Proposed Project

Aggregate Reports for Tuberculosis Program Evaluation (OMB No. 0920-0457)—Extension—National Center for HIV, STD, and TB Prevention (NCHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The National Center for HIV, STD, and TB Prevention, Division of Tuberculosis Elimination (DTBE) is requesting a 3-year extension of OMB No. 0920-0457, to continue the Aggregate Reports for Tuberculosis Program Evaluation. There are no revisions to the report forms, data definitions, or reporting instructions.

In order to facilitate the elimination of tuberculosis in the United States, key program activities must continue to be monitored. These key activities include finding tuberculosis infections in recent cases and in other persons likely to be infected and providing therapy for latent tuberculosis infection.

In 2000, CDC implemented two program evaluation reports for annual submission: Aggregate Report of Follow-up for Contacts of Tuberculosis and Aggregate Report of Screening and Preventive Therapy for Tuberculosis Infection. The respondents for the reports are the 68 state and local tuberculosis control programs receiving federal cooperative agreement funding through DTBE. The reports emphasize treatment outcomes, high-priority target populations vulnerable to tuberculosis, programmed electronic report entry and submission through the Tuberculosis Information Management System (TIMS).

CDC is the only federal agency collecting this type of national tuberculosis data. These reports are the only data sources about latent tuberculosis infection for monitoring national progress toward tuberculosis elimination. CDC provides ongoing assistance in the preparation and utilization of these reports at the local and state levels of public health. CDC also provides respondents with technical support for the TIMS software.

There is no cost to the respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
State and Local TB Control Programs	68	1	1½	102
State and Local TB Control Programs	68	1	1½	102
Total				204
