## FEDERAL TRADE COMMISSION

### Granting of Request for Early Termination of the Waiting Period Under the Premerger Notification Rules

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

The following transactions were granted early termination of the waiting period provided by law and the premerger notification rules. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period.

## GENERAL SERVICES ADMINISTRATION

### Notice of Intent to Prepare an Environmental Impact Statement (EIS) for Consolidation of the Two Existing NIOSH Facilities in Cincinnati, Ohio

**AGENCY:** Public Buildings Service, GSA

**ACTION:** Notice of Intent (NOI) to Prepare EIS

**SUMMARY:** Pursuant to the requirements of the National Environmental Policy Act (NEPA) of 1969, and the President's Council on Environmental Quality Regulations (40 CFR parts 1500-1508),

as implemented by General Services Administration (GSA) Order PBS P 1095.4D, GSA announces its Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS) for the proposed consolidation of the two existing NIOSH facilities, the Robert A. Taft Laboratory and the Alice Hamilton Laboratory buildings, into a single consolidated facility at a new location in Ohio.

**SUPPLEMENTARY INFORMATION:** The delineated area for this project is defined as follows; starting at Exit 54 on Interstate Highway I-275 northeast of Cincinnati; then running clockwise along a line approximately two miles east and parallel to Interstate Highway I-275 south to the Ohio River; then west along the Ohio River to a point where it intersects with Interstate Highway I-75; then north and northeast along Interstate Highway I-75 until it intersects with Ohio State Highway 126 at Exit 104; then east along Ohio State Highway 126 until it intersects with US Highway 22 (Montgomery Rd.); from this point east along a line back to Exit 54 on Interstate Highway 275.

The purpose of this proposed action is to consolidate these facilities, which have been occupied for the past 50 years

and are outdated and inefficient, into a new consolidated facility. The need for this action is for NIOSH to collocate operational functions into a single location to eliminate the inherent inefficiencies associated with the current separated and outdated facilities.

The EIS will examine the impacts of this proposed development on the natural and human environment to include impacts to wetlands, floodplains, traffic, historic resources, and other potential impacts identified by the community through the scoping process.

The consolidated facility will be acquired by the Government, and may be an existing facility, or may be property acquired for the construction of a new facility. GSA, as agent for CDC, will develop a list of alternate site locations based on the criteria for the project. The site and must be large enough to accommodate the needed 350,000 square feet of usable space with 1100 employees. The minimum site size needed will be approximately 14 acres. The technical site evaluation criteria are:

## GENERAL
