

August 10, 1999), because it merely proposes to approve a state rule implementing a Federal requirement, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This proposed rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this proposed rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order.

This proposed rule, pertaining to amendments to existing regulation provisions concerning Virginia's nonattainment, maintenance, and PSD areas, does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

#### List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

## DEPARTMENT OF HOMELAND SECURITY

### Federal Emergency Management Agency

#### 44 CFR Part 67

[Docket No. FEMA-D-7660]

#### Proposed Flood Elevation Determinations

**AGENCY:** Federal Emergency Management Agency (FEMA), Department of Homeland Security, Mitigation Division.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

**ADDRESSES:** The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

**FOR FURTHER INFORMATION CONTACT:** William R. Blanton, Jr. CFM, Acting Section Chief, Engineering Management Section, Mitigation Division, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

**SUPPLEMENTARY INFORMATION:** FEMA proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with Section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact

stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

*National Environmental Policy Act.* This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

*Regulatory Flexibility Act.* The Mitigation Division Director certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified BFEs are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are required to establish and maintain community eligibility in the NFIP. As a result, a regulatory flexibility analysis has not been prepared.

*Regulatory Classification.* This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

*Executive Order 13132, Federalism.* This rule involves no policies that have federalism implications under Executive Order 13132.

*Executive Order 12988, Civil Justice Reform.* This rule meets the applicable standards of Executive Order 12988.

#### List of Subjects in 44 CFR Part 67

Administrative practice and procedure, flood insurance, reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

#### PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

**Authority:** 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

#### § 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

Source of flooding	Location of referenced elevation	#Depth in feet above ground. *Elevation in feet (NGVD) •Elevation in feet (NAVD)		Communities affected
		Effective	Modified

(Catalog of Federal Domestic Assistance No. 83.100, "Flood Insurance.")  
 Dated: June 5, 2006.

**David I. Maurstad,**  
 Director, Mitigation Division, Federal  
 Emergency Management Agency, Department  
 of Homeland Security.  
 [FR Doc. 06-5309 Filed 6-9-06; 8:45 am]  
**BILLING CODE 9110-12-P**

**DEPARTMENT OF HOMELAND  
 SECURITY**

**Federal Emergency Management  
 Agency**

**44 CFR Part 67**

[Docket No. FEMA-D-7662]

**Proposed Flood Elevation  
 Determinations**

**AGENCY:** Federal Emergency  
 Management Agency (FEMA),  
 Department of Homeland Security,  
 Mitigation Division.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or  
 comments are requested on the  
 proposed Base (1% annual chance)  
 Flood Elevations (BFEs) and proposed  
 BFE modifications for the communities  
 listed below. The BFEs are the basis for  
 the floodplain management measures  
 that the community is required either to  
 adopt or to show evidence of being  
 already in effect in order to qualify or  
 remain qualified for participation in the  
 National Flood Insurance Program  
 (NFIP).

**DATES:** The comment period is ninety  
 (90) days following the second  
 publication of this proposed rule in a  
 newspaper of local circulation in each  
 community.

**ADDRESSES:** The proposed BFEs for each  
 community are available for inspection  
 at the office of the Chief Executive  
 Officer of each community. The  
 respective addresses are listed in the  
 table below.

**FOR FURTHER INFORMATION CONTACT:**  
 William R. Blanton, Jr. CFM, Acting  
 Section Chief, Engineering Management  
 Section, Mitigation Division, 500 C  
 Street, SW., Washington, DC 20472,  
 (202) 646-3151.

**SUPPLEMENTARY INFORMATION:** FEMA  
 proposes to make determinations of  
 BFEs and modified BFEs for each  
 community listed below, in accordance  
 with Section 110 of the Flood Disaster  
 Protection Act of 1973, 42 U.S.C. 4104,  
 and 44 CFR 67.4(a).

These proposed BFEs and modified  
 BFEs, together with the floodplain  
 management criteria required by 44 CFR  
 60.3, are the minimum that are required.  
 They should not be construed to mean  
 that the community must change any  
 existing ordinances that are more  
 stringent in their floodplain  
 management requirements. The  
 community may at any time enact  
 stricter requirements of its own, or  
 pursuant to policies established by other  
 Federal, State or regional entities. These  
 proposed elevations are used to meet  
 the floodplain management  
 requirements of the NFIP and are also  
 used to calculate the appropriate flood  
 insurance premium rates for new  
 buildings built after these elevations are  
 made final, and for the contents in these  
 buildings.

*National Environmental Policy Act.*  
 This proposed rule is categorically  
 excluded from the requirements of 44  
 CFR part 10, Environmental  
 Consideration. No environmental  
 impact assessment has been prepared.

*Regulatory Flexibility Act.* The  
 Mitigation Division Director certifies  
 that this proposed rule is exempt from  
 the requirements of the Regulatory  
 Flexibility Act because proposed or  
 modified BFEs are required by the Flood  
 Disaster Protection Act of 1973, 42  
 U.S.C. 4104, and are required to  
 establish and maintain community  
 eligibility in the NFIP. As a result, a  
 regulatory flexibility analysis has not  
 been prepared.

*Regulatory Classification.* This  
 proposed rule is not a significant  
 regulatory action under the criteria of  
 Section 3(f) of Executive Order 12866 of  
 September 30, 1993, Regulatory  
 Planning and Review, 58 FR 51735.

*Executive Order 13132, Federalism.*  
 This rule involves no policies that have  
 federalism implications under Executive  
 Order 13132.

*Executive Order 12988, Civil Justice  
 Reform.* This rule meets the applicable  
 standards of Executive Order 12988.

**List of Subjects in 44 CFR Part 67**

Administrative practice and  
 procedure, flood insurance, reporting  
 and recordkeeping requirements.

Accordingly, 44 CFR part 67 is  
 proposed to be amended as follows:

**PART 67—[AMENDED]**

1. The authority citation for part 67  
 continues to read as follows:

**Authority:** 42 U.S.C. 4001 *et seq.*;  
 Reorganization Plan No. 3 of 1978, 3 CFR,  
 1978 Comp., p. 329; E.O. 12127, 44 FR 19367,  
 3 CFR, 1979 Comp., p. 376.

**§ 67.4 [Amended]**

2. The tables published under the  
 authority of § 67.4 are proposed to be  
 amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD) •Elevation in feet (NAVD)	
				Existing	Modified
Massachusetts .....	Plymouth (Town), .. Plymouth County ...	Plymouth ..... Harbor/Plymouth Bay .....	At Clarks Island ..... Approximately 500 feet north of the inter- section of State Route 3A and Clifford Road.	•12 •18	•10 •29
