FOR FURTHER INFORMATION CONTACT: John O'Connell, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 300 12th Street, SW., Room 112, Washington, DC 20250–3700, (202) 720–0345.

SUPPLEMENTARY INFORMATION:

Title: Exportation, Transportation, and Importation of Meat and Poultry Products.

OMB Number: 0583–0094.

Expiration Date of Approval: October 31, 2006.

Type of Request: Extension of a currently approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting extension of an approved information collection addressing paperwork and recordkeeping requirements regarding the collection of information concerning the exportation, transportation, and importation of meat and poultry products. The Agency requires that meat and poultry establishments exporting product to foreign countries complete an export certificate. Establishments must supply the type, the amount, and the destination of product being exported. The form is necessary to certify to the importing countries that FSIS inspectors have inspected the product.

Meat and poultry products not bearing the mark of inspection and shipped from one official establishment to another must be transported under

FSIS seal to prevent such unmarked product from entering commerce. To track product shipped under seal, FSIS requires shipping establishments to complete a form that identifies the type, amount, and weight of the product.

A foreign country exporting meat or poultry products to the U.S. must establish eligibility to import product into the U.S. and annually certify that its inspection system is equivalent to the U.S. inspection system. To maintain eligibility, a written report must be prepared monthly by a representative of the foreign inspection system for each establishment listed in the certification. Additionally, meat and poultry products intended for import into the U.S. must be accompanied by a health certificate, signed by an official of the foreign government, stating that the products have been produced by certified foreign establishments. Establishments or brokers wishing to import product into the United States must complete a form that specifies the type, amount, originating country, and destination of the product. The amount of meat and poultry product imported into the United States is included in FSIS' annual Report to Congress. Additionally, the Agency has established procedures allowing establishments importing product to stamp such product with the inspection legend before FSIS inspection, if they receive FSIS prior approval.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of 24 hours per annum to collect and submit this information to FSIS.

Respondents: Meat and poultry establishments, and importers and exporters.

Estimated No. of Respondents: 5,436.

Estimated No. of Annual Responses per Respondent: 294.

Estimated Total Annual Burden on Respondents: 127,838 hours.

Copies of this information collection assessment can be obtained from John O'Connell, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 300 12th Street, SW., Room 112, Washington, DC 20250–3700, (202) 720–5627, (202) 720–0345.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS' functions, including whether the information will have practical utility; (b) the accuracy of FSIS' estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility,
