SUPPLEMENTARY INFORMATION:

Background

The regulations in "Subpart—Fruits and Vegetables" (7 CFR 319.56 through 319.56-8, referred to below as the regulations) prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of plant pests that are new to or not widely distributed within the United States.

The Animal and Plant Health Inspection Service (APHIS) is considering amending the regulations to allow the importation of fresh Hass avocados from Peru into the continental United States. We have prepared a draft pest risk assessment entitled, "Importation of 'Hass' Avocado (*Persea americana*) Fruit from Peru into the Continental United States" (May 2006), in order to consider the pest risks associated with the importation of fresh Hass avocados from Peru into the continental United States. We are making the draft pest risk assessment available to the public for review and comment.

The draft pest risk assessment may be viewed on the Regulations.gov Web site or in our reading room (see **ADDRESSES** above for instructions for accessing

Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the draft pest risk assessment by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the title of the draft pest risk assessment when requesting copies.

This notice solicits public comments on the draft pest risk assessment. We will also make the draft pest risk assessment available for public comment during the comment period for any proposed rule related to the importation of Hass avocados from Peru.

SUPPLEMENTARY INFORMATION:

Title: Federal Claims Collection Methods for Food Stamp Program Recipient Claims.

OMB Number: 0584-0446.

Form Number: None.

Expiration Date: September 30, 2006.

Type of Request: Revision of a currently approved collection.

Abstract: Section 13(b) of the Food Stamp Act of 1977, as amended (7 U.S.C. 2022(b)), and Food Stamp Program (FSP) regulations at 7 CFR 273.18 require State agencies to refer debtors for food stamp benefit over-issuance to the U.S. Department of the Treasury for collection. The Debt Collection Improvement Act of 1996, 31 U.S.C. 3701, *et seq.*, requires these debts to be referred to Treasury for collection when they are 180 days or more delinquent. Through the Treasury Offset Program (TOP), 31 CFR Part 285, payments such as Federal income tax refunds, Federal salaries and other Federal payments payable to these delinquent debtors will be offset and the amount applied to the delinquent debt. TOP places a burden on States agencies and/or former food stamp recipients who owe delinquent debts in three areas: 60-day notices from State agencies to debtors that their debt will be referred to TOP; State-level submissions; and automated data processing (ADP).

TOP 60-Day Notice Proposed Burden

The proposed burden associated with the 60-day notice involves both the debtors and the State agencies. The 60-day notice notifies the debtor of the

proposed referral to TOP and provides the right for review and appeal. The State agency prepares and mails the notices as well as responds to inquiries and appeals. The debtor, in turn, receives and reads the notice and may make an inquiry or appeal the impending action. Based on an average of the number of records for claims the States proposed to send to TOP for calendar years 2003, 2004 and 2005, we estimate that State agencies will send out and that debtors will read 291,336 notices. In addition, we estimate that the debtors will submit and State agencies will respond to about 2,900 inquiries and appeals. The total number of responses being proposed for the 60-day notice portion of the proposed burden is 588,472 respondents (291,336 notices + 2,900 follow-up inquiries and appeals times 2) per year resulting in an annual reporting and recordkeeping burden of 41,745 hours. The existing burden for activity relating to the 60-day notice is 39,549 hours based on 558,132 respondents. The net increase of 2,196 hours is due to the fact that State agencies have increased the number of debts they are adding to TOP and this is increasing the number of 60 day notices sent to debtors.

TOP State-Level Submissions

Treasury prescribes specific processes and file formats for FNS to use to send debts to TOP. FNS provides guidance and file formats to State agencies and monitors their compliance with such. State agencies must submit specified documents and/or information to FNS and FNS sends required information to Treasury. The first such document is an annual letter to FNS certifying that all of the debts submitted by the State agency to TOP are valid and legally enforceable in the amount stated. The second document certifies that Internal Revenue Service (IRS) information is safeguarded in accordance with IRS instructions. Lastly, State agencies report TOP collections on the FNS-209 Status of Claims against Households report. (The burden for the remainder of the FNS-209 report is already covered under OMB burden number 0584-0069).

FNS estimates that it will take State agencies a total of 135 hours per year for these State submissions. There is no change in the number of hours required for these reports from the previous submission.

TOP ADP Proposed Burden

The proposed burden for ADP includes weekly file processing, monthly address requests and system maintenance. Weekly and monthly file processing includes requesting

addresses to use to send out 60-day notices, adding and maintaining debts in TOP, correcting errors on unprocessable records, and posting weekly collection files. Much of this activity is completed using automation and involves an estimated 1.9 million records annually. FNS estimates that this activity takes 17,017 annual reporting and recordkeeping burden hours. This is an increase of 578 hours over the previous submission because of the increased number of records.

Summary of Estimated Burden

The net aggregate change from the existing to the proposed annual burden for this entire Proposed Collection is an increase of 2,773 hours over the previous submission. For the activity relating to the 60-day notice, we are increasing the estimated annual burden for State agencies and debtors from 39,549 hours to 41,745 hours to reflect an increase in the number of notices sent to debtors. The State-level submissions portion of the reporting and recordkeeping burden is estimated to require the same number of hours as the previous submission. The annual ADP portion of this burden package is being increased from 16,439 to 17,017 hours primarily to reflect the processing associated with the additional 60 day notices and associated records.

Affected Public: State and local government, and food stamp households.

Estimated Number of Respondents: 294,236.

Number of Responses per Respondent: 6.08.

Total Number of Annual Responses: 1,790,109.

Estimated Hours per Response: 0.03.

Estimated Total Annual Burden: 58,896 hours.

Dated: May 18, 2006.

George A. Braley,

Acting Administrator, Food and Nutrition Service.
