

as those offered by ENERGY STAR; developing and implementing a plan to improve energy performance in their facilities and operations by following the energy management strategy provided by ENERGY STAR; and educating staff and the public about their Partnership with ENERGY STAR, and highlighting achievements with the ENERGY STAR, where available.

Partners also may be asked to periodically submit information to EPA as needed to assist in program implementation. For example, EPA maintains the Service and Product Provider Directory to provide the public with easy access to energy efficiency services and products that can help companies lower operating costs and increase their bottom line. Businesses wishing to appear in this directory are asked to submit a completed profile that details their services and products.

Partnership in ENERGY STAR is voluntary and can be terminated by Partners or EPA at any time. EPA does not expect organizations to join the program unless they expect participation to be cost-effective and otherwise beneficial for them.

In addition, Partners and any other interested party can help EPA promote energy-efficient technologies by evaluating the efficiency of their buildings using EPA's on-line tools (e.g., Portfolio Manager) and applying for recognition. EPA does not expect to deem any information collected under ENERGY STAR to be Confidential Business Information (CBI).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information will vary depending on the type of participant, the specific collection activity, and other factors. The annual burden for joining ENERGY STAR and conducting related activities is estimated to range from about 2 to 8 hours per respondent. This includes time for preparing and submitting the Partnership Letter or Agreement and other information as requested. The burden for applying for an ENERGY STAR is estimated to range from about 5.5 to 10.5 hours per respondent. This includes time for reading the instructions of the benchmarking tool if needed, gathering and entering information on building characteristics and energy use into the tool, printing a Statement of Energy Performance, and preparing/submitting the ENERGY STAR application materials to EPA. The burden for applying for an ENERGY STAR Award is estimated to range from 4 to 26.5 hours per respondent. This includes time for preparing and submitting the awards application materials to EPA.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 5,000.

Frequency of response: One-time, annually, and/or periodically, depending on the type of respondent and collection.

Estimated total annual burden hours: 83,343.

Estimated total annual costs: \$6,594,941. This includes a cost of \$5,054,411 for labor and \$1,540,530 for operation and maintenance. There is no capital/start-up cost to respondents.

Are There Changes in the Estimates From the Last Approval?

The burden estimates presented in this document are from the last approval. EPA is currently evaluating and updating these estimates as part of the ICR renewal process. EPA will discuss its updated estimates, as well as changes from the last approval, in the next **Federal Register** notice to be issued for this renewal.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: May 24, 2006.

Kathleen Hogan,

Director, Climate Protection Partnerships Division.

Adequacy Determination for the Missoula, MT Carbon Monoxide Maintenance State Implementation Plan for Transportation Conformity Purposes; State of Montana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: In this document, EPA is notifying the public that we have found that the motor vehicle emissions budgets in the Missoula, Montana Carbon Monoxide Maintenance Plan, that was submitted by Montana Governor Brian Schweitzer with a letter signed May 27, 2005, are adequate for transportation conformity purposes. 40 CFR 93.118(e)(2) requires that EPA declare an implementation plan submission's motor vehicle emissions budgets adequate for conformity purposes prior to the budgets being used to satisfy the conformity requirements of 40 CFR part 93. As a result of our finding, the Missoula City-County, the Montana Department of Transportation and the U.S. Department of Transportation are required to use the motor vehicle emissions budgets from this submitted maintenance plan for future transportation conformity determinations.

DATES: This finding is effective June 16, 2006.

FOR FURTHER INFORMATION CONTACT: Jeffrey Kimes, Air & Radiation Program (8P-AR), United States Environmental Protection Agency, Region 8, 999 18th Street, Suite 300, Denver, Colorado 80202-2466, (303) 312-6445, kimes.jeffrey@epa.gov.

The letter documenting our finding is available at EPA's conformity Web site: <http://www.epa.gov/otaq/transp/conform/adequacy.htm>.

SUPPLEMENTARY INFORMATION:

Throughout this document "we", "us", or "our" are used to mean EPA.

This action is simply an announcement of a finding that we have already made. We sent a letter to the State of Montana, Department of Environmental Quality on May 4, 2006, stating that the motor vehicle emission

budgets in the submitted Missoula, Montana Carbon Monoxide Maintenance Plan are adequate. This finding has also been announced on our conformity Web site at <http://www.epa.gov/otaq/transp/conform/adequacy.htm>.

Transportation conformity is required by section 176(c) of the Clean Air Act. Our conformity rule requires that transportation plans, programs, and projects conform to SIPs and establishes the criteria and procedures for determining whether or not they demonstrate conformity. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy review is separate from our completeness review, and it also should not be used to prejudge our ultimate approval of the SIP. Even if we find a budget adequate, the SIP could later be disapproved, and vice versa.

The process for determining the adequacy of a transportation conformity budget is described at 40 CFR 93.118(f).

For the reader's ease, we have excerpted the motor vehicle emission budget from the Missoula, Montana Carbon Monoxide Maintenance Plan and they are as follows:

Year	Emission budget (ton per day)
2005	44.86
2010	43.22
2021	42.67

40 CFR 93.118(e)(1) requires that upon a finding of adequacy these budgets must be used in transportation conformity determinations unless the maintenance plan is later disapproved by EPA.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: May 18, 2006.

Robert E. Roberts,

Regional Administrator, Region 8.

Meeting of the National Drinking Water Advisory Council—Notice of Public Meeting

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Under Section 10(a)(2) of Public Law 92-423, "The Federal Advisory Committee Act," notice is hereby given of a meeting of the National Drinking Water Advisory Council (NDWAC), established under the Safe Drinking Water Act, as amended (42 U.S.C. 300f *et seq.*). The primary purpose of this meeting is for the Council to be briefed on and discuss such national drinking water program issues as: Public Education Requirements for the Lead and Copper Rule; Lead and Copper Rule Revisions; Affordability Methodology for Small Public Water Systems; Underground Injection Control Program activities; and updates on ongoing activities, if sufficient time is available.

DATES: The Council meeting will be held on June 20, 2006, from 1:30 a.m.—5:15 p.m., June 21, 2006, from 9 a.m. to 5:30 p.m., and June 22, 2006, from 8:30 a.m.—11 a.m., Eastern Time.

ADDRESSES: The meeting will be held at The Madison Hotel, located at 1177 15th Street, NW., Washington, DC 20005.

FOR FURTHER INFORMATION CONTACT: Members of the public who would like to attend the meeting, present an oral statement, or submit a written statement, should contact Daniel Malloy, by e-mail at malloy.daniel@epa.gov, by phone 202-564-1724, or by regular mail at the U.S. Environmental Protection Agency, Office of Ground Water and Drinking Water (MC 4601M), 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION: The meeting is open to the public. The Council encourages the public's input and will allocate one hour (4:30–5:30 p.m.) on June 21, 2006, for this purpose. Oral statements will be limited to five minutes. It is preferred that only one person present the statement on behalf of a group or organization. To ensure adequate time for public involvement, individuals or organizations interested in presenting an oral statement should notify Daniel Malloy by telephone at 202-564-1724 no later than June 9, 2006. Any person who wishes to file a written statement can do so before or after a Council meeting. Written

statements received by June 9, 2006, will be distributed to all members of the Council before any final discussion or vote is completed. Any statements received June 10, 2006, or after the meeting will become part of the permanent meeting file and will be forwarded to the Council members for their information.

Special Accommodations

For information on access or services for individuals with disabilities, please contact Dan Malloy at 202-564-1724 or by e-mail at malloy.daniel@epa.gov. To request accommodation of a disability, please contact Dan Malloy, preferably at least 10 days prior to the meeting to give EPA as much time as possible to process your request.

Dated: May 25, 2006.

Cynthia C. Dougherty,

Director, Office of Ground Water and Drinking Water.

Notice of Proposed Administrative Settlement Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement concerning the Many Diversified Interest Superfund Site, OU1, in Houston, Texas with the following party: Clinton Gregg Investments, Ltd.

Under this Agreed Order, settling parties agree to perform cleanup work on an approximately 36 acre tract it is purchasing known as Operable Unit ("OU") 1 of the Many Diversified Interests, Inc. ("MDI") Superfund Site. The settlement includes a covenant not to sue pursuant to sections 106 and 107 of CERCLA, 42 U.S.C. 9606 and 9607, and section 7003 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6973. The settling parties also agree to implement institutional controls.
