Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Notice of Filing of Proposed Rule Change Relating to Order Entry and Execution Practices

January 17, 2006.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 8, 2005, the National Association of Securities Dealers, Inc. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

NASD is proposing to add Rule 3380 to prohibit members and associated persons from splitting any order into multiple smaller orders for execution or any execution into multiple smaller executions for transaction reporting for the primary purpose of maximizing a monetary or in-kind payment to the member or associated persons as a result of the execution of such orders or the transaction reporting of such executions. The text of the proposed rule change appears below. Additions are in *italics*.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASD included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASD has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

"Trade shredding" is a term used to describe the practice of splitting customer orders for securities into multiple smaller orders (e.g., a 1,000 share order is split into 10 100 share orders) for the primary purpose of maximizing payments or rebates to the member. Among other things, concerns have been raised about market participants increasingly engaging in the practice of trade shredding as a means to increase their share of market data revenues under the joint industry plans ("Plans"),³ where the Plan participant has adopted a practice of sharing its Plan revenues with market participants who send it orders. Specifically, because the current allocation formulas for distributing Plan income heavily emphasize the number of trades, no matter how small the size of the trade, an incentive can exist for market participants to engage in distortive behavior, such as trade shredding, as a

means to increase their share of market data revenues.

To address these concerns, among others, the Commission adopted Regulation NMS, which contains amendments to the current Plan formulas used to allocate Plan income.⁴ These modifications incorporate a more broad-based measure of a self-regulatory organization's ("SRO") contribution to the consolidated trade stream, including both an SRO's quotes and trades, intended to reduce the incentives for trade shredding.

Although these modifications in Plan formulas should reduce the incentives for trade shredding, the Commission continues to believe that SRO rules prohibiting trade shredding are necessary and appropriate and has requested that all SROs implement rule changes to inhibit the practice of trade shredding. In response to the Commission's request, NASD is proposing to adopt new Rule 3380, which would prohibit such practices. Specifically, new Rule 3380 would prohibit members and associated persons from splitting any order into multiple smaller orders for execution or any execution into multiple smaller executions for transaction reporting for the primary purpose of maximizing a monetary or in-kind payment to the member or associated persons as a result of the execution of such orders or the transaction reporting of such executions. For purposes of the proposed new rule, "monetary or in-kind amount" shall be defined to include, but not be limited to credits, commissions, gratuities, payments for or rebates of fees, or any other payments of value to the member or associated person.

2. Statutory Basis

NASD believes that the proposed rule change is consistent with Section 15A(b)(6) of the Act,⁵ which requires, among other things, that NASD rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. NASD believes that the proposed rule change will further the goal of preventing manipulative acts and practices by prohibiting this potentially distortive practice.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASD believes that the proposed rule change will impose no burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

NASD has neither solicited nor received comments on this proposal.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve such proposed rule change, or
- (B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
