

MEPA and Federal NEPA processes will run concurrently and be analyzed together, within the NEPA document.

## 2. Solicitation of Comments and Issues Under This Notice of Intent

Pursuant to the regulations (40 CFR 1508.22) implementing the procedural provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), the MMS is announcing its intent to prepare an EIS for the CWA project. The EIS analysis will focus on the potential environmental effects of the development, operations and decommissioning on the proposed action area and alternatives. This NOI also serves to announce the initiation of the written scoping process for this EIS. The scoping process allows Federal, State, tribal, and local governments and other interested parties to aid the MMS in determining the significant issues, potential alternatives, and mitigating measures to be analyzed in the EIS and the possible need for additional information. The MMS is considering potential alternatives to the proposed action such as: modifying the size of the development, phasing the development, reconfiguring the development, and considering alternative sites. These and any additional alternatives developed through the scoping and analytical processes will be considered in the decision process. Alternatives to be considered in the EIS include:

- Proposed Action.
- Phased installations and operations of wind turbine generators.
- Alternative locations.
  1. South of Tuckernuck Island.
  2. Nantucket Shoals.
  3. Monomoy Shoals.
  4. Deepwater Alternative—East of Nauset Beach.
- No Action.

## 3. Instructions on Notice of Intent

Federal, State, tribal, and local governments and other interested parties are requested to send their written comments on the scope of the EIS, significant issues that should be addressed, and potential alternatives and mitigating measures. Written comments will be accepted by mail or through the MMS Web site noted below. Comments are due no later than July 14, 2006.

Mailed comments should be enclosed in an envelope labeled, "Comments on

the Notice of Intent to Prepare an EIS on the Cape Wind Project." The MMS will also accept written comments submitted to our electronic public commenting system. This system can be accessed at <http://www.mms.gov/offshore/RenewableEnergy/Projects.htm>.

- Mail written comments to: Comments on the Notice of Intent to Prepare an EIS on the Cape Wind Project, Minerals Management Service, 381 Elden Street, Mail Stop 4042, Herndon, VA 20164.

Our practice is to make comments, including names and addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their address from the rulemaking record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

## 4. Cooperating Agency

The Department of the Interior invites other Federal, State, tribal, and local governments to consider becoming cooperating agencies in the preparation of the EIS. We invite qualified government entities to inquire about cooperating agency status for the Cape Wind EIS. Under guidelines from the Council of Environmental Quality (CEQ), qualified agencies and governments are those with "jurisdiction by law or special expertise." Potential cooperating agencies should consider their authority and capacity to assume the responsibilities of a cooperating agency and to remember that your role in the environmental analysis neither enlarges nor diminishes the final decisionmaking authority of any other agency involved in the NEPA process. Upon request, the MMS will provide potential cooperating agencies with a written summary of ground rules for cooperating agencies, including time schedules and critical action dates, milestones, responsibilities, scope and detail of cooperating agencies' contributions, and availability of pre-decisional information. You should also consider the "Factors for Determining Cooperating Agency Status" in

Attachment 1 to CEQ's January 30, 2002, Memorandum for the Heads of Federal Agencies on Cooperating Agencies in Implementing the Procedural Requirements of the National Environmental Policy Act. A copy of this document is available at: <http://ceq.eh.doe.gov/nepa/regs/cooperating/cooperatingagenciesmemorandum.html> and <http://ceq.eh.doe.gov/nepa/regs/cooperating/cooperatingagencymemofactors.html>.

The MMS, as the lead agency, will not be providing financial assistance to cooperating agencies. Even if your organization is not a cooperating agency, you will continue to have opportunities to provide information and comments to the MMS during the normal public input phases of the NEPA/EIS process. The MMS will also consult with tribal governments on a Government-to-Government basis. If you would like further information about cooperating agencies, please contact Dr. Rodney E. Cluck, the MMS's Cape Wind project manager at 703-787-1087.
