prefer the morning or afternoon meeting and the number of attendees in your group.

List of Subjects in 40 CFR Part 180

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: April 27, 2006.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[EPA–HQ–OPP–2006–0307; FRL–8068–3]

Inert Ingredients; Proposal to Revoke 2 Pesticide Tolerance Exemptions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to revoke 2 inert ingredient exemptions from the requirement of a tolerance because these substances are no longer contained in active Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) pesticide product registrations. These ingredients are subject to reassessment by August 2006 under section 408(q) of the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA). Upon the issuance of the final rule revoking the tolerance exemptions, the 2 tolerance exemptions will be counted as “reassessed” for purposes of FFDCA's section 408(q).

DATES: Comments must be received on or before July 3, 2006.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPP–2006–0307, by one of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *Mail:* Office of Pesticide Programs (OPP) Regulatory Public Docket (7502C), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460–0001.

- *Hand Delivery:* OPP Regulatory Public Docket, Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. Deliveries are only accepted during the
