BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XG242

Fisheries of the Northeastern United States; Bluefish Fishery; Scoping Process

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent to prepare an environmental impact statement; notice of initiation of scoping process; notice of public scoping meetings; requests for comments.

SUMMARY: The Mid-Atlantic Fishery Management Council announces its intent to prepare, in cooperation with NMFS and the Atlantic States Marine Fisheries Commission, an amendment to the Fishery Management Plan for Bluefish. An environmental impact statement may be necessary for the amendment in accordance with the National Environmental Policy Act to analyze the impacts of any proposed management measures. The Council has initiated this amendment in order to perform a review of the sector-based allocations, commercial allocations to the states, goals and objectives of the fishery management plan, and quota transfer processes.

This notice announces a public process for determining the scope of issues to be addressed, and for identifying the significant issues related to the bluefish fishery in the Greater Atlantic region. This notice is to alert the interested public of the scoping process, the potential development of a draft environmental impact statement, and to provide for public participation in that process.

DATES: Written comments must be received on or before 11:59 p.m., EST, on July 6, 2018. Twelve public scoping meetings will be held during this comment period. See **SUPPLEMENTARY INFORMATION** for dates, times, and locations.

ADDRESSES: Written comments may be sent by any of the following methods:

- *Email to the following address:* nmfs.garBluefishAmend@noaa.gov. Include "Bluefish Allocation Amendment Scoping Comments" in the subject line;
- Mail or hand deliver to Dr. Christopher M. Moore, Executive Director, Mid-Atlantic Fishery Management Council, 800 North State Street, Suite 201, Dover, Delaware 19901. Mark the outside of the envelope "Bluefish Allocation Amendment Scoping Comments"; or
- Fax to (302) 674-5399

The scoping document may be obtained from the Council office at the previously provided address, or by request to the Council by telephone (302) 674-2331, or via the internet at <http://www.mafmc.org>.

Comments may also be provided verbally at any of the 12 public scoping meetings. See **SUPPLEMENTARY INFORMATION** for dates, times, and locations.

FOR FURTHER INFORMATION CONTACT: Dr. Christopher M. Moore, Mid-Atlantic Fishery Management Council, 800 North State Street, Suite 201, Dover, DE 19901, (telephone 302-674-2331).

SUPPLEMENTARY INFORMATION:

Background

More details on the topics addressed in this supplementary information section may be found in the Bluefish Allocation Amendment Scoping Document (see **ADDRESSES** for how to obtain scoping document) and on the bluefish allocation amendment page of the Council's website at <http://www.mafmc.org/actions/bluefish-allocation-amendment>.

The Council, in cooperation with the Atlantic States Marine Fisheries Commission (ASMFC), has initiated this action in order to: (1) Update the Atlantic Bluefish Fishery Management Plan (FMP) goals and objectives for bluefish management; and (2) perform a comprehensive review of the bluefish sector allocations, commercial allocations to the states, and transfer processes within the FMP. This action was proposed so that the FMP goals and objectives, allocations, and transfer processes can be assessed in light of potential changing fishery conditions and aligned better with stakeholder priorities. Some management questions for consideration in this amendment include: (1) Are the existing goals and objectives appropriate for managing the bluefish fishery; (2) is the existing allocation between the commercial and recreational sectors based on the annual catch limit appropriate for managing the bluefish fishery; (3) are the existing commercial state allocations appropriate for managing the bluefish fishery; and (4) are the existing transfer processes appropriate for managing the bluefish fishery?

The scoping period is an important opportunity for members of the public to raise concerns related to the scope of issues that will be considered in the amendment. The Council needs your input to identify management issues, develop effective alternatives, and identify possible impacts to be considered. Public comments early in the amendment development process will help the Council address issues of public concern in a thorough and appropriate manner. Comments can be made in writing or during the scoping hearings as described above (see **ADDRESSES**).

Following the scoping process, the Council will develop a range of management alternatives to be considered and potentially prepare an environmental impact statement (EIS) to

analyze the impacts of the management alternatives being considered as required by the National Environmental Policy Act (NEPA). A draft EIS will be distributed for public review. During a 30-day public comment period which will include public hearings, the public may comment on any aspect of the draft

EIS. Following a review of the comments, the Council will then choose preferred management measures for submission with the Final EIS to the Secretary of Commerce for publishing of a proposed and then final rule, both of which have additional comment periods.

Magnuson-Stevens Fishery Conservation and Management Act; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: NMFS has determined that 14 exempted fishing permit (EFP) applications warrant further consideration and is requesting public comment on the applications. Thirteen

EFP applicants request an exemption from a prohibition on the use of unauthorized fishing gear to harvest highly migratory species (HMS), and one EFP applicant requests an exemption from a prohibition on the use of pelagic longline gear in the Exclusive Economic Zone (EEZ) to harvest HMS under the Fishery Management Plan for U.S. West Coast Fisheries for Highly Migratory Species (HMS FMP). These applicants request the exemption to test the effects and efficacy of using deep-set buoy gear (DSBG), deep-set linked buoy gear (DSLBG), or deep-set short longline (DSSL) to harvest swordfish and other HMS off of the U.S. West Coast.

DATES: Comments must be submitted in writing by July 6, 2018.

ADDRESSES: You may submit comments on the pending EFP applications, identified at the e-Rulemaking portal by NOAA-NMFS-2018-0063, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2018-0063, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.
- **Mail:** Attn: Chris Fanning, NMFS West Coast Region, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802. Include the identifier "NOAA-NMFS-2018-0063" in the comments.

Instructions: Comments sent by any other method, to any other address or

individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

The EFP applications and other relevant information referenced in the Supplementary Information section below can accessed at: http://www.westcoast.fisheries.noaa.gov/fisheries/migratory_species/status_exempted_permits.html.

SUPPLEMENTARY INFORMATION: DSBG fishing trials have occurred for the past eight years under research permits (2011-2015) and EFPs (2015-2018) in the U.S. West Coast EEZ off California. The data collected from this fishing activity have demonstrated that about 95% of DSBG fish species caught are marketable (75% swordfish, 3% opah, and 17% marketable sharks). Non-marketable fish species catch rates have remained low and all non-marketable catch were released alive. Because DSBG is actively tended by the
