I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. Although this action may be of particular interest to persons who produce or use pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established a docket for this action under Docket identification number (ID) [EPA-HQ-OPP-2005-0253; FRL-8068-4]. Publicly available docket materials are available either electronically at <http://www.regulations.gov>.

II. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from registrant ABERCO, Inc. to voluntarily terminate edible gum (including but not limited to guar) and nonfood gum uses of 47870-1, 47870-2, and 47870-3 PPO product registrations. PPO is an insecticidal fumigant used on several food items such as processed spices, cocoa (beans and powder), and in-shell and processed nutmeats (except peanuts). PPO also has nonfood uses for bird seeds, cosmetic articles, gums, ores, packaging, pigments, pharmaceutical materials, and discarded nut shells prior to disposal. In a letter dated April 20, 2006, ABERCO, Inc. requested EPA to terminate PPO's use on all gums for pesticide product registrations identified in this notice (Table 1). Specifically, ABERCO, Inc. requests that all references to any gum use be deleted from the following, “For non food use as an insecticidal fumigant for the

control of stored product insects in bird seed, cosmetic articles and ingredients, gums, ores, packaging, pigments, pharmaceutical materials, and discarded nut shells prior to disposal.” In addition, ABERCO, Inc. requests that the following use be terminated and that any reference to it be deleted, “For non food use as an insecticidal fumigant for the control of stored product insects in gums.”

ABERCO, Inc. requests provisions for sale, distribution, and use of existing stocks, as EPA defined that term at 56 Fed. Reg. 29362, as follows: (1) Registrants may sell and distribute existing stocks for one year from the date of this letter making the use termination request, and (2) The product may be sold, distributed, and used by people other than the registrant until their stocks have been exhausted, provided that such sale, distribution, and use complies with the EPA-approved label and labeling of the product. There will be no more PPO pesticide products registered in the United States for gum use.

TABLE 1.—REGISTRATIONS WITH REQUESTS FOR AMENDMENTS TO DELETE USES IN CERTAIN PESTICIDE REGISTRATIONS

EPA Registration No.	Product name	Active ingredient	Delete from label
47870-1	Propylene Oxide	Propylene Oxide	edible gums (including but not limited to guar) and nonfood gums
47870-2	Propylene Oxide Technical	Propylene Oxide	edible gums (including but not limited to guar) and nonfood gums
47870-3	Propoxide 892	Propylene Oxide	edible gums (including but not limited to guar) and nonfood gums

Users of these products who desire continued use on crops or sites being deleted should contact ABERCO, Inc. (9430 Lanham Severn Road, Seabrook, MD 20706-2651) before June 23, 2006 to discuss withdrawal of the application for amendment. This 30 day period will also permit interested members of the public to intercede with registrants prior to the Agency's approval of the deletion.

III. What is the Agency's Authority for Taking this Action?

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of

any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The PPO registrant has requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30-days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued amending the affected registrations.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for use deletion must submit the withdrawal in writing to Susan Bartow using the methods in **ADDRESSES**. The Agency will consider written

withdrawal requests postmarked no later than June 23, 2006.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

In any order issued in response to this request for amendment(s) to terminate gum uses, the Agency proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1: (1) The registrant may sell and distribute existing stocks for one year from the date of this letter making the use termination request, and (2) The product may be sold, distributed, and used by people other than the registrant until their stocks have been exhausted, provided that such sale, distribution, and use complies with the EPA-approved label and labeling of the product.

If the request for voluntary cancellation and use termination is granted as discussed above, the Agency intends to issue a cancellation order that will allow persons other than the registrant to continue to sell and/or use existing stocks of cancelled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled product. The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. If, as the Agency currently intends, the final cancellation order contains the existing stocks provision just described, the order will be sent only to the affected registrants of the cancelled products. If the Agency determines that the final cancellation order should contain existing stocks provisions different than the ones just described, the Agency will publish the cancellation order in the **Federal Register**.
