#### SUPPLEMENTARY INFORMATION:

Partnerships between the U.S. Government and the private sector at times necessitate the sharing of classified information. The Private Sector Clearance Program (PSCP) facilitates this sharing by sponsoring security clearances for "appropriate representatives of sector coordinating councils, sector information sharing and analysis organizations [(ISAOs),] owners and operators of critical infrastructure, and any other person that the Secretary determines appropriate." 6 U.S.C. 150. In order to begin this process of approving an applicant to participate in the clearance program, the applicant's employment information and Personally Identifiable Information (PII) is collected. Their association/SCC membership or employment information is reviewed for approval, and their PII is input into e-QIP, the Office of Personnel Management's (OPM) secure portal for investigation processing.

The U.S. Government is authorized to ask for this information under Sections 201 and 229 of the Homeland Security Act of 2002 (Pub. L. 107-296, 6 U.S.C. 121, 150), and Executive Orders 12968, 13526, 13549, 13636, and 13691 which authorize the collection of this information.

The PSCP is designed to process security clearances for private sector

personnel who have been sponsored for access to classified information by a Federal Agency. In 2010, through Executive Order 13549, the President established the Classified National Security Information Program (otherwise known as the Private Sector Clearance Program) to "safeguard and govern access to classified national security information shared by the Federal Government with State, local, tribal, and private sector (SLTPS) entities. 75 FR 51609, 1.1 (2010). In 2013, in a subsequent Executive Order 13636, the President directed the Secretary of Homeland Security, as Executive Agent for PSCP, to "expedite the processing of security clearances to appropriate personnel employed by critical infrastructure owners and operators, prioritizing the critical infrastructure identified in section 9 of this order." 78 FR 11739, 11740 4(d) (2013). Section 9 of Executive Order 13636 refers to "critical infrastructure where a cybersecurity incident could reasonably result in catastrophic regional or national effects on public health or safety, economic security, or national security." Id. at Section 9. In 2014 and 2015, Congress codified PSCP in section 229 of the Homeland Security Act of 2002, authorizing the Secretary of Homeland Security to "make available the process of application for security clearances under Executive Order 13549 . . . or any successor Executive Order to appropriate representatives of sector coordinating councils, sector information sharing and analysis organizations . . . , owners and operators of critical infrastructure, and any other persons that the Secretary determines appropriate." 6 U.S.C. 150. Also in 2015, through Executive Order 13691, the President designated the National Cybersecurity and Communications Integration Center (NCCIC) as a critical infrastructure protection program and required the Department to manage the sharing of classified cybersecurity information under this designation. E.O. 13691, 80 FR 9349 4(a) (2015); see 6 U.S.C. 132. These partners are subject matter experts within specific industries and have specialized knowledge not available within DHS. Private citizens do not receive monetary compensation for their time. DHS has created this program to facilitate clearances for these individuals who are not employed by an agency of the Federal government or otherwise have a contract, license or grant with an agency of the Federal government pursuant to E.O. 12829 (the traditional means of obtaining a clearance) and must have clearances.
